INDEPENDENT AUDITORS' REPORT

Board of Directors
Cummins Financial Corporation

We have audited the accompanying statement of financial condition of Cummins Financial Corporation (the "Company") as of May 31, 2006. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Cummins Financial Corporation as of May 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

CUMMINS FINANCIAL CORPORATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MAY 31, 2006

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

Cummins Financial Corporation (the "Company") was incorporated in the State of New York on June 20, 2003 and operates as a registered securities broker/dealer under the rules of the National Association of Securities Dealers ("NASD").

The Company received approval from the NASD on April 19, 2004 to operate as a fully-disclosed broker/dealer and commenced revenue operations in early 2005. The Company has had limited sources of revenue from inception through May 31, 2006 and has an accumulated deficit of \$241,692 at May 31, 2006. The Company is currently attempting to expand its client base, become license in additional states, and generate sufficient revenue. Should the Company continue to experience operating losses during the year ended May 31, 2007, it will be necessary to raise additional funds from its shareholder and/or lenders in order to continue as a going concern and maintain the Company's required net capital. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of business.

The Company manages its customer accounts through RBC Dain Correspondent Services ("RBC Dain") on a fully disclosed basis. RBC Dain provides services, handles the Company's customers' funds, holds securities, and remits monthly activity statements to the customers on behalf of the Company.

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Office Equipment

Office equipment is recorded at cost and depreciated over the estimated useful lives of those assets using the straight-line and accelerated methods. Expenditures for routine maintenance and repairs are charged to expenses as incurred.

Cash and Cash Equivalents

Cash and cash equivalents (excluding cash on deposit with RBC Dain) include all highly liquid investments, if any, purchased with an original maturity of three months or less. The Company periodically maintains cash balances with financial institutions that are in excess of the insured limit.

Fair Value of Financial Instruments

Cash, accounts payable and accrued expenses are recorded in the financial statements at cost, which approximates fair value because of the short-term maturity of those instruments. The fair market value of the capital lease obligations are approximately the same as the recorded value since their terms are similar to current market rates and terms.

**CUMMINS FINANCIAL CORPORATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MAY 31, 2006**

NOTE 2. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission uniform net capital rule (rule 15c3-1), which requires the maintenance of minimal net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of May 31, 2006, the Company had net capital of \$24,110, which was \$19,110 in excess of its required net capital of \$5,000. The Company had a ratio of aggregate indebtedness to net capital of 1.69 to 1, based on an aggregated indebtedness of \$40,643 as of May 31, 2006.

NOTE 3. SECURITIES OWNED AND SECURITIES SOLD BUT NOT YET PURCHASED

Securities owned and securities sold but not yet purchased consist of marketable trading and investment securities at quoted market values. These securities consisted of corporate stocks as of May 31, 2006.

NOTE 4. OFFICE EQUIPMENT

Office equipment consists of the following as of May 31, 2006:

Computer equipment	\$ 9,858
Telephone equipment	2,134
Total cost	11,992
Less: Accumulated depreciation	7,078
Property and equipment, net	\$ 4,914

NOTE 6. CAPITAL LEASES OBLIGATION

In January 2004 and 2005, certain office equipment was acquired under the provisions of long-term leases, and the Company has capitalized the minimum lease payments. The lease payments are for four years. As of May 31, 2006, the leased equipment has a recorded cost of \$9,858 and total accumulated amortization of \$6,083.

Future minimum lease payments under the capital leases and the net present value of the future minimum lease payments subsequent to May 31, 2006 are as follows:

2007	\$ 3,613
2008	2,985
2009	1,441
Total minimum lease payments	8,039
Less amount representing interest	1,662
Present value of net minimum lease payment	\$ 6,377

CUMMINS FINANCIAL CORPORATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MAY 31, 2006

NOTE 8. CONCENTRATIONS AND CREDIT RISKS

Financial Instruments With Off-Balance Sheet Risk

The Company will periodically sell securities that it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at market values of the related securities and will incur a loss if the market value of the securities increases subsequent to May 31, 2006.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts.

In connection with these activities, the Company executes and clears customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations.

The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company and its clearing broker monitor required margin levels and, pursuant to regulatory guidelines, require the customers to deposit additional collateral or to reduce positions when necessary.

The Company's customer financing and securities settlement activities require the Company to pledge customer securities as collateral in support of various secured financing sources such as bank loans and securities loaned. In the event the counter-party is unable to meet its contractual obligation to return customer securities pledged as collateral, the Company may be exposed to the risk of acquiring the securities at prevailing market prices in order to satisfy its customers' obligations. The Company controls this risk by monitoring the market value of securities pledged and by requiring adjustments of collateral levels in the event of excess market exposure. In addition, the Company establishes credit limits for such activities and monitors compliance.

Concentrations of Credit Risk

The Company is engaged in various trading and brokerage activities in which counter-parties primarily include broker-dealers, banks, and other financial institutions. In the event counter-parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter-party or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing for each counter-party.
