INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Doft & Co., Inc.

We have audited the accompanying statement of financial condition of Doft & Co., Inc. (the "Company") as of June 30, 2006, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Doft & Co., Inc. as of June 30, 2006, in conformity with accounting principles generally accepted in the United States of America.

	<u>\$ 36,926,469</u>

DOFT & CO., INC.

Notes to Statement of Financial Condition June 30, 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Doft & Co., Inc. (the "Company") is registered as a broker-dealer which clears all of its customer transactions through a correspondent broker on a fully disclosed basis.

- [1] Security transactions are recorded on a trade-date basis.
- [2] Marketable securities owned and securities sold, not yet purchased which are readily marketable are valued on the last business day of the year at the last available reported price. Securities not readily marketable, which are listed securities that are restricted for sale, are valued at fair value, using the last available reported price for freely traded securities of the issuer and applying a discount as determined by the Company's management. Because of the inherent uncertainty of valuation, the estimated values may differ significantly from the values that would have been used had a ready market for investments existed, and the differences could be material.
- [3] Furniture, fixtures and leasehold improvements are recorded at cost. Depreciation of furniture and fixtures is provided on the straight-line method based on the estimated useful lives of the assets. Leasehold improvements are being amortized on the straight-line method over the shorter of their useful lives or the term of the lease.
- [4] The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE B - STOCKHOLDER'S EQUITY

The preferred stock has preference in liquidation in the amount of \$1,000 a share and may be redeemable at the option of the Company at any time, subject to the approval of the New York Stock Exchange, Inc., at \$1,000 a share. Common stock and preferred stock have the same dividend rights and dividends are paid only if and when declared by the Board of Directors.

NOTE C - INCOME TAXES

At June 30, 2006, the Company has a deferred tax liability of approximately \$1,635,000, principally relating to unrealized gains on securities transactions.

NOTE D - EMPLOYEES' PROFIT-SHARING AND RETIREMENT PLANS

The Company maintains a profit-sharing plan and a defined contribution pension plan covering certain employees with at least one year's service. Contributions to the profit-sharing plan are at the discretion of the Company's Board of Directors and contributions to the defined contribution pension plan are equal to 10% of the eligible participants' annual compensation, as defined.

DOFT & CO., INC.

**Notes to Statement of Financial Condition
June 30, 2006**

NOTE E - COMMITMENTS AND CONTINGENCIES

Lease:

The Company leases office space pursuant to a 10-year lease agreement with an option to renew for an additional 5 years. The lease, which commenced on November 1, 1997, provided for free rent for the first nine months of the lease period. For financial statement purposes, rent expense is recognized based upon the total rentals on a straight-line basis over the life of the lease.

As of June 30, 2006, the Company provided a letter of credit in the amount of approximately \$75,000 pursuant to the terms of the lease, collateralized by a money market account with a balance of approximately \$85,000 as of June 30, 2006. Minimum annual rental payments for the lease are as follows:

<u>Year Ending June 30,</u>	
2007	\$ 220,000
2008	<u>74,000</u>
	<u>\$ 294,000</u>

Litigation:

The Company is involved in various litigation matters, including those arising out of activities as an investment banker. In the opinion of management, the ultimate resolution of these matters will not have a material adverse effect on the Company's financial position.

Financial instruments with off-balance sheet risk and concentration of credit risk:

As a nonclearing broker, the Company has its securities and its customers' transactions cleared through another broker-dealer pursuant to a clearance agreement. Substantially all of the Company's securities positions are held with the clearing broker. Recognizing the concentration of credit risk that this implies, the Company utilizes a clearing broker that is a member of major securities exchanges. Although the Company clears its customer transactions through its clearing broker, nonperformance by its customers in fulfilling their contractual obligations pursuant to securities transactions may expose the Company to risk and potential loss.

NOTE F - NET CAPITAL REQUIREMENTS

The Company is subject to the Uniform Net Capital Rule of the Securities and Exchange Commission (Rule 15c-3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At June 30, 2006, the Company had a net capital ratio of .03 to 1 and its net capital was approximately \$20,582,000 compared to the minimum requirement of \$100,000.

SUPPLEMENTARY REPORT

Eisner

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5

To the Board of Directors of
Doft & Co., Inc.

In planning and performing our audit of the financial statements and supplemental schedule of Doft & Co., Inc. (the "Company") for the year ended June 30, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by Rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Eisner

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control component does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at June 30, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the New York Stock Exchange, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
