Ad-hoc Release

FJH: interim figures for 2005

- **Revenues around Euro 51 million, equity of Euro +4.3 million**
- **Capital increase already oversubscribed**

The Prime Standard-listed consulting and software firm FJH AG (ISIN DE0005130108), following the successful completion of its restructuring programme, has concluded the 2005 financial year on schedule. Based on preliminary figures, sales reached around Euro 51 million (2004: Euro 67.6 million) and overall performance stood at Euro 52 million (2004: Euro 67.6 million). The earnings before interest and taxes (EBIT) improved significantly to Euro -5.5 million (previous year: Euro -123.9 million).

The capital increases carried out have now placed the company on a strong financial basis. At the end of 2005, FJH had an equity of Euro +4.3 million at group level, whereas in the previous year the firm had recorded a negative value of Euro -9.7 million.

For 2006, the company anticipates an increase in revenues to around Euro 56 million and a positive EBIT of around Euro 3 million. The annual surplus is expected to stand at Euro 2 million. From the second quarter and over the annual forecast, a positive free cash flow is again anticipated. With orders on hand worth around Euro 30 million, FJH AG is well-positioned to reach these goals.

On the background of the profit turnaround anticipated for 2006, the capital increase that has been underway since 22nd February has met with tremendous interest from FJH shareholders and investors. The move, which is aimed at further accelerating the company's growth and actively harnessing market opportunities, has currently already been oversubscribed.

Press Information

Vienna International Airport: February brings growth of 9.8 % in passengers and 19.7 % in cargo

Vienna International Airport recorded excellent development in February, even though this is generally one of the weakest traffic months in the year. The number of passengers rose 9.8% over February 2005 to a total of 1,041,113. In contrast, flight movements increased by only 3.7% and maximum take-off weight (MTOW) grew 5.1%. Cargo reported strong development with a plus of 19.7%. The increase of 14.2% in the number of transfer passengers underscores the importance of Vienna as an international hub.

A ranking of scheduled traffic by region was led by the Far East with +26.3% followed by the Near East with +22.4%. Traffic to North America also rose by a strong 17.9%.

Over the first two months of 2006 the number of passengers increased 9.9% to 2,124,113, while transfers rose 14.5%. Maximum take-off weight (MTOW) increased 4.5%, flight movements rose 3.5% and cargo volume grew 20.4%.

	February 2006	Change in %	January to February 2006	Change in %
Passengers:	1,041,113	+9.8	2,124,113	+9.9
Transfer passengers:	355,350	+14.2	748,430	+14.5
Maximum take-off weight (in tonnes):	467,274	+5.1	968,064	+4.5
Flight movements (arrival + departure):	16,859	+3.7	34,784	+3.5
Cargo in tonnes (air cargo and trucking):	19,345	+19.7	38,235	+20.4
