## NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2005

### Note 6 - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires that aggregate indebtedness shall not exceed fifteen times net capital. In addition, the Company is required to maintain a minimum net capital of \$50,000. At December 31, 2005, the Company's net capital was \$102,131, which was \$52,131 in excess of the required net capital, and the Company's aggregate indebtedness to net capital ratio was 0.12 to 1.

There are no material differences between the amounts presented above, which are the amounts based on the accompanying audited financial statements, and the amounts reported in the Company's focus report filed in January, 2006.

### Note 7 - Financial Instruments With Off-Balance Sheet Risk

The Company introduces all customer transactions in securities traded in U.S. securities markets to another New York Stock Exchange member firm on a fully disclosed basis. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to non-performance by customer or counterparties.

The Company's exposure to credit risk associated with the non-performance of customers and counterparties in fulfilling their contractual obligations pursuant to these securities transactions can be directly impacted by volatile trading markets, which may impair the customer's or counterparty's ability to satisfy their obligations to the Company.

In the event of non-performance the Company may be required to purchase or sell financial instruments at unfavorable market prices resulting in a loss to the Company. The Company does not anticipate non-performance by customers and counterparties in the above situations.

The Company seeks to control the aforementioned risks by requiring customers or counterparties to maintain collateral in compliance with regulatory requirements, the clearing broker's guidelines and industry standards. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral, or to reduce positions, when necessary. The Company also has a policy of reviewing the credit standing of each customer and counterparty with which it conducts business.
