Notes:

1. Basis of preparation

The Board is responsible for the preparation of the Group's unaudited condensed quarterly financial statements. These unaudited condensed quarterly financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants and Appendix 16 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited. They have been prepared under the historical cost convention except that available-for-sale financial assets and financial assets and liabilities are stated at fair value. These unaudited condensed quarterly financial statements should be read in conjunction with the 2004/05 annual financial statements.

The principal accounting policies and methods of computation used in the preparation of these unaudited condensed quarterly financial statements are consistent with those used in the annual financial statements for the year ended March 31, 2005 except that the Group has changed certain of its accounting policies following its adoption of new/revised Hong Kong Financial Reporting Standards ("HKFRSs") and Hong Kong Accounting Standards ("HKASs") commencing on April 1, 2005.

The substantial changes to the Group's accounting policies and the material effect of adopting these new policies are set out in note 2 below.

2. Changes in accounting policies

The effect of adopting new/revised HKASs and HKFRSs are set out below:

HKAS 17 "Leases"

The adoption of revised HKAS 17 has resulted in a change in the accounting policy relating to the reclassification of prepaid lease payments from property, plant and equipment to operating leases. The up-front prepayments made for the prepaid lease payments are expensed in the income statement on a straight-line basis over the period of the lease or where there is impairment, the impairment is expensed in the income statement. In prior years, the prepaid lease payments were accounted for at cost less accumulated depreciation and accumulated impairment losses.

The adoption of revised HKAS 17 resulted in:

	As at December 31, 2005 (unaudited) HK\$'000	As at March 31, 2005 (unaudited) HK\$'000
Decrease in property, plant and equipment	50,323	50,268
Increase in prepaid lease payments	50,323	50,268
	9 months ended December 31, 2005 (unaudited) HK\$'000	9 months ended December 31, 2004 (unaudited) HK\$'000
Decrease in depreciation expenses	905	894
Increase in amortization of prepaid lease payments	905	894

HKAS 32 "Financial Instruments: Disclosure and Presentation"

HKAS 39 "Financial Instruments: Recognition and Measurement"

The adoption of HKASs 32 and 39 has resulted in a change in the accounting policy relating to the classification of available-for-sale financial assets. It has also resulted in the recognition of derivative financial instruments at fair value and the change in the recognition and measurement of hedging activities. Until March 31, 2005, the investment securities of the Group were classified into non-trading securities and were stated in the balance sheet at fair value. In accordance with the provision of HKAS 39, the investment securities have been classified as available-for-sale financial assets and stated in the balance sheet at fair value through investment revaluation reserve, until the investment securities are disposed of or are determined to be impaired, at which time the accumulated gain or loss previously recognized in the investment revaluation reserve is included in the income statement for the period.

The adoption of HKAS 39 had no effect on opening reserves and the details of the adjustments to the balance sheet as at December 31, 2005 are as follows:

	As at December 31, 2005 (unaudited) HK\$'000
Increase in available-for-sale financial assets	190,729
Decrease in investment securities	190,729

HKFRS 2 “Share-based Payment”

The adoption of HKFRS 2 has resulted in a change in the accounting policy for share-based payments. Until March 31, 2005, the provision of share options to employees did not result in an expense in the income statement. Effective from April 1, 2005, the Group recognizes equity-settled share-based payments at fair value at the date of grant and recognizes the liabilities for cash-settled share-based payment at current fair value at each balance sheet date.

In accordance with the transitional provision of HKFRS 2, share options granted after November 7, 2002 and were unvested on April 1, 2005 were expensed retrospectively in the income statement of the respective periods. As at April 1, 2005, the Group had no option granted after November 7, 2002 and had not yet vested on that day.

The Group operates a long-term incentive program to recognize employees' individual and collective contributions, and includes three types of awards, namely share appreciation rights, restricted share units and performance share units (“Long-term Incentive Awards”). The Company reserves the right, at its discretion, to pay the award in cash or ordinary shares of the Company.

The fair value of the employee services received in exchange for the grant of the Long-term Incentive Awards is recognized as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the Long-term Incentive Awards granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of Long-term Incentive Awards that are expected to become exercisable/vested. At each balance sheet date, the Group revises its estimates of the number of Long-term Incentive Awards that are expected to become exercisable and the number of shares that are vested. It recognized the impact of the revision of original estimates, if any, in the income statement, and a corresponding adjustment to equity over the remaining vesting period.

HKFRS 3 “Business Combination”

The adoption of HKFRS 3, HKAS 36 and HKAS 38 resulted in a change in the accounting policy for goodwill. Until March 31, 2005, goodwill was:

- Amortized on a straight-line basis over a period ranging from 3 to 10 years; and
- Assessed for an indication of impairment at each balance sheet date.

In accordance with the provisions of HKFRS 3:

- The Group ceased amortization of goodwill from April 1, 2005;
- Accumulated amortization of HK\$50,650,000 as at March 31, 2005 has been eliminated with a corresponding decrease in the cost of goodwill;
- From the year ending March 31, 2006 and onwards, goodwill is tested annually for impairment, as well as when there is indication of impairment.

The Group has reassessed the useful lives of its intangible assets in accordance with the provisions of HKAS 38. No adjustment is resulted from this assessment.

The adoption of HKFRS 3 and HKAS 38 resulted in:

	As at December 31, 2005 (unaudited) HK\$'000
Increase in intangible assets	8,646
Increase in retained earnings	8,646

8. Earnings per share

(a) Basic

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the Company by the weighted average number of ordinary shares in issue during the period.

	9 months ended December 31, 2005 (unaudited)	9 months ended December 31, 2004 (unaudited)

Weighted average number of ordinary shares in issue	<u>8,829,306,067</u>	<u>7,475,320,857</u>

(b) Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding due to the effect of all dilutive potential ordinary shares. The Company has three categories of dilutive potential ordinary shares: convertible preferred shares, share options and warrants. The convertible preferred shares are antidilutive as the amount of the dividend and related finance costs in the current period per ordinary share attainable on conversion exceeds basic earnings per share and they are excluded from the weighted average number of ordinary shares in issue for calculation of diluted

earnings per share. For the share options and warrants, a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average periodic market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options and warrants. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise in full of the share options and warrants.

13. Business combinations

On April 30, 2005, the Group completed the acquisition of IBM PC Business under an assets purchase agreement dated December 7, 2004.

The estimated total consideration for acquiring the IBM PC Business is approximately HK\$9,938 million, including cash, the Company's shares and related transaction costs.

Set forth below is a preliminary calculation of goodwill:

	(unaudited) HK\$'000
Purchase consideration:	
– Cash paid	5,068,031
– Direct costs related to the acquisition	534,223
– Fair value of shares issued	4,335,392
Total purchase consideration	9,937,646
Fair value of net liabilities assumed (<i>Note</i>)	25,341
Goodwill	<u>9,962,987</u>

Note:

	(unaudited) HK\$'000
Liabilities assumed	(4,796,983)
Step-up in tangible assets	37,042
Intangible assets	4,734,600
Net liabilities assumed	<u>(25,341)</u>

The goodwill is attributable to the significant synergies expected to arise after the integration of the Group's existing business and the IBM PC Business acquired.

Intangible assets acquired that have indefinite useful life are not subject to amortization. Certain acquired intangible assets are expected to be amortized over their useful lives. Preliminary estimates indicate that the useful lives of these acquired intangible assets are expected to range from three to five years.

The acquired tangible assets primarily comprised trade receivables, inventories and plant and equipment. The liabilities assumed primarily comprised trade payables and other current liabilities.

The asset purchase agreement contains provisions that may require miscellaneous "true up" adjustments which are expected to result in cash payments between the Company and IBM. Such adjustments have not been finalized, but estimates have been recorded as part of the purchase price allocation, as indicated above. This process is expected to be finalized in the financial year 2006/2007.

15. Comparative figures

Effective from April 1, 2005, the Group has included non-based manufacturing cost in cost of sales. Non-based manufacturing cost composed of warranty, inventory loss, technical support, warehousing fee as well as outbound freight and shipment. The Board considers that it is appropriate for the Group to present its gross profit after such charge.

The adoption of revised HKAS 17 has resulted in a change in the accounting policy relating to the reclassification of prepaid lease payments from property, plant and equipment to operating leases. The up-front prepayments made for the prepaid lease payments are expensed in the income statement on a straight-line basis over the period of the lease or where there is impairment, the impairment is expensed in the income statement. In prior years, the prepaid lease payments were accounted for at cost less accumulated depreciation.

As a result, certain comparative figures have been reclassified to conform to the current period's presentation.

BUSINESS REVIEW AND PROSPECTS

Lenovo reported financial results for the three months ended December 31, 2005. Lenovo's consolidated turnover grew 392 percent year-on-year to HK\$31,066 million as a result of its acquisition of the former IBM personal computer business and strong sales growth in the China market. Gross margin went down sequentially to 13.2 percent by 0.8 percentage points; however expense-to-revenue ratio improved sequentially by 0.6 points. Lenovo attained 46 percent increase in consolidated profit before taxation of HK\$498 million with profit contribution from the acquired PC business. Profit attributable to shareholders increased 12 percent year-on-year to HK\$365 million.

Personal Computer Business

Worldwide, Lenovo PC shipments grew 12 percent year-on-year during the three months under review. During the December 2005 quarter, Lenovo accounted for 7.2 percent of the worldwide market according to industry estimates.

Lenovo continued its strong performance in China with PC shipments increased 39 percent year-on-year during the period, exceeding the market growth of 14 percent excluding Lenovo. Lenovo gained about five percentage points of market share during the December 2005 quarter, increasing its overall share to approximately 37 percent. Lenovo's positive performance in PC sales and profitability in China was attributable to the success of its transaction and relationship customer models, strong Lenovo brand, wide-ranging product portfolio and good reputation for customer service.

The Americas showed steady performance. In EMEA (Europe, Middle East and Africa), profitability improved somewhat, but the need to expand product mix continued. Asia Pacific (excluding Greater China) saw sequential volume growth but pressure on gross margin due to the current product mix.

Notebook computers represented about 49 percent of the company's revenue. During the three months under review, Lenovo saw enthusiastic market response to its newly launched wide screen models, such as ThinkPad Z60 and Tianyi 100.

Lenovo saw significant growth in desktop shipment in China and India. The benefit of adopting relationship customer model in China was more prominent during the quarter, which helped drive the shipment of Lenovo's commercial computers. In the consumer market, Lenovo's launch of new Tianjiao model – "Digital Media Center" – also met with success.

Mobile Handset Business

During the quarter ended December 31, 2005, Lenovo's mobile handset shipment grew significantly by 295 percent year-on-year, outperforming the 43 percent increase in the China market. According to industry estimates, Lenovo further improved its market share position to the fourth place with a share of 6.7 percent during the quarter. The outstanding performance was attributable to Lenovo's successful launch of innovative mobile handset models with multimedia functions and clear market positioning. Lenovo's strengthened relationship with chain-store channels also helped drive the shipment growth.

The mobile handset business had seen significant improvement on its competitiveness and profitability over time. To enhance its control over this profitable business, Lenovo acquired the remaining 19.2 percent equity interest in the mobile handset joint venture at a cash consideration of approximately HK\$68 million. Upon completion of the acquisition, the joint venture will become a wholly-owned subsidiary of Lenovo.

Prospects

With the integration of former IBM personal computer business on track and our organizational integration complete, Lenovo is preparing for our next phase of growth. In December 2005, we announced the appointment of William J. Amelio as our CEO and President to succeed Stephen M. Ward. We believe William Amelio's combined experience – in the PC industry, in emerging and mature markets, in senior operational roles and with IBM – gives him the perfect profile to lead Lenovo from the important stability we have achieved in the first phase of integration, to the profitable growth and efficiency improvement to which we are committed.

Looking ahead, Lenovo will place increased focus on improving its cost and expense structure. In international business, Lenovo can leverage its success in China by enhancing its product portfolio and strengthening its dual transaction and relationship customer models. This will enable Lenovo to address the high-growth segments of the PC market including the small- and medium-sized businesses and emerging markets. We believe these efforts will enable Lenovo to deliver enhanced returns to its shareholders in the long run.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S SECURITIES

There was no purchase, sale or redemption by the Company or any of its subsidiaries, of the Company's listed securities during the nine months ended December 31, 2005.
