COBHAM AGM STATEMENT

Cobham plc ("Cobham") will hold its Annual General Meeting at 12.00 today at Painters' Hall, London and Gordon Page, Chairman, will make the following statement:

"Following a strong 2005, the year has started well and, in line with the pattern of previous years, trading in 2006 will continue to be biased towards the second half. The outlook for both defence and commercial aerospace markets remains strong. We are making good progress with the implementation of our strategy and continue to enhance our leadership positions across the high technology growth segments of the aerospace and defence markets.

Over the last few months, the Group has been awarded a number of important contracts, including our largest contract to date, worth A\$1bn over 12 years, for the Coastwatch programme in Australia. In the USA, an initial order worth US\$18m was received for personal safety equipment to be used on High Mobility Multipurpose Wheeled Vehicles and a US\$8m order was received for external fuel tanks for the F-22 Raptor jet. Cobham has also been awarded a contract worth up to US\$49m over four years for the supply of tactical communication VHF antennas to the US Army. This strong order intake has resulted in an order book at the end of April 2006 of over £1.8bn.

The Group previously announced its strategic intention to reshape the portfolio and dispose of certain of its businesses. This year we have disposed of our Countermeasures businesses, Precision Antennas, a telecom equipment provider, Atlas Composites and a number of properties. Over £75m of proceeds will be generated.

In the last few months in the Cobham Services Division we have completed the acquisition of Aerodata Flight Inspection GmbH in Germany and the outstanding minority interest in Flight Precision Limited in the UK for a cash consideration of up to €11.2m.

The Board is committed to exploiting the strategy announced in 2005. The Group is strongly positioned in rapidly growing markets and its increased focus and investment is expected to deliver continued profitable growth. As a result, the Board remains confident in its outlook for the full year."
