News Release

CHEVILLON EXPLORATION CONSULTING JOINS X-CAL'S NEVADA TEAM

X-CAL Resources Ltd is pleased to announce a contract let to CHEVILLON EXPLORATION CONSULTING. Vic Chevillon, M.Sc., has joined X-Cal's Exploration Group, as one of the group of independent consultants, contributing to our Nevada Gold Projects. Mr. Chevillon was "Senior Exploration Geologist, Americas Business Development" at Placer Dome Exploration Inc. He has actively monitored our progress with the Sleeper Gold Property over the past several years and was also instrumental in X-Cal's recent acquisition of the "Horse Mountain Window" Reese River Pediment Property from Placer Dome.

Mr. Chevillon will work with X-Cal on data integration as recommended in Dr. Richard Sillitoe's report on the EXPLORATION POTENTIAL OF THE SLEEPER GOLD PROJECT (see link in press release of Jan 26/06 for the Sillitoe paper).

X-Cal has assembled a team of top professionals who have gathered around the project due to their common "data-supported belief" in the exploration potential at Sleeper. In particular, Dr. Ken Snyder (Midas Mine), Larry Kornze (BetZE Mine), Wintrop Rowe, M.Sc. and others named in the January 26/06 paper by Dr. Sillitoe.

Mr. Chevillon is now part of the consulting team which is integrating all Sleeper Data into 3D. He is a specialist in the use of Gocad pattern recognition software which is being utilized to facilitate data integration, visualization and targeting.

X-Cal welcomes Vic Chevillon and CHEVILLON EXPLORATION CONSULTING to our enterprise.

X-Cal currently has three Nevada Gold Projects.

The contents of this release have been reviewed by Larry Kornze, P.Eng, who is a Qualified Person as defined by NI-43-101.

Caution Concerning Forward-Looking Statements

This news release and related documents may contain certain "forward-looking statements" including, but not limited to, statements relating to interpretation of drilling results and potential mineralization, future exploration work at the Sleeper Gold Project and the expected results of this work. Forward looking statements are statements that are not historical facts and are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements, including, without limitation: risks related to fluctuations in gold prices; uncertainties related to raising sufficient financing to fund the planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the Sleeper Gold Project; uncertainties involved in the interpretation of drilling results and other tests; the possibility that required permits may not be obtained in a timely manner or at all; risk of accidents, equipment breakdowns or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in the work program; the risk of environmental contamination or damage resulting from the exploration operations at the Sleeper Gold Project.

Forward-looking statements contained in this release and related documents are based on the beliefs, estimates and opinions of management on the date the statements are made. There can be no assurance that such statements will prove accurate. Actual results may differ materially from those anticipated or projected. X-Cal Resources undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change.
