Dealing disclosure requirements

Under the provisions of Rule 8.3 of the City Code on Takeovers and Mergers (the "Code"), if any person is, or becomes, "interested" (directly or indirectly) in 1% or more of any class of "relevant securities" of Misys, all "dealings" in any "relevant securities" of that company (including by means of an option in respect of, or a derivative referenced to, any such "relevant securities") must be publicly disclosed by no later than 3.30pm (London time) on the London business day following the date of the relevant transaction. This requirement will continue until the date on which the offer becomes, or is declared, unconditional as to acceptances, lapses or is otherwise withdrawn or on which the "offer period" otherwise ends. If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire an "interest" in "relevant securities" of Misys, they will be deemed to be a single person for the purpose of Rule 8.3.

Under the provisions of Rule 8.1 of the Code, all "dealings" in "relevant securities" of Misys by Misys, or by any of its respective "associates", must be disclosed by no later than 12 noon (London time) on the London business day following the date of the relevant transaction.

A disclosure table, giving details of the companies in whose "relevant securities" "dealings" should be disclosed, and the number of such securities in issue, can be found on the Takeover Panel's website at www.thetakeoverpanel.org.uk.

"Interests in securities" arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an "interest" by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities.

Terms in quotation marks are defined in the Code, which can also be found on the Panel's website. If you are in any doubt as to whether or not you are required to disclose a "dealing" under Rule 8, you should consult the Panel.

REG-Misys PLC <MSY.L> Independent Committee Update

Released: 14/06/2006

RNS Number:5381E

Misys PLC

14 June 2006

For immediate release

14 June 2006

On 9 June 2006, Misys plc ("Misys") confirmed that it had received a request from certain members of the senior management team to explore the possibility of making an offer for Misys. An Independent Committee of the Board, comprising all of the non-executive directors and chaired by Sir Dominic Cadbury, has been formed to consider the request.

The Independent Committee has now authorised certain members of the senior management team, on a non-exclusive basis, to explore the possibility of making an offer for Misys. At this preliminary stage, the Independent Committee has not yet authorised the release of any non-public information.

The Independent Committee believes there is significant value within Misys and is confident in the growth prospects of the Company. The Independent Committee is considering the best way of maximising value for all shareholders while at the same time minimising disruption to the business and employees.

The Independent Committee reconfirms that no offer has been received and no price has been discussed in relation to either all or part of Misys and therefore there is no certainty that an offer will be forthcoming.

JPMorgan Cazenove has been appointed to advise the Independent Committee.

A further announcement will be made in due course, as appropriate.

FOR IMMEDIATE RELEASE

Wednesday, 21 June 2006

Misys plc

Trading update for the full year ended 31 May 2006

A conference call for analysts and investors will be held at 8.30am today. Details of the call can be found at the end of this trading update. Misys plc preliminary results will be announced on 27 July 2006.

Commenting on the update, Kevin Lomax, Chief Executive, Misys, said: "We have continued to develop our core businesses of Banking and Healthcare, investing in our product portfolio to align it more closely with the higher-growth opportunities in our markets. Response to our investment has been positive, demonstrated by significant demand for a number of our key products and by new-name customer wins, but we know there is more to be done to maximise future growth."

The figures in this trading update are unaudited and have been prepared in accordance with IFRS.

Financial and business highlights

- * Adjusted basic EPS* expected in the range of 14.1p to 14.6p per share
- * Banking (like for like**): ILF order intake up 8% at £84m, total revenues up 7%
- * Healthcare (like for like**): ILF order intake down 4% at £55m, total revenues up 3%
- * Sesame: strong revenue growth and margin improvement***; additional £16m exceptional charge associated with regulatory reviews and endowment complaints
- * General Insurance: disposal completed for proceeds of £183m, generating a profit of £172m, after taxation
- * Increased resources and investment in product development

* Adjusted basic EPS is calculated pre exceptional items, gains and losses on embedded derivatives and amortisation of acquired intangibles and is based on an average number of shares in issue of 484m.

** Where like for like data is provided, it is at constant exchange rates and excludes disposals and non comparable periods in respect of acquisitions.

*** Operating margin information is presented pre exceptional items, gains and losses on embedded derivatives and amortisation of acquired intangibles.

Further information on the results for the period under review on both an as reported and like for like basis is contained in the Notes to this trading update.

Unless otherwise stated all figures in the paragraphs below refer to like for like data.

Group overview

We continue to see attractive growth opportunities in our two core markets of banking and healthcare. We are increasingly focusing our product portfolio, through significant investment in product development, to take advantage of higher-growth segments, although we recognise that there is more to do in this regard. During the year we achieved strong sales to new-name customers, while the continued growth of our recurring revenue streams demonstrated the resilience of our relationships with existing customers.

Misys Banking Systems

Total revenues were up 7%, and on a reported basis, with a favourable movement in exchange rates, revenues were up 9%. ILF revenues rose 15%. ILF order intake

increased by 8%, with more than 30 new-name wins, against a strong prior year comparable period.

Professional Services revenues fell by 1%, reflecting the impact of the contract deferrals highlighted at the time of our AGM trading update. Maintenance revenues were up 3%, again demonstrating the stability of our large installed customer base.

Operating margin on a reported basis is expected to be around 14%, in comparison with 16.8% in the prior year.

The restructuring announced at the time of our interim statement is now complete. We have brought together our retail and wholesale banking operations as Core Banking, and have integrated the Basel II compliance solution, Almonde, into that business unit. We are retaining our Risk Vision business and focussing it on serving its existing customers.

As a result of the restructuring, the division has incurred an exceptional charge of £14m (including a £3m write-off of capitalised development costs relating to Risk Vision), which is within the expected range indicated at the time of our Interim results. Consequently, we expect to achieve cost savings of about £15m in the financial year ending 31 May 2007 which will largely be reinvested in the business, particularly in product development.

Misys Healthcare Systems

Total revenues were up 3%, and on a reported basis, with the benefit of movement in exchange rates and of acquisitions, revenues were up 9%. During the period our sales teams achieved considerable success in winning new-name customers but new sales to our installed base were below the previous year. ILF revenues were down 4% and ILF order intake decreased by 4%. Professional Services revenues showed strong growth, up 10%. Professional Services are becoming more significant in our sales mix as the shift in demand to more complex clinical products continues. Hospital solutions such as Misys CPR have a smaller proportion of ILF revenue and a greater proportion of professional services revenue in comparison with departmental products. Maintenance revenues increased by 8%, again demonstrating the strength of our installed base. Transaction Processing revenues remained flat but increased 8% on a reported basis.

The integration of the Payerpath business, which we acquired in the second half of the year, is going to plan. This, together with other assets in the physicians market which we acquired towards the end of the year, has given rise to an exceptional acquisition integration charge of £2m, and to an operating loss of £1m in the year to 31 May 2006. The future growth in profits from these assets is expected to be slow at first, because of the nature of the subscription-based business model. As a result, we expect these acquisitions to generate further operating losses of £3m in the year to 31 May 2007, thereafter becoming profitable and delivering good growth.

Operating margin on a reported basis is expected to be slightly ahead of the prior year at around 15% compared to 14.6%.

Sesame

Total revenues in Sesame were 18% higher than in the prior year. This reflects a significant increase in RI productivity, including strong take-up of Sesame's mortgage and multi-tie offerings. Encouragingly over 1,000 financial advisers have been recruited into the Sesame Select open multi-tie proposition, with 700 having begun trading, since launch last July. As expected, a number of these advisers have transferred from our existing propositions, contributing to a reduction in the membership of both Sesame Network and Sesame Direct. Operating margin improved slightly to just over 2%.

Costs incurred and changes to the future estimated costs and redress payments associated with regulatory reviews and endowment complaints have resulted in an exceptional charge of £16m in the year.

General Insurance

On 5 May 2006 we completed the sale of our general insurance broking systems business. The gross proceeds from the sale were £183m with a profit on disposal of £172m, after taxation.

The General Insurance business contributed profit before taxation, excluding profits on disposal, of £15m in the year up to the date of disposal and £16m in the prior year, these profits being included within adjusted EPS.

Exceptional Items

An analysis of exceptional items can be found in the Notes to this trading update. The exceptional items not referred to above include:

In July 2005, Misys disposed of its 60% investment in AssureWeb Ltd for a cash consideration of £3m, realising a loss on disposal of £3m.

In August 2005, Misys disposed of its 29% investment in First Software (UK) Ltd for a cash consideration of £9m, realising a profit on disposal of £8m.

Costs related to the terminated disposal process for Sesame amounted to £1m.

Foreign exchange

Retranslating the results for 2005 using the average exchange rates for 2006 increases 2005 revenues by £17m and operating profit by £2m and this is reflected in the like for like comparative results. The most significant impact is from the movement in the US dollar, where the average exchange rate in 2006 was US\$1.7760:£1 compared to US\$1.8586:£1 in 2005. The US\$ exchange rate at 31 May 2006 was US\$1.8731:£1. If we were to retranslate our 2006 results at the closing exchange rates at 31 May 2006 instead of the average rates for the year this would result in revenue and operating profit decreasing by approximately £20m and £4m respectively on an adjusted basis.

NOTES

These Notes are provided to assist assessment of the performance of the Group from this trading update.

All figures below are unaudited and are prepared in accordance with IFRS. The data below has been provided on both an as reported basis and on a like for like basis. In this trading update the like for like numbers illustrate the underlying trading performance of the Group in the period under review. The like for like results exclude the results of the businesses disposed of (General Insurance and AssureWeb) and the incremental benefit of acquisitions made in the current and comparator periods. Like for like figures are quoted in sterling using average exchange rates for the year ending 31 May 2006. Operating margin information is presented pre exceptional items, gains and losses on embedded derivatives and amortisation of acquired intangibles.
