Protected Investors of America
San Francisco, California

REPORT OF INDEPENDENT AUDITOR

I have audited the statement of financial condition of Protected Investors of America, as of June 30, 2006, and related statements of operations, changes in shareholders' equity and cash flow for year then ended (that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934). These financial statements are the responsibility of the Management of Protected Investors of America. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Protected Investors of America as of June 30, 2006, and the results of its operations, changes in shareholders equity, and cash flow for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the Supplementary Schedules on pages 9 through 12 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PROTECTED INVESTORS OF AMERICA

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

The Company is a licensed securities broker-dealer and investment advisor engaged in the sale and management of marketable securities, mutual funds, insurance and other investment products primarily in Northern California.

Security Transactions and Commissions

In accordance with industry practice, securities transactions and related commission revenues and expense are recorded on a settlement date basis. The Company has entered into a contract with National Financial Services Corp. who has agreed to act as originating broker on a fully disclosed basis for substantially all of the Company's dealings with customers' securities accounts. Accordingly, the Company has no direct receivables or payables to customers or brokers as a result of securities transactions.

The Company does have receivables and payables from and to brokers as a result of sales commissions earned on mutual funds, advisory fees and other investment programs.

Asset Management and Advisor Income

Fees from Asset Management and Advisory fees are billed quarterly and recognized when billed.

Furniture and Equipment

Furniture and fixtures are stated at cost. Depreciation is computed by an accelerated basis over estimated useful lives of three to seven years. New acquisitions are expensed to the extent allowable for Federal income tax purposes.

Asset valuations

Securities owned are stated at market values. Securities not readily marketable, include securities for which there is no market on a securities exchange or an independent publicly quoted market, and securities which cannot be offered or sold because of restriction on the transfer of the security are carried at estimated fair value as determined by management.

PROTECTED INVESTORS OF AMERICA

NOTES TO FINANCIAL STATEMENTS (Continued)

YEAR ENDED JUNE 30, 2006

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

Deferred income taxes result from reporting changes in the carrying value of securities and from deducting deferred compensation and paid time off for financial statement purposes prior to deducting those items for tax purposes.

Marketable Securities

Marketable securities are valued at market value. The resulting difference between cost and market is included in income.

Statement of Cash Flow

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

NOTE B - DEPOSIT

The Company has deposited \$50,000 with National Financial Services Corp. as security for its transactions with National. Interest is paid monthly on the deposit at the average overnight repurchase agreement rate.

NOTE C - EXECUTIVE COMPENSATION

The Company has entered into an agreement with certain officers whereby they receive base compensation plus 1.43% of the monthly revenues of the Company, excluding investment income.

Other employees receive base salary plus .69% of monthly revenue.

NOTE D - LEASE

The Company leases its offices and certain equipment under non-cancelable operating leases expiring in 2008 and 2011. Minimum rental payments for the next five years are as follows:

2007	\$101,000
2008	105,000
2009	100,000
2010	101,000
2011	70,000

PROTECTED INVESTORS OF AMERICA

NOTES TO FINANCIAL STATEMENTS (Continued)

YEAR ENDED JUNE 30, 2006

NOTE E - PENSION PLAN

The Company has established a Simple-IRA Plan for all full time employees. The Plan requires a 3% Company contribution, which amounts to \$20,500 for the June 30, 2006 year end.

NOTE F - CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of temporary cash investments and commissions receivables. The Company places their temporary cash investments with financial institutions and diversified mutual funds, thereby limiting the amount of credit exposure to any one financial institution. Concentrations of credit with respect to commissions and asset management and advisory fees receivables are limited due to the fact that most receivables are not payable to registered representatives until collected, and are due from numerous mutual funds and individuals. As of June 30, 2006, the Company's only significant concentration of credit risk was with their accounts at a commercial bank. The Company's balances on any day may exceed the insured amount by a material amount.

NOTE G - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK

The Company's transactions, as a securities broker, are executed with and on behalf of customers. The Company introduces these transactions for clearance to an Exchange member firm on a fully disclosed basis.

In the normal course of business, the Company's customer activities involve the execution of securities transactions and settlement by its clearing broker. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to nonperformance by its customers. Therefore, these activities may expose the Company to off-balance sheet credit risk in the event the customer is unable to fulfill its contracted obligations. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the customer's obligations, which may result in a loss to the Company.

The Company seeks to control off-balance sheet credit risk by monitoring its customer transactions and reviewing information it receives from its clearing broker on a daily basis.

NOTE H - CAPITAL REQUIREMENTS

The Company is required to maintain minimum net capital as defined by the Securities and Exchange Commission equivalent to the greater of \$50,000 or one-fifteenth of "aggregate indebtedness" as defined. Net capital and the related net capital ratio fluctuate on a daily basis. At June 30, 2006 the Corporation had net capital of \$819,934 and aggregate indebtedness of approximately \$935,000, a ratio of 1.06 to 1.00.

	Income tax adjustments	<u>46 600</u>	<u>(163 827)</u>
Net capital per this report			<u>\$879 934</u>

August 14, 2006

Board of Directors
Protected Investors of America
San Francisco, California

In planning and performing my audit of the financial statements of Protected Investors of America for the year ended June 30, 2006 on which I issued my report dated August 17, 2006, I considered its internal control structure, including procedures for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

I also made a study of the practices and procedures followed by the Company in making the periodic computation of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. I did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Securities and Exchange Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use of disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statement being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for safeguarding securities that I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at June 30, 2006, to meet the Commission's objectives.

This report is intended solely for the use of the Board of Directors, management, the Securities and Exchange Commission, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than those specified parties.

Certified Public Accountant
