The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

#### **First Quarter ("1Q") 2006 vs First Quarter 2005**

The Group achieved 28.4% growth in turnover in 1Q2006 from US\$169.4 million to US\$217.5 million with main contributions from Other Snacks and Beverages. With higher turnover and relatively stable gross profit margin, Group profit before tax rose 29.7% from US\$32 million in 1Q2005 to US\$41.5 million in 1Q2006.

#### **By Product**

Turnover of Other Snacks increased by 46% from US\$48.2 million to US\$70.4 million. This was attributable to the introduction of new products such as milk candies and cup jellies, and better performance of existing products. The addition of higher margin new products negated the negative impact from higher raw materials costs such as sugar. Gross profit margin increased and profit before tax improved by 69.6% to US\$19 million.

Similarly, turnover of Beverages increased by 41.4% from US\$47.1 million to US\$66.7 million. Core product Hot-kid milk continued to be the driving force for sales. Gross profit margin however declined marginally as a result of higher raw material cost and changes in sales mix. Nevertheless, profit before tax increased 65.6% to US\$17 million on higher turnover.

Turnover of Rice Crackers increased 9.4% from US\$69.6 million to US\$76.1 million. Sales volume of core brand and sub-brand products in China rose 6.5% and 3.4% respectively. Profit before tax increased 3.5% to US\$8.4 million on increased turnover.

Turnover of Other Segments was lower due mainly to slower export sales of wine products. Losses before tax increased US\$5.3 million compared to 1Q2005 due to the absence of valuation gain which was recorded in 1Q2005 from the acquisition of Qianhe Hotel. In addition, Hospital operation which commenced operation in late 2005 incurred losses.

#### **By Region**

China recorded double digit growth in both turnover and profit before tax of 32.1% and 36.5% respectively. The introduction of new higher margin products and the stronger sales volume gave rise to an improvement in gross profit margin. Turnover in Taiwan declined 2.2% whilst profit before tax decreased 55.6% because of lower capacity utilization and higher operating expenses. Turnover in Other Regions decreased 3.1% as certain countries, such as United States, experienced slower sales. Profit before tax however increased mainly because of higher tax refund from reinvestment of profit.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

In line with statements made in our announcement on full year 2005 unaudited results.

**10. Prospect**

Certain raw material prices have increased significantly such as sugar and we expect such increases to affect our current year profit to a certain extent. However, we will work towards increasing turnover to minimise their impact.

Barring unforeseen circumstances, the Board of Directors expect our performance to continue to improve in 2006.

**TERMINATION OF AMERICAN DEPOSITARY RECEIPT FACILITY**

---

The Board of Directors of Want Want Holdings Ltd (the "Company") wishes to announce that it has given notice to The Bank of New York (the "Bank") to terminate the Company's American Depositary Receipt ("ADR") facility effective July 10, 2006. The Bank will be sending Termination Notices to all ADR Owners.

The ADR facility was established in December 1997. As trading volume over the ADR has been low over the past few years and the Singapore Exchange is accessible to US investors, the Board of Directors believe that the termination will not affect the trading liquidity of our shares on the Singapore Exchange.
