**SEMBCORP REPORTS RECORD PROFIT of \$567.9 MILLION at 1H2006**

- **Group PATMI up 287% to \$567.9 million**
- **Efforts to streamline Group focus pay off with earnings from continuing operations up 48% to \$166.8 million (PATMI before EI)**

**Singapore, August 7, 2006** - SembCorp Industries (SembCorp) delivered a solid first half 2006 performance with strong earnings growth. Group Profit After Tax and Minority Interest (PATMI) reached a record \$567.9 million, while PATMI before exceptional items (EI) from continuing operations saw a strong growth of 48% to \$166.8 million on the back of a 38% rise in turnover to \$3.6 billion.

Of the Group's continuing operations, the Utilities and Marine Engineering businesses contributed close to 90% of the Group PATMI. Utilities' PATMI grew 31% to \$92.7 million, underpinned by recurring earnings from Singapore, strong performance of its UK and Vietnam operations as well as improved performance of the Offshore Engineering unit. Meanwhile, Marine Engineering's contribution to Group PATMI before EI grew 53% to \$55.1 million boosted by higher operating margins from rig-building and ship repair businesses.

"Our efforts to restructure and further streamline our focus have made 2006 a landmark year for the Group. With the divestment of our Logistics and Engineering and Construction businesses, SembCorp is now focused on centralised utilities & energy, environmental management and marine & offshore engineering. Going forward, and given the strong fundamentals of our core businesses coupled with favourable industry prospects; our company is in a good position to actively capitalise on opportunities and grow," commented Mr Tang Kin Fei, Group President & CEO.

**SembCorp's FY2006 Outlook**

With the exceptional gains recorded to-date, the Group's overall performance for 2006 is expected to be substantially better than that of 2005.

### 2c. Notes to Balance Sheet

#### Group

Due to the disposal of SembCorp Logistics Ltd and SembCorp Engineers and Constructors Pte Ltd in April and June 2006 respectively, the Group has ceased to consolidate these entities. As such, most balance sheet items as at June 30, 2006 are lower than December 31, 2005.

The increase in share capital is due to the transfer of share premium account to the share capital arising from the amendments in the Companies (Amendment) Act 2005. (See note 4c.) The decrease in Minority Interests is due to the disposal of SembCorp Logistics Ltd.

The increase in interests in associates and the corresponding decrease in interests in joint ventures is mainly due to the Group's rationalisation of its Riau investments (previously held under joint ventures) through the consolidation of these investments under an associate, Gallant Venture Ltd, an entity listed on SGX – SESDAQ

Inventories and work-in-progress increased as more projects were undertaken by Marine SBU.

Provisions decreased as the Group has made payment for the full and final settlement of the Solitaire arbitration.

#### Company

The decrease in Investment in Subsidiaries is due to the disposal of SembCorp Logistics Ltd and SembCorp Engineers and Contractors Pte Ltd and accordingly the proceeds from these divestments have resulted in an increase in the bank and cash balances.

The decrease in trade & other payables is due to the settlement of intercompany balances during the period.

9. **REVIEW OF GROUP PERFORMANCE**

**Group Overview**

For its continuing operations, the Group achieved turnover of \$3.6 billion in 1H06. The Group's profit attributable to shareholders of the Company (PATMI) before exceptional items (EI) in 1H06 was \$166.8 million compared to \$113.0 million in 1H05, which represents a 48% growth.

The Group also generated strong Economic Value Added of \$520.3 million due to strong operating performance by the Utilities and Marine businesses and the gain on disposal of subsidiaries.

**Turnover**

Utilities and Marine together contributed to 95% of the Group's turnover of \$3.6 billion in 1H06.

Utilities' turnover increased by 24% to \$1.8 billion. Its Singapore and UK operations continued to do well as power prices continue to remain high. However, turnover in its offshore engineering unit declined with the completion of some of its projects.

Marine's turnover increased by 69% to \$1.5 billion. This was mainly due to strong growth in its rig building business.

Note: NM = Not meaningful

The Group's PATMI from its continuing operations in 1H06 rose by 48% to \$166.8 million. The strong growth was mainly contributed by its Utilities and Marine business units.

Utilities' PATMI in 1H06 was higher by 31% over 1H05. The turnaround of its offshore engineering unit contributed to Utilities' growth.

The increase in Group's share of PATMI from its Marine business unit was due to better operating margins from its rig building and ship repair businesses; and higher contribution from its associated companies and joint venture.

The improvement in Others / Corporate PATMI in 2Q06 was mainly attributed to higher dividend income received from its investments. There was also a one-off impairment on a property included in 2Q05. In addition, 2Q05 and 1H05 also included professional fees incurred in respect of Solitaire legal case.

The Group also recorded EI gain of \$393.5 million for 1H06. EI comprised the net gain on disposal of subsidiaries, offset by an additional charge arising from the final settlement on the Solitaire legal case. EI in 2Q06 comprised of the net loss on disposal of subsidiaries.

9. **REVIEW OF GROUP PERFORMANCE** (Cont'd)

**Discontinued Operations**

Discontinued Operations are the Group's interest in the logistics business and engineering and construction business.

On April 3, 2006, the Group completed the sale of its entire 60.01% stake in SembCorp Logistics Ltd (SembLog). The gain on the sale of SembLog has been recognised in the Group's 1Q06 results. On June 2, 2006, the Group announced its sale of SembCorp Engineers and Constructors Pte Ltd (SembE&C). The amount received on completion of the sale is subject to adjustment to be made, based on the audited NTA of E&C as at May 31, 2006. The adjustment will be capped at a maximum of \$3 million. These adjustments have yet to be agreed by both parties and hence have not been included in the Group's 2Q06 results. The loss (without the adjustments) on the sale of E&C has been recognised in the Group's 2Q06 results. These divestments are in line with the Group's aim to sharpen its strategic focus on a smaller stable of core businesses.

The analysis of the results of the discontinued operations are as follows:

## 11 (B) **PROSPECTS**

### Utilities

Underpinned by long-term contracts, its Singapore operations will continue to generate stable earnings. UK operations are expected to perform better than 2005 due to high UK energy prices and favourable supply contracts secured until end 2007 / early 2008. Our operation in Vietnam is expected to continue to perform well. Our China projects are still in the early phase and one of them is expected to face challenges due to the shortage of natural gas in Shanghai. Offshore engineering unit has turnaround and started contributing positively this year.

Overall, Utilities is expected to achieve stable operating profits in 2006 compared to 2005.

### Marine

New orders secured in 1H06 was \$1.9 billion and total net order book as at June 30, 2006, excluding ship repair, stands at \$6.0 billion with completion and deliveries till 2009.

Ship repair demand remains strong especially in the specialised market of LNG/LPG gas tankers, container vessels and rig repairs. Market fundamentals for Floating Production Storage Offloading (FPSO) vessels and Floating Storage Offloading (FSO) vessels continue to strengthen, driven by high oil prices and increase in worldwide exploration and production activities. Fundamentals for the rig building sector remain strong attributable to high utilisation levels worldwide, unprecedented high charter rates as well as an aging rig fleet.

Marine's overall performance for 2006 is expected to be stronger than 2005.

### Enviro

Enviro has successfully entered into the waste-to-resource market through the acquisition of Jiangsu SembCorp Chunxing Alloy and SembEnviro KK Asia and will focus on high value-added waste-to-resource and pre-disposal treatment business for sustainable earnings and growth. Local municipal waste collection sector is expected to be highly competitive. Overall, Enviro is expected to perform better than 2005.

### SCI Group

With the exceptional gains recorded to-date, the Group's overall performance for 2006 is expected to be substantially better than that of 2005.
