The Company conducts business as an introducing broker dealer. The Company deals on an agency basis in the trading of exempt and non-exempt government securities and accepts trades in equities, corporate fixed income and municipal issues. Trades are cleared on a fully disclosed basis through Pershing.

SUMMARY OF SIGNIFICANT ACCOUNT POLICIES

Trades are recorded on a trade date basis with related commission income and expenses also recorded on a trade date basis.

Property and equipment purchases over \$500 individually are capitalized. Depreciation is calculated using straight line method over a useful life of five (5) and seven (7) years.

Cash equivalents include highly liquid investments purchased with an original maturity of three months or less. The Company maintains its cash in bank deposit accounts, which at times may exceed uninsured limits. The Company has not experienced any losses in such accounts.

Securities owned are valued at market. The resulting differences between cost and market are included in income.

The Company and its stockholders have elected "C" company status under the federal and state tax laws.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

The Company is engaged in various trading and brokerage activities in which counters-parties primarily include broker-dealers, banks, and other financial institutions. In the event counter-parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter party or issuer of the instrument. It is Company's policy to review, as necessary, the credit standing of each counter party.

Management estimates that 100% of the revenues were generated in the State of California.

Note 2: NET CAPITAL REQUIREMENTS

The net Federal tax receivable of \$288,265 is included in other assets.

**INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL STRUCTURE
REQUIRED BY SEC RULE 17A-5**

Board of Directors,
Avisen Securities, Inc.
Sacramento, California

In planning and performing my audit of the financial statements of Avisen Securities, Inc. for the year ended December 31, 2005, I considered its internal control structure, for the purpose for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, I have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Avisen Securities, Inc. that I considered relevant to objectives stated in Rule 17a-5(g), (1) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e). I did not review the practices and procedures followed by the Company (i) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13, or (ii) in complying with the requirements for prompt payment for securities of Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control structure and the practice and procedures referred to in the preceding paragraph in fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the proceeding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Board of Directors,
Avisen Securities, Inc.
Page Two

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate. My consideration of the internal control structure would not necessarily disclose all matters in the internal control that might be material weakness under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including control activities for safeguarding securities, which I consider to be material weakness as defined above. In addition, my consideration of the internal control structure indicated that the Company was in compliance with the conditions of the exemption under Paragraph (k) (2) (ii) of Rule 15c3-3, and no facts came to my attention indicating that such conditions had not been complied with during the period. The scope of my engagement did not include the Anti Money Laundering provision of the U.S. Patriot Act.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2005 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 and should not be used for any other purpose.
