Third parties' liabilities relating to backing, including pledge or guarantee, provided by the Company in 3Q2006: **none**

The Company has no such agreements (including forward transactions) not shown on its balance sheet, which may significantly impact financial position of the Company, its liquidity, sources of funds and terms of their use, performance results and expenses for 3Q2006.

2.4. Objectives of the issues and information on the use of funds raised through placement of issuing securities.

The Company did not place any securities from 2001 to the end of the reporting period.

2.5. Risks related to acquisition of placed issuing securities or those being placed.

2.5.1. Industry risks.

The Company's operating activities include exploration, development and operation of oil and gas fields, oil and gas transportation and processing, and products sales, and are a complex production process that involves a number of technological industry risks.

The Company's efforts to keep its stable oil and gas production level, maintain and upgrade fixed assets, and introduce new equipment and technologies in the upstream sector allow it to minimize the impact of technological industry risks on its production processes and financial performance.

Russian oil companies are most likely to be subject to world oil prices fluctuation risks, which result from the following:

- *the rate of economic development of the leading oil consuming countries;*
- *OPEC decisions on crude oil production and exports to global markets;*
- *political stability in the Middle East;*
- *changes in prospective reserves worldwide.*

Oil prices at the domestic market are subject to the following factors:

- *pace of oil export capacity expansion;*
- *economic situation and growth trends;*
- *inflation rate;*
- *world oil price fluctuations affecting profitability of crude oil and petroleum products exports.*

2.5.2. Country and region risks.

The Company's operations are located in Khanty-Mansiysky and Yamalo-Nenetsky Autonomous Okrugs of Tyumenskaya Oblast, in the Republic of Sakha (Yakutia), and in the northwestern and central regions of the Russian Federation. The regions where the Company does its business are unlikely to face any major seismic hazard or high probability of natural disasters. Some areas of the Republic of Sakha (Yakutia) are subject to

seasonal floods that cannot, however, have a considerable impact on the Company's operations.

The Company is committed to continuous improvement of the efficiency of its business aimed at long-term growth, social responsibility to its country, society and employees; besides, this country and those regions where the Company operates have been demonstrating sustainable development. Therefore, the Company does not have any grave country or regional risks.

2.5.3. Financial risks.

The Company is engaged in foreign economic activity and earns much of its income from export of its products to foreign markets. Since export contracts typically use the US dollar as the main currency for payments, any changes in the national currency/USD exchange rate may substantially influence the Company's financial performance. In this regard, the Company's short-term and long-term financial investment policy seeks to reduce risks of currency exposure.

Interest rate risks have less impact on the Company's operations owing to its strong financial position, absence of heavy debts, and availability of cash assets necessary to implement its strategic projects. However, changes in interest rates related to country risks reevaluation may entail changes in the Company's requirements for the level of returns on investment projects.

A substantial part of the Company's expenses depends on the general price level in Russia and, in particular, on the level of natural monopolies' services rates, and is subject to a rising inflation risk. The Company seeks to reduce risks of exposure of operation activities to inflation by taking into account estimated inflation rates when formulating financial plans and budgets.

2.5.4. Legal risks.

Changes in tax legislation, exchange control mechanisms, customs regulations and tariffs, licensing requirements for the Company's core activities may reduce the Company's profit.

Changes in licensing requirements for the Company's core activities or for rights to use objects limited in commerce (including natural resources) may lead to a longer period needed for preparation of documents to renew licenses; besides, the Company may have to align its operations with the new requirements. However, this risk should be considered as low, except for the cases when the Company will not be able to comply with the requirements to renew licenses or carry out licensable activities, or when compliance with requirements will entail excessive expenses, which may prompt the Company to stop this kind of activity.

Changes in judicial practice are mainly related to changes in laws. Nevertheless, there is not much possibility of such changes, which may deeply affect the Company's operations.

2.5.5. Risks related to the issuer's operations.

Key risks that may deeply affect the Company's operations are external factors such as changes in oil prices in both world and domestic markets, alterations of Russian export capacities to transport oil and petroleum products, higher transport and electricity tariffs, and additional taxes imposed on Russian oil producers.

8.8. Taxation of income from placed issue-grade securities of the issuer.

<i>I. Taxation of legal entities' dividend income from placed securities.</i>		
No.	Categories of holders of securities	
	Legal entities – tax residents of the RF	Foreign legal entities (non-residents) enjoying income from sources in the RF
1. Income from placed	Dividends	

securities		
2. Tax on securities income	Profit tax	
3. Tax rate	9%	15%
4. Tax payment procedure and deadlines	Taxes on dividend income are charged at the source of payment of such income and transferred to the state budget by the tax agent that has effected the payment within 10 days after the income is paid.	The tax deducted from foreign companies' income is transferred by the tax agent to the federal budget concurrently with the income payment either in the currency this income was paid or in the currency of the RF at the official exchange rate of the Central Bank of the RF as of the date of tax transfer.
5. Taxation procedures for this category of security holders	The total amount of dividend tax is calculated on the basis of the difference between the amount of dividends payable to resident shareholders and the amount of dividends received by the tax agent for the reporting period. The negative result eliminates both tax payments and refund from the state budget. The tax amount to be withheld from the income of the taxpayer-recipient of dividends is calculated on the basis of the total tax amount and a fraction of each taxpayer in the total amount of dividends.	Double taxation relief. International treaties of the RF require foreign organizations to provide the tax agent who pays income with a confirmation that such foreign organization has a permanent location in a country with which the RF concluded an international tax treaty (agreement) governing taxation issues. Such confirmation is to be certified by relevant authorities of that foreign state. If the foreign organization entitled to draw income furnishes such confirmation to the tax agent who pays income before the income payment date, such income is either exempt from taxes at the source of payment or taxes are withheld at the source of payment at lower rates. To refund taxes withheld earlier in the RF, the foreign organization is to submit necessary documents to the taxation body at the territory where the tax agent is registered. Documents are submitted within three years after the end of the tax period during which the income was paid.
6. Legislative and normative acts governing the taxation procedure for the said income	RF Tax Code, Part 2, Chapter 25 "Corporate Profit Tax" (as amended and supplemented), Double Taxation Treaty.	
II. Taxation of natural persons' dividend income from placed securities.		
No.	Categories of holders of securities	

	Natural persons – tax residents of the RF	Natural persons enjoying income from sources located in the RF, who are not tax residents of the RF
1. Income from placed securities	Dividends	
2. Tax on securities income	Individual income tax	
3. Tax rate	9%	30%
4. Tax payment procedure and deadlines	A Russian company being the source of the taxpayer's dividend income (tax agent) is obliged to withhold the tax from the taxpayer's income and transfer the tax to the corresponding budget. The accrued tax amount is withheld from the taxpayer's income when such income is paid. Tax agents are obliged to transfer accrued and withheld tax amounts not later than on the day when the bank receives disposable funds to pay the income as well as not later than on the day when such income is transferred from tax agents' bank accounts to the taxpayers' accounts or, at the taxpayer's request, to bank accounts of third parties.	
5. Taxation procedures for this category of security holders	The total amount of dividend tax is calculated on the basis of the difference between the amount of dividends payable to resident shareholders and the amount of dividends received by the tax agent for the reporting period. The negative result eliminates both tax payments and refund from the state budget. The tax amount to be withheld from the income of the taxpayer-recipient of dividends is calculated on the basis of the total tax amount and a fraction of each taxpayer in the total amount of dividends.	Double taxation relief. In order to obtain tax relief, offsetting, tax refund or other tax incentives, a taxpayer shall submit to the tax authorities an official confirmation that he/she is a resident of the country with which the RF has concluded a double taxation treaty (agreement) which is in force during the respective tax period (or a part thereof) as well as a document stating that the taxpayer has drawn income and paid the tax outside the RF, that document being confirmed by the tax authorities of the relevant foreign state. Such confirmation can be submitted either before tax or tax advance payments or within one year after the end of the tax period based on the results of which the taxpayer claims tax exemption, tax relief, offsetting, tax refund or incentives.
6. Legislative and normative acts governing the taxation procedure for the said income	RF Tax Code, Part 2, Chapter 23 "Individual Income Tax" (as amended and supplemented), Article 275, Double Taxation Treaty.	
III. Taxation of legal entities' income from sales of placed securities.		
No.	Categories of security holders	
	Legal entities – tax residents of the RF	Foreign legal entities (non-residents) enjoying income from sources in the RF
1. Income from placed securities	Revenues from sales of securities	Revenues from sales of shares of Russian companies whose real

		estate located in the RF accounts for over 50% of the company's assets.
2. Tax on securities income	Profit tax	
3. Tax rate	24%	20%
4. Tax payment procedure and deadlines	The tax payable at the end of the tax period is paid not later than on March 28 following the expired tax period. Quarterly advance payments are paid within 28 days after the respective reporting period ends. Monthly advance payments payable within the reporting period are paid not later than on the 28th day of each month of this reporting period. The taxpayers who calculate monthly advance payments ex post realized profit pay advance payments not later than on the 28th day of the month following the month of tax assessment. Against the results of the reporting (tax) period, the amounts of monthly advance payments paid within the reporting (tax) period are offset when advance payments for the reporting period are paid. Advance payments for the reporting period are offset against tax payments for the tax period.	The tax is calculated and withheld by the Russian company that pays income to the foreign company, every time income is paid, and is transferred by the tax agent to the federal budget at the time this income is paid either in the currency this income is paid or in the currency of the RF at the exchange rate set by the Central Bank of the RF as of the day the tax is transferred.
5. Taxation procedures for this category of security holders		Double taxation relief. If a foreign company before the income payment date provides the tax agent with a confirmation that it has a permanent location in a country with which the RF concluded an international taxation agreement, such company becomes exempt from taxes at the source of payment or taxes are withheld at lower rates in regard of the income which is subject to preferential tax treatment in the RF under such agreement.
6. Legislative and normative acts governing the taxation procedure for the said income	RF Tax Code, Part 2, Chapter 25 "Corporate Profit Tax" (as amended and supplemented)	
IV. Taxation of natural persons' income from sales of placed securities.		
No.	Categories of securities holders	

	<i>Natural persons – tax residents of the RF</i>	<i>Natural persons enjoying income from sources in the RF who are not tax residents of the RF</i>
1. Income from placed securities	<i>Income (loss) from sales of securities is the difference between the amount of income obtained from sales of securities and documented expenses on acquisition, sales and custody of securities, as actually incurred by the taxpayer, or property deductions accepted to lower income from such purchase and sale transaction.</i>	
2. Tax on securities income	<i>Individual income tax</i>	
3. Tax rate	<i>13%</i>	<i>30%</i>
4. Tax payment procedure and deadlines	<i>The tax agent calculates and pays the tax amount either after the tax period (calendar year) expires or when the tax agent pays taxpayer's monetary assets before the current tax period expires. If monetary funds are paid before the current tax period expires, the tax is paid on the basis of fraction of income equivalent to the actual amount of monetary funds being paid.</i>	
5. Taxation procedures for this category of securities holders	<i>In case the taxpayer's expenses cannot be proved by documents, such taxpayer is eligible to claim a property tax refund amounting to the sum received from the sale of securities but not exceeding RUR 125,000. In regard to securities that the taxpayer has been holding for 3 years or more, the property tax refund equals to the amount received by the taxpayer from the sale of these securities. The taxpayer is granted with a property tax refund or a refund amounting to expenses actually incurred and documented either when taxes are assessed and paid to the budget at the source of income payment or when a tax declaration is submitted to the tax authorities after the tax period expires.</i>	<i>Double taxation relief. In order to obtain tax relief, offsetting, tax refund or other tax incentives, a taxpayer shall submit to the tax authorities an official confirmation that he/she is a resident of a country with which the RF has concluded a double taxation treaty (agreement) which is in force during the respective tax period (or a part thereof) as well as a document stating that the taxpayer has drawn income and paid the tax outside the RF, that document being confirmed by the tax authorities of the relevant foreign state. Such confirmation can be submitted either before tax and advance payments or within one year after the end of the tax period based on the results of which the taxpayer claims tax exemption, refund or incentives.</i>
6. Legislative and normative acts governing the taxation procedure for the said income	<i>RF Tax Code, Part 2, Chapter 23 "Individual Income Tax" (as amended and supplemented).</i>
