NOTES TO THE INTERIM FINANCIAL STATEMENTS
For the six months ended March 31, 2006
(Unaudited)

NOTE 1 - NATURE AND CONTINUANCE OF OPERATIONS

The Company, classified as a mining exploration/development company, is in the process of exploring its mineral properties and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of amounts recorded for mineral properties and related deferred costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the properties, the ability of the Company to obtain necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof.

These financial statements have been prepared on the basis of a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. At March 31, 2006, the Company had a working capital deficiency of \$206,158 (2005 – working capital of \$30,236) and an accumulated deficit of \$6,449,157 since incorporation. The Company has experienced recurring losses and has not generated profitable operations since inception. Should the Company be unable to continue as a going concern, the realization of assets may be at amounts significantly less than carrying values. The continuation of the Company as a going concern is dependant on its ability to obtain additional equity capital to finance existing operations, attaining commercial production from its mineral properties, and attaining future profitable operations. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 2 – BASIS OF PRESENTATION

The unaudited interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The unaudited interim financial statements have been prepared in accordance with the accounting principles and policies described in the Company's annual financial statements for the year ended September 30, 2005, and should be read in conjunction with those statements. In the opinion of management, all adjustments (consisting of normal and recurring accruals) considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the six-months ended March 31, 2006 are not necessarily indicative of the results that may be expected for the year ended September 30, 2006.

Stump Lake Property

By an option agreement with Braniff Gold Corp. (“Braniff”) dated May 10, 2002, the Company was granted an option to earn a 100% interest in the property comprising three claim units and three reverted Crown grants, located south of Kamloops, British Columbia. As consideration, the Company has agreed to issue common shares, incur exploration expenditures, and make cash payments as follows:

Exploration expenditures:

On or before November 30, 2004 (year extended to 2005) *	\$ 200,000
On or before November 30, 2006	<u>300,000</u>
	<u>\$ 500,000</u>

* Extended to July 1, 2006

As at March 31, 2006 the total amount of \$76,100 had been incurred.

Cash payments:

Within seven days of acceptance by TSX Venture Exchange (“TSX”)	\$ 150,000 (paid)
On or before November 1, 2002	25,000 (paid)
On or before November 30, 2003	75,000 (paid)
On or before November 30, 2005 **	50,000
On or before November 30, 2006	<u>50,000</u>
	<u>\$ 350,000</u>

** Extended to April 1, 2006

Common shares:

The Company is required to issue to Braniff 200,000 common shares (issued) at a deemed price of \$0.10 per share within 10 days of acceptance by TSX. The property is subject to a 3% net smelter return royalty.

Mongolia Properties

The Company entered into two option agreements with Brant Enterprises Inc. (“Brant”) on November 1, 2003 to acquire up to 75% interest in the Edren Properties and the Ulaan Properties consisting of six exploration licenses located in Mongolia. As consideration the Company has agreed to make total cash payments of US\$980,000, to issue altogether 6,750,000 common shares, to make total property maintenance payments of US\$280,000, and to fund total exploration expenditures of US\$4,000,000 as follows:

NOTE 3 – MINERAL PROPERTIES (Continued)

	<u>Edren Properties</u>	<u>Ulaan Properties</u>
To earn the first 60% interest:		
Within seven days of TSX acceptance for filing of the agreements to pay and issue	US\$100,000 (payment extended until further notice) 500,000 common shares (issued)	US\$100,000 (payment extended until further notice) 1,000,000 common shares (issued)
On or before May 1, 2005 to issue an additional	750,000 common shares	1,000,000 common shares
Over the four years to November 1, 2007 to make property maintenance payments at	US\$25,000 per year	US\$45,000 per year
To fund exploration staged over four years to November 1, 2007	US\$1,750,000	US\$2,250,000
On or before November 1, 2007 to issue further	1,500,000 common shares	2,000,000 common shares

Upon the Company having earned a 60% interest in the Edren properties and Ulaan properties, the Company and Brant will form a joint venture to further explore and develop these properties.

The Company has the right to earn a further 15% interest in these two portfolios of gold and copper properties by funding the completion of a positive bankable feasibility study in each portfolio of properties. The two properties are subject to a 1.7% NSR royalty and a 25% carried interest to production in favour of Brant. The Company agreed to issue as finders' fees 125,000 common shares (50,000 shares issued) for the Edren properties, and 200,000 common shares (100,000 shares issued) for the Ulaan properties.

During the year ended September 30, 2004, the cost of the Mongolia properties and related deferred exploration costs were each written down to a nominal value of \$1 in view of the dispute concerning its title and ownership rights. See Note 7

Pursuant to a letter agreement dated April 27, 2005, all payments to be made to Brant, including property payments of US\$200,000 which was due on the Mongolian properties had been waived until further notice of the requirement by a person who is asserting beneficial ownership of the remaining interest in the properties.

NOTE 3 – MINERAL PROPERTIES (Continued)

The Company ("Maximum Ventures Inc") has commenced a legal action against Western Prospector Group Ltd., Kenneth de Graaf, and certain companies owned, controlled by or associated with Mr. de Graaf, for an order and a declaration that certain Mongolian mineral exploration properties (the Mongolian claims) were acquired for Maximum either directly or as assignee but were wrongfully transferred to Western Prospector or have been wrongfully retained by Mr. de Graaf and his companies and that such properties are held in trust for Maximum, and for damages and equitable compensation from the defendants.

Maximum's statement of claim states that:

In or about May, 2002, Maximum negotiated an agreement with a partnership that included Mr. de Graaf and Anthony Beruschi, a mining investor and lawyer, whereby Maximum was to pay for all costs of a Mongolian reconnaissance program to be carried out by Mr. de Graaf.

Pursuant to the reconnaissance program, the partnership would acquire certain mineral exploration claims in Mongolia and Maximum would receive the first right to acquire all or part of such mineral exploration claims.

From 2002 to July, 2004, Maximum advanced in excess of \$340,000 to Mr. de Graaf and his companies to finance their efforts in identifying, acquiring by staking or otherwise, and exploring interests in mineral properties in Mongolia.

During 2002 to 2004, Mr. de Graaf identified and staked and/or acquired or negotiated to acquire properties resulting in several groups of properties in Mongolia, comprising more than 30 distinct mineral properties for the partnership, in a continuing reconnaissance, staking and acquisition program.

The partnership agreed to make the Mongolian claims available to Maximum and to help Maximum build itself into a successful company by facilitating Maximum's acquisition of certain of the Mongolian claims.

In or about October, 2003, at Mr. de Graaf's request, Mr. Beruschi, Mr. de Graaf and Brant Enterprises, a company controlled by Mr. de Graaf, agreed to replace and supersede their partnership agreement with a new agreement which included the provisions that:

Mr. de Graaf and Brant would relinquish any interest in the Mongolian claims except for a certain remaining interest in two of the Mongolian property groups known as the Ulaan and Edren properties, which would be held by Brant in trust for Mr. Beruschi; and

Mr. Beruschi was the sole beneficial owner of all of the Mongolian claims and such claims would be held in trust for him by Mr. de Graaf and Brant, Mr. de Graaf would become the president of Maximum to assist Maximum in raising funds and to be responsible for managing all aspects of Maximum's reconnaissance exploration and acquisition programs for minerals in Mongolia, including the Ulaan and Edren claims, and Mr. de Graaf and Brant were to hold the Mongolian claims, and all payments in connection with the option agreements entered into pursuant to the Ulaan and Edren properties, in trust for Mr. Beruschi.

MAXIMUM VENTURES INC.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
For the six months ended March 31, 2006
(Unaudited)

NOTE 3 – MINERAL PROPERTIES (Continued)

Subsequently, Mr. de Graaf wrongfully caused certain of the Mongolian claims to be vended to Western Prospector, and failed to carry out his commitments to act as president of Maximum and assist Maximum in raising funds and thereby Mr. de Graaf prevented or hindered Maximum's ability to raise funds by way of private placement to make the payments required pursuant to the Ulaan and Edren agreements.

In or about March, 2004, Brant wrongfully, under Mr. de Graaf's direction and control, purported to vend certain Mongolian claims known as the Selenge Aimag claims, inter alia, to Western Prospector.

In or about October, 2004, Mr. de Graaf wrongfully caused additional Mongolian claims within the Saddle Hills uranium basin in eastern Mongolia to be transferred to Western Prospector.

Pursuant to Mr. de Graaf's responsibilities in managing the exploration for minerals in Mongolia and in particular, with respect to the Ulaan and Edren claims, Mr. de Graaf arranged for and obtained samples to be taken from those claims and delivered them to an independent laboratory for metallurgical analysis, which results were received by Mr. de Graaf or his agent in the summer of 2004; however, contrary to his obligations to Mr. Beruschi and/or Maximum, Mr. de Graaf refused to deliver the lab results to Mr. Beruschi or Maximum.

In or about December, 2004, Mr. de Graaf, in further breach of his trust and fiduciary duties to Mr. Beruschi and/or Maximum, identified certain Mongolian mineral prospects and wrongfully caused or facilitated transactions whereby Western Prospector acquired an interest in a property in Mongolia known as the Mardaigol property, and whereby Western Prospector acquired two additional contiguous mineral exploration licences within the Gurvanbulag target area of the Saddle Hills uranium basin.

Maximum has entered into an agreement dated March 2, 2006, with Mr. Beruschi, pursuant to which it is the assignee of any rights or claims that Mr. Beruschi may have against the defendants and any other person, firm or company, with respect to the matters referred to in Maximum's action. The agreement provides that Mr. Beruschi will have a 30-per-cent carried interest in the properties to mining feasibility study if Maximum chooses to develop the properties. The agreement also provides that Mr. Beruschi receives exclusive marketing rights to uranium production from the Mongolian claims, a 2-per-cent net smelter royalty on the products and that Three, Thirty-Three Nine Great Endeavours, a private company solely owned by Mr. Beruschi, receives a production royalty on uranium produced from the Mongolian claims starting at \$1.50 per pound for uranium sales at less than \$20 per pound, and increasing as the uranium sale price increases.

Mr. de Graaf was appointed as a director of Western Prospector in March, 2004.

Maximum is claiming against the defendants for:

- an order and a declaration that the Mongolian claims are held in trust for Maximum;
- an accounting of all interest in and profits derived from the Mongolian claims;
- disgorgement of all interest in and profits from the Mongolian claims in favour of Maximum; and
- damages, equitable compensation, common law or equitable damages, interest and costs.

The defendants have filed Statements of Defense. The litigation is continuing.

Commitments

Stock-based compensation plan

The Company has established a stock option plan for directors, employees, and consultants. Under the Company's stock option plan, the exercise price of each option is determined by the Board, subject to the Discounted Market Price policies of the TSX Venture Exchange. The aggregate number of shares issuable pursuant to options granted under the plan is limited to 10% of the Company's issued shares at the time of the grant.

The Company has granted employees and directors common share purchase options. These options are granted with an exercise price equal to the market price of the Company's stock on the date of the grant. A summary of the status of the stock option plan as of March 31, 2006 and 2005 and changes during the years ending on those dates is presented below:

	March 31, 2006		March 31, 2005	
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
Outstanding at beginning of period	1,445,000	\$0.65	1,465,000	\$0.65
Granted	2,543,546	\$0.50	-	-
Expired	(1,445,000)	(\$0.65)	-	-
Options outstanding and exercisable at end of period	2,543,546	\$0.50	1,465,000	\$0.65

The Company has adopted the new policy to record the fair value of compensation expense on the granting of stock options. The fair value is determined using the Black-Scholes option pricing model. For the period ended March 31, 2006 the Company recorded a non-cash compensation charge of \$598,583 upon the issuance of 2,543,546 stock options. The weighted average fair value of the options was \$0.24 per share.

OVERVIEW

Maximum is a mineral exploration company. The Company is the subject of Cease Trade Orders ("CTOs") issued by the British Columbia Securities Commission (the "BCSC") dated March 1, 2005 pursuant to Section 164(1) of the British Columbia *Securities Act* (the "Act") and by the Alberta Securities Commission (the "ASC") dated June 17, 2005 pursuant to Section 198 of the Alberta *Securities Act*, for failure to file on time its annual financial statements for the year ended September 30, 2004, and interim financial statements for the quarters ended December 31, 2004, and March 31, 2005 respectively and is suspended from trading on the NEX Board of the TSX Venture Exchange. In June, 2005, Maximum completed all of its outstanding financial statements filings and paid all related fees.

In June 2005 the Company submitted applications for revocation of the CTOs and, as a dormant issuer pursuant to BC Policy 12-603 (the "Policy"), reactivation pursuant to the Policy for purposes of returning to trade on the NEX Board. The applications are under review by the BCSC and the ASC.

The Company's principal business is the acquisition, exploration and development of mineral properties with a primary focus on exploration properties demonstrating strong potential for hosting large scale ore bodies.

The Company has operations in Mongolia where it is searching primarily for Gold and Copper, and in Canada where it is searching primarily for Gold and Silver.

During the period under review the Company received notification that the Alberta and British Columbia Securities Commissions had advised the TSX Venture Exchange that the Cease Trade Orders issued against the Company have been revoked and effective January 12, 2006, trading was reinstated in the securities of the Company.

EXPENDITURES

Exploration expenditure for the six-months ended March 31, 2006, totalled \$Nil. Expenditure during the comparable period ending March 31, 2005, was \$11,315.

Exploration

The Company plans to conduct further exploration work on the Stump Lake property which could include geological mapping, trenching and geophysics and depending on the results, a later second stage could follow including exploration drilling. The property is currently ready for a mapping and geophysical work, additional trenching and drilling would require work permit applications. Geological mapping is anticipated to include a more detailed structural study to better understand the deformation patterns and structural controls of the shears, mineralized veins and stringers within the shear zones and further search for shear zone outcrops.

Geophysical surveys using IP and resistivity methods are anticipated to better delineate features identified by the earlier survey. Further surveys should be continued to the northeast and southwest of the completed grid using line spacing of 100 meters.

Such surveys will not only target existing mineralization within shear zones, but will also explore the possibility of porphyry related mineralization occurring below the existing exploration and mining level.

The Company plans a financing designed to finance the anticipated exploration program including mapping, further trenching and geophysics. This financing is expected to take the property to its next stage of exploration including drilling.

Edren and Ulaan Properties, Mongolia

The Company entered into two option agreements with Brant Enterprises Inc. (“Brant”) dated November 1, 2003 to acquire up to a 75% interest in the Edren Properties and the Ulaan Properties consisting of a total of six exploration licenses located in Mongolia. As consideration the Company agreed to make total cash payments of US\$980,000, to issue altogether 6,750,000 common shares and to incur exploration expenditures totalling US\$4,000,000 as follows:

Upon the Company having earned a 60% interest in the Edren properties and Ulaan properties, the Company and Brant will form a joint venture to further explore and develop these properties.

The Company has the right to earn a further 15% interest in these two portfolios of gold and copper properties by funding the completion of a positive bankable feasibility study in each portfolio of properties. The two properties are subject to a 1.7% NSR royalty and a 25% carried interest to production in favour of Brant. The Company agreed to issue as finders' fees 125,000 common shares (50,000 shares issued) for the Edren properties and 200,000 common shares (100,000 shares issued) for the Ulaan properties.

A dispute has arisen as to the Company's title and beneficial rights to the Edren properties and Ulaan properties in Mongolia. As at September 30, 2004 the cost of the Mongolia properties and related deferred exploration costs were each written down to a nominal value of \$ 1 in view of disputes concerning the Company's title and ownership rights.

Prior to September 30, 2004, the Company conducted initial surface exploration, including surface mapping and sampling, and received 43-101 technical reports on the properties. This exploration was followed by more detailed mapping and sampling during the year ended September 30, 2004. In connection with ongoing disputes concerning the Company's title and beneficial rights to the Edren properties and Ulaan properties, the Company has not received exploration information including data or subsequent reports on exploration, property investigations or detailed accounting information. Prior to the year ended September 30, 2004 the Company made payments, advances and incurred property expenses recorded at \$257,177 on Mongolian properties.

Under the Edren and Ulaan property option agreements the Company is required to make yearly property payments totalling US\$70,000 for the Edren properties and Ulaan properties. As of April 27, 2005, all payments to be made to Brant, including property payments of US\$200,000 which were due on the Edren properties and Ulaan properties, have been waived by a person who is asserting beneficial ownership of the remaining interest in the Ulaan properties and Edren properties.

During the period under review, the Company ("Maximum Ventures Inc") commenced legal action against Western Prospector Group Ltd., Kenneth de Graaf, and certain companies owned, controlled by or associated with Mr. de Graaf, for an order and a declaration that certain Mongolian mineral exploration properties (the Mongolian claims) were acquired for Maximum either directly or as assignee but were wrongfully transferred to Western Prospector or have been wrongfully retained by Mr. de Graaf and his companies and that such properties are held in trust for Maximum, and for damages and equitable compensation from the defendants.

Maximum's statement of claim states that:

MINERAL PROPERTIES – CONT'D

Edren and Ulaan Properties, Mongolia – Cont'd

In or about May, 2002, Maximum negotiated an agreement with a partnership that included Mr. de Graaf and Anthony Beruschi, a mining investor and lawyer, whereby Maximum was to pay for all costs of a Mongolian reconnaissance program to be carried out by Mr. de Graaf.

Pursuant to the reconnaissance program, the partnership would acquire certain mineral exploration claims in Mongolia and Maximum would receive the first right to acquire all or part of such mineral exploration claims.

From 2002 to July, 2004, Maximum advanced in excess of \$340,000 to Mr. de Graaf and his companies to finance their efforts in identifying, acquiring by staking or otherwise, and exploring interests in mineral properties in Mongolia.

During 2002 to 2004, Mr. de Graaf identified and staked and/or acquired or negotiated to acquire properties resulting in several groups of properties in Mongolia, comprising more than 30 distinct mineral properties for the partnership, in a continuing reconnaissance, staking and acquisition program.

The partnership agreed to make the Mongolian claims available to Maximum and to help Maximum build itself into a successful company by facilitating Maximum's acquisition of certain of the Mongolian claims.

In or about October, 2003, at Mr. de Graaf's request, Mr. Beruschi, Mr. de Graaf and Brant Enterprises, a company controlled by Mr. de Graaf, agreed to replace and supersede their partnership agreement with a new agreement which included the provisions that:

Mr. de Graaf and Brant would relinquish any interest in the Mongolian claims except for a certain remaining interest in two of the Mongolian property groups known as the Ulaan and Edren properties, which would be held by Brant in trust for Mr. Beruschi; and

Mr. Beruschi was the sole beneficial owner of all of the Mongolian claims and such claims would be held in trust for him by Mr. de Graaf and Brant, Mr. de Graaf would become the president of Maximum to assist Maximum in raising funds and to be responsible for managing all aspects of Maximum's reconnaissance exploration and acquisition programs for minerals in Mongolia, including the Ulaan and Edren claims, and Mr. de Graaf and Brant were to hold the Mongolian claims, and all payments in connection with the option agreements entered into pursuant to the Ulaan and Edren properties, in trust for Mr. Beruschi.

Subsequently, Mr. de Graaf wrongfully caused certain of the Mongolian claims to be vended to Western Prospector, and failed to carry out his commitments to act as president of Maximum and assist Maximum in raising funds and thereby Mr. de Graaf prevented or hindered Maximum's ability to raise funds by way of private placement to make the payments required pursuant to the Ulaan and Edren agreements.

In or about March, 2004, Brant wrongfully, under Mr. de Graaf's direction and control, purported to vend certain Mongolian claims known as the Selenge Aimag claims, inter alia, to Western Prospector.

Edren and Ulaan Properties, Mongolia – Cont'd

In or about October, 2004, Mr. de Graaf wrongfully caused additional Mongolian claims within the Saddle Hills uranium basin in eastern Mongolia to be transferred to Western Prospector.

Pursuant to Mr. de Graaf's responsibilities in managing the exploration for minerals in Mongolia and in particular, with respect to the Ulaan and Edren claims, Mr. de Graaf arranged for and obtained samples to be taken from those claims and delivered them to an independent laboratory for metallurgical analysis, which results were received by Mr. de Graaf or his agent in the summer of 2004; however, contrary to his obligations to Mr. Beruschi and/or Maximum, Mr. de Graaf refused to deliver the lab results to Mr. Beruschi or Maximum.

In or about December, 2004, Mr. de Graaf, in further breach of his trust and fiduciary duties to Mr. Beruschi and/or Maximum, identified certain Mongolian mineral prospects and wrongfully caused or facilitated transactions whereby Western Prospector acquired an interest in a property in Mongolia known as the Mardaigol property, and whereby Western Prospector acquired two additional contiguous mineral exploration licences within the Gurvanbulag target area of the Saddle Hills uranium basin.

Maximum has entered into an agreement dated March 2, 2006, with Mr. Beruschi, pursuant to which it is the assignee of any rights or claims that Mr. Beruschi may have against the defendants and any other person, firm or company, with respect to the matters referred to in Maximum's action. The agreement provides that Mr. Beruschi will have a 30-per-cent carried interest in the properties to mining feasibility study if Maximum chooses to develop the properties. The agreement also provides that Mr. Beruschi receives exclusive marketing rights to uranium production from the Mongolian claims, a 2-per-cent net smelter royalty on the products and that Three, Thirty-Three Nine Great Endeavours, a private company solely owned by Mr. Beruschi, receives a production royalty on uranium produced from the Mongolian claims starting at \$1.50 per pound for uranium sales at less than \$20 per pound, and increasing as the uranium sale price increases.

Mr. de Graaf was appointed as a director of Western Prospector in March, 2004.

Maximum is claiming against the defendants for:

- an order and a declaration that the Mongolian claims are held in trust for Maximum;
- an accounting of all interest in and profits derived from the Mongolian claims;
- disgorgement of all interest in and profits from the Mongolian claims in favour of Maximum; and
- damages, equitable compensation, common law or equitable damages, interest and costs.

During the fourth quarter of the fiscal 2004 the Company's net loss was primarily affected by \$600,650 stock based compensation expense, \$166,000 mineral property investigation costs and \$674,680 write-down of the Company's properties in Mongolia.

The net loss for the second quarter of the fiscal 2006 was \$651,233 compared to the net loss of \$65,397 for the same period in fiscal 2005. The increase in the net loss was primarily due to stock-based compensation expenses of \$598,583. The net loss for the third quarters of fiscal 2005 is comparable to the loss for the same quarters in fiscal 2004.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2006, the Company had a working capital deficiency of \$206,158 (March 31, 2005 – working capital of \$ 30,236).

Management anticipates the raising of additional funding through sale of its securities to enable the Company to fund ongoing operations.

During the year ended September 30, 2005, the Company completed a private placement of 1,803,922 common shares at \$0.1275 per share for proceeds of \$230,000. In connection with this private placement, 1,803,922 warrants exercisable at \$0.25 per share were issued, expiring on or before February 22, 2007.

During the year ended September 30, 2004, the Company agreed to a \$492,000 private placement of 984,000 units at \$0.50 per unit, each unit consisting of one common share and one two-year share purchase warrant with each such share purchase warrant entitling each holder to purchase one additional common share of the Company at a price of \$0.75 per share.

During the year ended September 30, 2005, a portion of the private placement of 250,000 common shares at \$0.50 per share was closed for proceeds of \$125,000. LIQUIDITY AND CAPITAL RESOURCES – *CONT'D*

During the year ended September 30, 2005, a portion of the private placement of 250,000 common shares at \$0.50 per share was closed for proceeds of \$125,000. In connection with this private placement, 250,000 warrants at \$0.50 per share were issued, exercisable at \$0.75 per share, expiring on or before February 22, 2007.

On January 12, 2006, the Company agreed to a non-brokered private placement financing of up to \$404,000, consisting of up to 1,616,000 units, at 25 cents per unit. Each unit consists of one common share and one transferable warrant entitling the holder to purchase one additional share for 50 cents per share per share for a period of one year. The private placement is restricted to former placees whose warrants expired during the period that the company was cease traded. Funds from the financing will be used for working capital and in connection with possible litigation matters.

On February 7, 2006, the above private placement was accepted for filing by the TSX Venture Exchange.

Subsequent to March 31, 2006, on April 18, 2006, the Company agreed to a non-brokered private placement financing of \$300,000 comprising 600,000 units at 50 cents per unit. Each unit consists of one common share and one transferable warrant entitling the holder to purchase one additional share for 75 cents per share for a period of one year.

Anthony Beruschi is a placee, and is involved in Maximum's litigation with Western Prospector Group Ltd. and Kenneth de Graaf with respect to Mongolian mineral exploration properties, as disclosed in Maximum's news in Stockwatch dated March 2, 2006, and Western Prospector's news in Stockwatch dated March 3, 2006.

Funds from the financing will be used for general working capital and for litigation matters.

The financing is subject to acceptance for filing by the TSX Venture Exchange.

At March 31, 2006, the Company held cash on hand of \$3,210 (2005: \$27) and liabilities totalled \$332,742 (2005: \$136,401).

Maximum plans to continue to raise additional capital through the exercise of stock options and issuance of new share capital through equity financing. The Company's ability to raise additional capital will depend upon the progress of new acquisitions, subsequent development of resource properties and the strength of the resource equity markets, which are uncertain. There can be no assurance that additional capital will be available. The Company is in the process of developing plans to raise capital.

The Company does not have any off-balance sheet arrangements.

Stock Options

The Company has granted employees and directors common share purchase options. These options are granted with an exercise price equal to the market price of the Company's stock on the date of the grant. A summary of the status of the stock option plan as of March 31, 2006 and 2005 and changes during the years ending on those dates is presented below:

	March 31, 2006		March 31, 2005	
	Number of <u>Shares</u>	Weighted Average Exercise <u>Price</u>	Number of <u>Shares</u>	Weighted Average Exercise <u>Price</u>
Outstanding at beginning of period	1,445,000	\$0.65	1,465,000	\$0.65

Options outstanding and exercisable at end of period	2,543,546	\$0.50	1,465,000	\$0.65

The Company has adopted the new policy to record the fair value of compensation expense on the granting of stock options. The fair value is determined using the Black-Scholes option pricing model. For the period ended March 31, 2006 the Company recorded a non-cash compensation charge of \$598,583 upon the issuance of 2,543,546 stock options. The weighted average fair value of the options was \$0.24 per share.

The fair value of share options was estimated using the Black-Scholes option pricing model with the following assumptions:

	2006	2005
Risk-free interest rate	3.75%	-
Dividend yield	-	-
Expected stock price volatility	60.25%	-

RELATED PARTY TRANSACTIONS

During the six-months ended March 31, 2006 and 2005, the Company incurred the following costs charged by the company controlled by a director of the Company:

	Three months ended December 31,	
	<u>2005</u>	<u>2004</u>
Consulting fees	\$ 12,500	\$ -
Management fees	-	15,000
Interest	-	6,502
	<u>\$ 12,500</u>	<u>\$ 21,502</u>

These transactions were in the normal course of business and, in management's opinion, undertaken with the same terms and conditions as transactions with unrelated parties. Interest was charged on outstanding balance owed during the period. As at August 31, 2005 the management agreement with Selkirk Angler's Guide Services Ltd. was cancelled.

At March 31, 2006, accounts payable includes \$ Nil (2005: \$15,246) due to a company controlled by a director of the Company.

During the period under review, the Company entered into a loan agreement with one of its directors for \$120,000. The Company may draw the loan in whole or in parts, until August 31, 2006 or until the Company completes a financing in excess of \$500,000. The loan will be fully repaid when financing in excess of \$500,000 is reached. No interest is payable on the loan until after February 1, 2007, and thereafter interest is payable at a rate of 6% per annum.

CHANGES IN ACCOUNTING PRINCIPLES

Stock Based Compensation

The Company has early adopted the accounting recommendations of the CICA Handbook Section 3870, "Stock Based Compensation and Other Stock Based Payments". Under these recommendations the Company provides certain pro forma disclosures as required by the fair value method of accounting for stock options for its fiscal year ended September 30, 2003, and recognizes an expense for options granted on or after January 1, 2004.

The Company uses the Black Scholes option valuation model to value stock options. The Black Scholes model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable.

The model requires management to make estimates which are subjective and may not be representative of actual results. Changes in assumptions can materially affect estimates of fair values.

Mineral Properties

Mineral property acquisition costs and related exploration and development costs are deferred until the property to which they relate is placed into production, sold, allowed to lapse or abandoned. These costs will be amortized over the estimated life of the property following commencement of commercial production or will be written off if the property is sold, allowed to lapse or abandoned.

Mineral property acquisition costs include the cash consideration and the fair market value of common shares, based on the trading price of the shares issued for mineral property interests pursuant to the terms of the agreement. Payments relating to a property acquired under an option agreement, where payments are made at the sole discretion of the Company, are recorded upon payment. Option payments received are treated as a reduction of the carrying value of the related deferred costs until the Company's costs are recovered. Option payments received in excess of costs incurred are credited to revenue.

The amount shown for mineral property interests represents costs incurred to date and the fair market value of common shares issued and does not necessarily reflect present or future value. Administrative expenditures are expensed in the year incurred. Property investigation costs, where a property interest is not acquired, are expensed as incurred.

Although the Company has taken steps to verify title to mineral properties, these procedures do not guarantee the Company's title. Property title may be subject to un-registered prior agreements or other impediments.

On an annual basis or when impairment indicators arise, the Company evaluates the future recoverability of its mineral property costs. Impairment losses or write downs are recorded in the event the net book value of such assets exceeds the estimated indicated future cash flows attributable to such assets.

Asset Retirement Obligations

Effective September 1, 2004, the Company adopted the recommendations in CICA Handbook Section 3110 – “Asset Retirement Obligations” with respect to asset retirement obligations. Under Section 3110, legal obligations associated with the retirement of tangible long-lived assets are recorded as liabilities. The liabilities are calculated using the net present value of the cash flows required to settle the obligation.

A corresponding amount is capitalized to the related asset. Asset retirement costs are charged to earnings in a manner consistent with the depreciation, depletion and amortization of the underlying asset. The liabilities are subject to accretion over time for changes in the fair value of the liability through charges to accretion which is included in cost of sales and operating expenses.

It is possible that the Company’s estimates of its ultimate asset retirement obligations could change as a result of changes in regulations, the extent of environmental remediation required, the means of reclamation or of cost estimates. Changes in estimates are accounted for prospectively from the period the estimate is revised.

As at March 31, 2006, no provision has been made for asset retirement obligations.

OUTSTANDING SHARE DATA

As at May 26, 2006 the Company had authorized share capital of 100,000,000 shares without a par value. Shares outstanding as at May 26, 2006 totalled 25,435,465 shares. There were 2,053,922 warrants outstanding and 2,543,546 stock options outstanding.

RISKS AND UNCERTAINTIES

The Company competes with other junior mineral exploration companies, some of which have greater financial resources and technical facilities. The business of mineral exploration and extraction involves a high degree of risks and few properties that are explored are ultimately developed into production. In addition to specific risks disclosed throughout this discussion, other risks facing the Company include competition, reliance on third parties, environmental and insurance risks, statutory and regulatory requirements, metal prices and foreign currency fluctuations, share price volatility and title risks.
