NEWS RELEASE

2005 Fourth Quarter & Annual Financial Results

Surrey, British Columbia, Canada, March 8, 2006 – Integrated Paving Concepts Inc. [TSX: IPA] releases today, audited summary financial results for the three and twelve month periods ending December 31, 2005.

Summary Financial Information (Unaudited)

In 000's	Three Months Ended December 31		Year Ended December 31	
	2005	2004	2005	2004
Revenue	\$ 3,224	\$ 2,481	\$ 14,292	\$ 13,330
Gross Profit	1,515	1,287	7,775	7,589
Earnings before depreciation, interest and income taxes	277	(48)	760	1,089
Net earnings	126	(74)	233	421
Earnings per share – basic	\$ 0.02	\$ (0.02)	\$ 0.03	\$ 0.06

Total revenues for the fourth quarter were up 30% compared to the fourth quarter of 2004. On a year to date basis, revenues have increased 7% over 2004.

The Company is exposed to risk due to fluctuations in the exchange rates of the U.S. dollar and to a lesser extent, the euro. Compared to 2004 exchange rates, there was a negative impact on 2005 revenue for the quarter of \$186,000 (i.e. if the exchange rates were the same as in 2004, revenue would be \$186,000 higher). On a year to date basis the negative impact of the stronger Canadian dollar compared to 2004 is \$1,083,000. Adjusting for the fluctuations in exchange rates, revenue growth would have been 37% and 15% over 2004 for the quarter and year respectively. This growth is primarily from the growth in sales of DuraTherm and the initial implementation of new Driveway Impressions franchises.

The Company's earnings for the three months ended December 31, 2005 increased by \$200,000 over the same 2004 period. For the year ended December 31, 2005, earnings decreased by \$188,000 over the same period in 2004. This is largely due to the decrease in gross margin percent as a result in a shift in product mix, and an increase in expenses due to foreign exchange losses and the addition of staff at all levels of the Company to accelerate the achievement of corporate goals.

"We are pleased with the execution of the strategic initiatives implemented over the last three years, and their impact on our continued growth. We are thankful to our employees and business partners for the ongoing contribution and support to the changes we have been making", stated Clark Quintin, President and Chief Executive Officer.

At December 31, 2005, the Company's financial position remains strong with \$4.5 million (December 31, 2004 - \$4.0 million) in working capital and \$2.4 million (December 31, 2004 - \$2.6 million) in cash and cash equivalents. This reduction in cash is primarily due to increased accounts receivable offset somewhat by increased accounts payable. Accounts receivable has increased as DuraTherm sales are largely in the government market segment as part of larger construction projects, which typically have a longer collection cycle.
