NEWS RELEASE

TSX-V Trading Symbol: **FNC**
S.E.C. Exemption: 12(g)3-2(b)

The Company wishes to report that it has added, by staking, to its jointly held iron ore properties located in the Mount Wright/Mount Reed area of Quebec, at the south end of the Labrador Trough.

Currently, the Company has, with its 50% partner, the Sheridan Platinum Group Ltd., some twenty separate properties, covering a total of about 26,000 hectares. These properties are in various stages of exploration development, many drilled in the 50's and 60's by such operators as Canadian Javelin, Midway, Quebec Cartier Mining and others, while some are only at the geological mapping stage. The iron formations are concentrating ores, in the 28-35% Fe range, and reported tonnages (non 43-101 compliant) are in the 25M to 350M ton range. Potential resources are much larger; fully thirteen of the properties have had no grade or tonnage estimates applied to them.

Discussions are ongoing with potential joint venture partners.

ON BEHALF OF THE BOARD

President
