Third parties' total liabilities arising from security including pledge or guarantee provided by the Company in 4Q2005: ***none***

2.3.4. The issuer's other liabilities.

The Company did not have any agreements nor did it have forward transactions which were not included into its accounting balance-sheet and which have been able to materially affect the Company's financial standing, liquidity, sources of financing and terms under which the sources are employed, performance and expenses for 4Q2005.

2.4. The goal of the issue and the appropriation of funds raised through placement of issue-grade securities.

The Company did not place any securities in the reporting period.

2.5. Risks associated with the acquisition of placed issue-grade securities or those being placed.

2.5.1. Industry risks.

The Company's activities including exploration, development and operation of oil and gas fields, oil and gas transportation and refining/processing as well as products marketing are a comprehensive process that entails a number of industry-related technological risks.

In the upstream sector, the Company's efforts to keep its oil and gas production stable, maintain and upgrade fixed assets and introduce new

equipment and technologies allow it to minimize the impact of industry-associated technological risks on its industrial process and financial performance.

Russian oil companies tend to suffer a harder blow with world oil price fluctuation caused by the following:

- economic growth rate of the largest oil importers;**
- OPEC decisions on crude oil production quotas and exports to the global market;**
- political stability in the Middle East;**
- changes in prospective world crude oil reserves.**

Domestic oil prices are subject to the following:

- crude oil export capacities growth rate;**
- economic situation and economic growth rate;**
- inflation rate;**
- world oil price fluctuations affecting profitability of crude oil and petroleum products exports.**

2.5.2. Country and region risks.

The Company operates in the Khanty-Mansiysky and Yamalo-Nenetsky Autonomous Okrugs of the Tyumenskaya Oblast, in the Republic of Sakha (Yakutia), and in the northwestern and central parts of the Russian Federation. These regions are unlikely to face any major seismic hazard or high probability of natural disasters. Some parts of the Republic of Sakha (Yakutia) are prone to seasonal floods that cannot, however, have a considerable impact on the Company's operations.

It is thanks to its effective business practices aimed at a long-term growth, its social responsibility to the state, society and personnel as well as to the sustained development of the country and regions of its core activities that the Company faces no high country or region risks.

2.5.3. Financial risks.

The Company's export marketing activities generate a substantial portion of proceeds.

Since the US dollar is a basic accounting currency of export contracts, any changes in the RUR/USD exchange rate may have a substantial influence on the Company's financials. Pursuing its short-term and long-term financial investment policy, the Company's seeks to reduce risks associated with adverse change in rate of exchange.

Risks associated with interest rate change have less impact on the Company's operations owing to the Company's strong financial position, the absence of heavy debts, and the availability of cash assets necessary to

implement strategic projects. Though, fluctuation of interest rates caused by country risks reevaluation may make the Company reconsider its target rate of return on investment projects.

A substantial part of the Company's expenses is determined by the price environment in Russia, e.g. by natural monopolies' service rates, and may become vulnerable to a higher inflation. Drawing up financial plans and budgets, the Company includes forecast inflation rates thus to mitigate an inflation impact on its operating activities.

2.5.4. Legal risks.

Changes in the tax legislation (e.g. higher tax rates or changes in due dates/ procedure for tax calculation and payment), limits on mineral resources export through imposing tariff/non-tariff restrictions, higher oil export tariffs may reduce the Company's profit.

Changes in licensing of the Company's activities may increase the period needed to prepare documents required to have a license extended and cause the Company to bring its operations in line with established requirements. However, this risk should be deemed insignificant except for the case, when to have a license extended or to carry out its activities which are subject to licensing, the Company shall meet requirements which are either impossible to meet or possible to meet through excessive costs that can force the Company to cease these activities.

Changes in the judicial practice are primarily associated with changes in the legislation. Nevertheless, the probability of such changes which may seriously affect the Company's activities is low.

2.5.5. Risks associated with the issuer's activities.

Key factors that may substantially affect the Company's operations are external ones such as changes in oil prices in both world and domestic markets, the throughput capacity of the Russian transportation system, higher transport and electricity tariffs, and higher taxes imposed on Russian oil producers.

In 4Q2005, oil and associated petroleum gas production at the Company's fields under development amounted to 16.365 mn tons and 3.757 bcm, respectively.

b) Mineral resources processing

The Company has its own associated gas processing division and a refinery in Kirishi - "KINEF" Ltd. - that refines oil and manufactures petrochemicals.

c) Products marketing

The Company is currently marketing its oil and oil products without any additional permits.

Federal Law 147-FZ dated 17.08.1995 "On Natural Monopolies" grants duly registered oil producers and their parent companies access to the Russian trunk pipeline system and marine terminals to transport oil outside the customs territory of the Russian Federation, proportionally to the oil output pumped into the trunk pipeline system with a 100% trunk pipeline transmission capacity (depending on their engineering capabilities).

3.2.10. Further requirements for issuers primarily engaged in communications services.

Communications services are not the Company's core business.

3.3. The issuer's plans.

In 2006, the Company will go on prospecting at the existing licensed blocks as well as analyzing and making arrangements for the acquisition of new reserves in promising oil and gas bearing regions of the Russian Federation.

In 2006, the Company will continue producing hydrocarbons in the Khanty-Mansiysky Autonomous Okrug and in the Republic of Sakha (Yakutia).

Hydrocarbon production is planned to reach more than 82 mn tons of oil equivalent, including 67.1 mn tons of oil and 15.2 bcm of gas.

On the refining side, the Company will continue upgrading its production facilities, increasing production efficiency, equipment reliability and ecological security. Pursuing its cost cutting program, the Company plans to enhance equipment performance, which will translate into fuel, steam and energy savings.

Oil refining is planned to amount to 19.7 mn tons.

In 2006, the Company will continue its gas processing facilities renovation program. Gas processing is planned to amount to 4.8 bcm.

R&D at OJSC "Surgutneftegas"

In 2005, research engineers at the Company's R&D Institute "SurgutNIPIneft" were carrying out 57 research projects; third-party contractors completed another 47 projects.

As part of these projects, the Company's engineers were working on field development plans, geologic and mathematical models of producing fields as well as testing exploratory and development wells and studying core samples and reservoir fluids.

Test well operations included introduction of drilling mud, cements, insulating compositions and well-killing fluids as well as simulation of in-situ combustion processes.

Monitoring changes in the business environment and tax legislation, the Company's experts were improving methods of project feasibility study.

Much work was under way on the method, software, and administrative support for the integrated geological-geophysical and production database, on the preparation of long-term formation stimulation plans, on the feasibility study for a higher productive rate due to various methods, on the streamlining of field designs and development strategies on the basis of mathematical models of fluid flow, which take into consideration all the known features of formation geological structures, production methods, and development system implementation.

Technical upgrading of core activities; new equipment and technology testing.

Key highly efficient projects include:

- application of ODI's wear-resistant electric-centrifugal pumps;***
- implementation of Heater-Treater three-phase units;***
- well recovery through side-tracking operations;***
- development of large-scale hydraulic fracturing;***
- commissioning of gas turbine power plants;***
- application of acid-based well-killing fluids (PAKR) while developing and testing wells;***
- wells construction with the application of biopolymer drilling mud.***

New equipment and technologies testing.

The 2005 plan to carry out pilot projects for testing of new equipment and technologies included 66 projects, with one of them abandoned in the course of development due to its unprofitability and another one put on the agenda later in the year.

Import substitution.

In order to replace imported equipment, spare parts and consumables with their Russian equivalents, the Company has planned to have 864 items of the nomenclature list manufactured domestically in 2005, which will translate into savings of RUR 516,606 thousand.

Depreciation value of the Company's intangible assets as of 31.12.2005 is subject to presentation in 1Q2006.

4.5. Analysis of trends in the issuer's key operating activities.

OJSC "Surgutneftegas" is one of the fastest growing hydrocarbons producers in Russia.

In 4Q2005, the Company produced 16.4 mn tons of oil, a 6% increase as compared to 4Q2004. Gas production reached 3.8 bcm, which is 1% less as compared to the indicator of 4Q2004. The Gas Processing Division received 1,101 mn cubic meters of crude gas, 1% up compared to 4Q2004.

The Company's servicing divisions actively engaged in the development and application of new oil production and field development technologies contribute to its growth and efficiency. Not only does their potential help optimize costs of development and exploratory wells construction and innovative EOR technologies employment, but it also ensures large-scale production activities. In 2005, the Company accounted for some 26% and 32% of the total exploratory and development drilling in Russia, respectively, and by applying innovative technologies at both new and mature fields on a large scale, the Company boasts one of the highest well stock efficiency ratios in the industry.

The Company's refinery produces a wide range of petroleum products, most of which are up to the international quality standards. Its trademark, KINEF, is well known in more than 50 countries worldwide. As a result of horizontal diversification, the Izoflex plant, a structural unit of KINEF Ltd., started to produce waterproof bituminous and polymeric roofing. The Company's unique and unparalleled complex involved in the production of LAB-LABS, the base for synthetic detergents, has been a success: its products are in great demand both on the domestic and international markets.

Key competitive strengths of the Company.

The Company's leading position in some areas of operation is due to the factors ensuring its sustained development.

The Company's key competitive strengths include:

- sound resource base in the largest oil and gas region of the Russian Federation:

the Company's resource base in Western Siberia, an oil and gas producing region with advanced infrastructure, is a reliable source of the economic growth and steady income in the long run;

- extensive use of modern equipment and oil production technologies:

advanced equipment and technologies allow the Company to enjoy a profitable development of hard-to-produce hydrocarbon reserves with its

costs remaining competitively low and to maintain the highest oil recovery ratio in the industry;

- the Company's in-house service divisions:

in-house service divisions enable the Company to work efficiently while entering new regions and controlling capital and operating expenses in the production sector;

- advantageous location of the Company's refinery, which is based in the city of Kirishi in the Leningradskaya Oblast:

Remunerations for the Company's Board of Directors are paid in accordance with the Company's Charter.

5.4. Structure and terms of reference for the agencies supervising the issuer's financial and business activities.

The Company's Auditing Committee is established to supervise the Company's financial and business activities. The Company's Auditing Committee consists of three members elected by the general shareholders' meeting out of shareholders or their proxies. Shares owned by members of the Board of Directors and the Company's Director General cannot vote to elect members of the Auditing Committee. The Auditing Committee passes resolutions either at its meetings or through polls by a majority of its members' votes, in the order established in the Statute on Auditing Committee. A member of the Auditing Committee cannot be a member of the Board of Directors; neither can she/he hold a post of the Company's Director General.

Once a financial year is over, the Auditing Committee conducts an annual audit (inspection) of the Company's activities. An unscheduled audit (inspection) is conducted by the Committee at any time on its own initiative, in compliance with the resolution adopted by the general shareholders' meeting, at a shareholder's (shareholders') request in writing, provided the shareholder (shareholders) own(s) an aggregate of at least 10% of the Company's voting shares, or in accordance with the resolution passed by the Board of Directors. As requested by the Auditing Committee, the Company's officers must timely provide the Auditing Committee with all necessary information and documents on the Company's financial and business activities. Based on its findings, the Auditing Committee prepares a report.

The Auditing Committee is entitled to require an extraordinary general shareholders' meeting to be convened, following the procedure stipulated by the Company's Charter.

To have an annual financial statements audited and confirmed, the Company annually hires a professional auditor who does not share any property interests with the Company or with its shareholders.

The general shareholders' meeting approves the Company's auditor. The auditor's service payment is determined by the Company's Board of Directors.

An audit of the Company's activities must be conducted at any time at a shareholder's (shareholders') request in writing, provided the shareholder (shareholders) own(s) an aggregate of at least 10% of the Company's placed shares.

8.1.3. Formation and appropriation of the reserve fund and other funds of the issuer.

The Reserve Fund was established in accordance with the legislation of the RF and the Company's constituent documents. Being equivalent to not less than 15% of the Company's charter capital, the Company's Reserve Fund is formed through compulsory annual deductions amounting to not less than 5% of the Company's net profit until the said amount is accumulated.

Accumulation and appropriation of the Company's special funds in 4Q2005.

See Item 8.10.

8.1.4. Convening and holding a meeting (session) of the issuer's supreme management body.

The supreme management body of the Company is General Shareholders' Meeting.

A notice of a general shareholders' meeting is given within the period stipulated by the Federal Law "On Joint Stock Companies".

A notice of the general shareholders' meeting shall include:
the full corporate name and location of the Company;
the form of the general shareholders' meeting (a meeting or absent voting);
the date, venue and time of the general shareholders' meeting, as well as the mailing address to send filled out ballot papers to the Company; the deadline for ballot papers and mailing address to send filled out ballot papers to, in case the general shareholders' meeting is held through absent voting;
the date of compiling the list of persons entitled to participate in the general shareholders' meeting;
agenda of the general shareholders' meeting;
procedure of familiarization with the information (materials) subject to presentation to shareholders while preparing for the general shareholders' meeting, and address(es) where this information is available.

The notice of the general meeting to be held through a meeting shall additionally state the registration time for participants of the general meeting.

Information on the general shareholders' meeting is published in the newspaper "Neft Priobya". The agenda of the general shareholders' meeting cannot be changed after the information has been published. A general shareholders' meeting is not entitled to adopt resolutions concerning issues not included in the agenda, neither is it entitled to alter the agenda.

General shareholders' meetings can be annual and extraordinary.

The annual general shareholders' meeting is convened by the Company's Board of Directors annually, no earlier than two months before and no later than six months after the end of the financial year and in the order provided for by the Company's Charter.

General shareholders' meetings other than annual general shareholders' meetings are extraordinary meetings. Extraordinary general shareholders' meetings can be convened by the Company's Board of Directors either on its own initiative or at the written request of the Auditing Committee, or of the Company's Auditor, or of a shareholder (shareholders) owning an aggregate of not less than 10% of the Company's voting shares as of the date such request is submitted. Such request shall state the issues to be included in the agenda of the meeting. It shall be signed by the person (persons) demanding an extraordinary general shareholders' meeting be convened.

Shareholders (a shareholder) of the Company owning an aggregate of not less than 2% of the Company's voting shares are entitled to introduce issues to the agenda of the annual general shareholders' meeting and to nominate candidates for the Company's Board of Directors and Auditing Committee, provided the number of candidates does not exceed the number of members of the above mentioned bodies, and to nominate a candidate for the position of the individual executive body on the 30th day after the end date of the financial year at the latest.

Issues are included in the agenda of a general shareholders' meeting in writing; each shall state the name(s) of the shareholder(s) proposing the issue, the number and category (type) of shares he/she holds. Nomination of candidates for the Company's Board of Directors and Auditing Committee (including self-nomination) shall be made in writing and shall state the name of the candidate (if the candidate is a shareholder of the Company), the number and category (type) of shares he/she holds, the name(s) of the shareholder(s) nominating the candidate, and the number and category (type) of shares he/she/they hold(s).

The Company's Board of Directors is obliged to consider submitted proposals and pass a resolution on whether or not to include them in the agenda of the annual general shareholders' meeting no later than 5 days after the deadline for proposals concerning the agenda and for nomination of candidates. The Board of Directors' reasoned resolution not to include any

issue into the agenda or not to include any candidate in the list of candidates is to be sent to the shareholder (shareholders) who proposed that issue or nomination no later than 3 days after such decision was made.

The Company's Board of Directors defines the date, venue and time of the general shareholders' meeting, its agenda and procedure, the deadline for the list of persons entitled to participate in the general shareholders' meeting to be compiled, the order of informing shareholders about the general shareholders' meeting, list of materials (information) available for the shareholders while preparing for the general shareholders' meeting, form and text of a ballot paper.

In accordance with the Federal Law "On Joint Stock Companies", persons having the right to familiarize themselves with the information subject to presentation to arrange and hold the shareholders' meeting are the persons having the right to participate in the general shareholders' meeting. The list of persons having the right to participate in the general shareholders' meeting is compiled against the Company's shareholder register.

Familiarization with the information submitted to arrange the shareholders' meeting shall be made in compliance with Article 52 of the Federal Law "On Joint Stock Companies".

Shares grant shareholders the following rights:

An ordinary share of OJSC "Surgutneftegas" (the issuer) entitles its owner:

- to one vote when addressing issues put to the vote at a general shareholders' meeting excluding elections of members to the Company's Board of Directors (members to the Company's Board of Directors are elected through cumulative voting. In such case, each voting share of the Company accounts for the quantity of votes equal to the total quantity of members of the Company's Board of Directors. A shareholder has the right to cast all the votes carried by his/her share for one candidate or distribute them among several candidates to the Company's Board of Directors);***
- to receive dividend out of the Company's net profit;***
- to a share of the Company's property if the Company is dissolved;***

- to demand that the Company buy out shares belonging to him/her in case: the Company is being restructured or a major transaction is being conducted, the resolution about which is adopted by the general shareholders' meeting in compliance with the Company's Charter, if he/she voted against such resolution or transaction or did not vote on these issues; the Company's Charter is amended or approved in a new wording to restrict his/her rights if he/she voted against the corresponding resolution or did not participate in voting;
- to participate in the general shareholders' meeting both in person and by proxy that can be acted by, without limitations, other shareholders of the Company as well as its officers;
- to purchase and dispose of shares belonging to him/her (consent of other shareholders is not required), in this case the shareholder is exempted from the obligations stipulated by Article 80, Item 2 of the Federal Law "On Joint Stock Companies".

In case the Company, via public subscription, places voting shares and securities convertible into voting shares which are paid with money, those of the shareholders who own voting shares of the Company have the pre-emptive right over these securities in the quantity proportional to the quantity of the Company's voting shares belonging to them.

A share can be cross-owned by two or several persons. In this case the Company deems the co-owners a single shareholder; they exercise their rights to hold, use and dispose of the Company's share in the order established by the agreement between participants.

8.7. Legislative acts regulating import and export of capital, which may influence the payment of dividends, interests, and other payments to non-residents.

As of December 31, 2005, the following legislative acts regulating import and export of capital that may influence the payment of dividends or interests or other payments were in force:

RF Law No.173-FZ dated 10.12.2003 "On Currency Exchange Regulation and Control";

Federal Law No.208-FZ dated 26.12.1995 "On Joint Stock Companies";

Federal Law No.160-FZ dated 09.07.1999 "On Foreign Investments in the Russian Federation";

Federal Law No.39-FZ dated 25.02.1999 "On Investment Activities in the Form of Capital Investments in the Russian Federation";

RF Tax Code;

Federal Law No.115-FZ dated 07.08.2001 "On Countermeasures against Money Laundering and Financing of Terrorism";

Double taxation treaties between Russia and foreign nations in which holders of the Company's securities reside;

8.8. Taxation of income from placed issue-grade securities of the issuer.

I. Taxation of legal entities' dividend income from placed securities.		
No.	Categories of holders of securities	
	Legal entities – tax residents of the RF	Foreign legal entities (non-residents) enjoying income from a source in the RF
1. Income from placed securities	Dividends	
2. Tax on securities income	Profit tax	
3. Tax rate	9%	15%
4. Tax payment procedure and deadlines	Taxes on dividend income are charged at the source of payment of such income and transferred to the state budget by the tax agent that has effected the payment within 10 days after the income is paid.	The tax deducted from foreign companies' income is transferred by the tax agent to the federal budget concurrently with the income payment either in the currency this income was paid or in the currency of the RF at the official exchange rate of the Central Bank of the RF as of the date of tax transfer.
5. Tax payment procedures for this category of security holders	The total amount of dividend tax is calculated on the basis of the difference between the amount of dividends payable to resident shareholders and the amount of dividends received by the tax agent for the reporting period. The negative result eliminates both tax payments and refund from the state budget. The tax amount to be withheld from the income of the taxpayer-recipient of dividends is calculated on the basis of the total tax amount and a fraction of each taxpayer in the total amount of dividends.	Double taxation relief. International treaties of the RF require foreign organizations to provide the tax agent who pays income with a confirmation that such foreign organization has a permanent location in a country with which the RF concluded an international tax treaty (agreement) governing taxation issues. Such confirmation is to be certified by relevant authorities of that foreign state. If the foreign organization entitled to draw income furnishes such confirmation to the tax agent who pays income before the income payment date, such income is either exempt from taxes at the source of payment or taxes are withheld at the source of payment at lower rates. To refund taxes withheld earlier in the RF, the foreign organization is to submit necessary documents to the taxation body at the territory where the tax agent is registered. Documents are submitted within three years after

		the end of the tax period during which the income was paid.

3. Tax rate	9%	30%
4. Tax payment procedure and deadlines	A Russian company being the source of the taxpayer's dividend income (tax agent) is obliged to withhold the tax from the taxpayer's income and transfer the tax to the corresponding budget. The accrued tax amount is withheld from the taxpayer's income when such income is paid. Tax agents are obliged to transfer accrued and withheld tax amounts no later than on the day when the bank receives disposable funds to pay the income as well as no later than on the day when such income is transferred from tax agents' bank accounts to the taxpayers' accounts or, at the taxpayer's request, to bank accounts of third parties.	
5. Tax payment procedures for this category of security holders	The total amount of dividend tax is calculated on the basis of the difference between the amount of dividends payable to resident shareholders and the amount of dividends received by the tax agent for the reporting period. The negative result eliminates both tax payments and refund from the state budget. The tax amount to be withheld from the income of the taxpayer-recipient of dividends is calculated on the basis of the total tax amount and a fraction of each taxpayer in the total amount of dividends.	Double taxation relief. In order to obtain tax relief, offsetting, tax refund or other tax incentives, a taxpayer shall submit to the tax authorities an official confirmation that he/she is a resident of the country with which the RF has concluded a double taxation treaty (agreement) which is in force during the respective tax period (or a part thereof) as well as a document stating that the taxpayer has drawn income and paid the tax outside the RF, that document being confirmed by the tax authorities of the relevant foreign state. Such confirmation can be submitted either before tax or tax advance payments or within one year after the end of the tax period based on the results of which the taxpayer claims tax exemption, tax relief, offsetting, tax refund or incentives.
