NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2006

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated in the state of Illinois on October 15, 1982. The Company is registered with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers, Inc. The Company's principal business activity is the sale of securities.

Securities Owned - Securities positions are valued at market value and securities not readily marketable are valued at fair value as determined by the board of directors. The resulting difference between cost and market (or fair value) is included in income.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with a maturity date, when purchased by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Concentration of Risk - Substantially all the Company's cash is on deposit at one financial institution and the balance at times may exceed the federally insured limit. Due to the strong credit rating of this financial institution, the Company believes it is not exposed to any significant credit risk to cash.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2006

NOTE 2 - CLEARING AGREEMENT WITH OFF-BALANCE-SHEET RISK

The Company's customers enter into various transactions involving derivatives and other off-balance-sheet financial instruments, including exchange traded options. These derivative financial instruments are subject to varying degrees of market and credit risk. However, since the Company enters into the aforementioned transactions only for the benefit of its customers, the Company does not bear any of the credit or market risk of those customers, with the exception of the risk to the Company should its customers fail to honor their obligations related to these derivative and other off-balance sheet financial instruments, as mentioned below.

Clearing Agreement - To facilitate the aforementioned transactions, as well as other securities transactions on behalf of its customers, the Company has entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced transactions are performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. The Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity. The Company is required to have a \$10,000 deposit with the Clearing Broker/dealer to assure the Company's performance under the agreement and this amount is included with "Receivable from broker/dealers" on the statement of financial condition. In addition, the Company is restricted from entering into similar agreements except under certain circumstances.
