Report of Independent Auditors

The Board of Directors
AssetMark Capital Corporation

We have audited the accompanying statement of financial condition of AssetMark Capital Corporation as of December 31, 2005, and the related statements of income, stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the management of AssetMark Capital Corporation. Our responsibility is to express an opinion on these financial statements, based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AssetMark Capital Corporation as of December 31, 2005, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States.

Our audit was primarily for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental information is required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the same auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements, taken as a whole.

AssetMark Capital Corporation
Notes to Financial Statements
December 31, 2005

Note 1 – Basis of presentation and summary of significant accounting policies

Basis of presentation

The accompanying financial statements include the accounts of AssetMark Capital Corporation (the "Company").

The Company was incorporated in California on October 3, 1994. The Company received regulatory approval to sell securities in all states on March 6, 1995, and is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and a member of the National Association of Securities Dealers ("NASD"). The Company claims exemption from SEC Rule 15c3-3 because of its limited business (mutual funds). The Company does not handle securities or carry customer accounts.

At December 31, 2005, 47.5% of the Company is owned by Putnam Lovell Equity Partners, LP. Four individuals hold the remaining shares.

Nature of operations

Revenues to the Company in previous years consisted principally of fees from the sale of shares in one real estate mutual fund. The Company stopped selling shares of this fund in 2002, but continued to receive residual distribution and marketing fees the balance of which were collected during the year ended December 31, 2003. Thereafter the Company's operations have consisted of regulatory registration and compliance, the costs of which have been paid by an affiliate.

Basis of accounting

The financial statements of the Company have been prepared under accounting principles generally accepted in the United States and reflect the following significant policies.

Revenue recognition

Investment income is recorded as earned.

AssetMark Capital Corporation
Notes to Financial Statements
December 31, 2005

Note 1 – Basis of presentation and summary of significant accounting policies (continued)

Cash

For purposes of the statement of cash flows, cash consists of amounts on deposit with a commercial bank in an interest bearing account, available on demand.

Fair value of financial instruments

Substantially all assets and liabilities carried at historical cost or contract value approximate fair value due to their relative short-term nature.

Advertising costs

Costs incurred for producing and communicating advertising are expensed when incurred.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Transactions with affiliate

The Company is affiliated with AssetMark Investment Services, Inc. as a result of common ownership. During the year ended December 31, 2005, the Company occupied office space and received certain administrative services provided by AssetMark Investment Services, Inc. at no charge. As a result of this relationship, certain amounts may not be the same as those that would result from transactions between unrelated parties.

The Company has an agreement with AssetMark Investment Services, Inc., which

AssetMark Capital Corporation
Notes to Financial Statements
December 31, 2005

Note 2 – Transactions with affiliate (continued)

states that AssetMark Investment Services, Inc. stands ready to pay expenses on behalf of the Company as notified by the Company. Any payment so made by AssetMark Investment Services, Inc. will be made without expectation of future repayment by the Company.

No payments were made to AssetMark Investment Services, Inc. for operations through December 31, 2005.

Note 3 – Income taxes

The Company provides for income taxes for all transactions that have been recognized in the financial statements, determined in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." The Company had no income tax expense for the year ended December 31, 2005 because of the net loss incurred for the year. As of December 31, 2005, the Company had a deferred tax asset resulting from its net operating loss carryforward that has been fully offset by a valuation allowance. The loss carryforward amounts to approximately \$40,000 for federal income tax purposes and expires from 2023 to 2024, if not utilized.

Note 4 – Net capital requirement

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule 15c3-1 of the SEC (the "Rule"). The Rule requires the maintenance of minimum net capital, as defined under the Rule, equivalent to the greater of \$5,000 or 12.5% of aggregate indebtedness, as defined under the Rule.

As of December 31, 2005, the Company had net capital, as defined under the Rule, of \$8,016, which exceeded the minimum requirement of \$5,000 by \$3,016. The Company's aggregate indebtedness, as defined under the Rule, was zero

Report of Independent Auditors on Internal Accounting Control
Required by SEC Rule 17a-5

The Board of Directors and Stockholders
AssetMark Capital Corporation

We have audited the financial statements of AssetMark Capital Corporation for the year ended December 31, 2005, and have issued our report thereon dated February 2, 2006. As part of our audit, we made a study and evaluation of the Company's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

We also studied the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedure for determining compliance with the exemptive provisions of rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under section 10 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are

safeguarded against loss from unauthorized use of disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. In addition, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation, made for the limited purpose described in the first paragraph, would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of AssetMark Capital Corporation, taken as a whole. No condition that may be considered a material weakness came to our attention during our study and evaluation.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures were adequate at December 31, 2005 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and the National Association of Securities Dealers and should not be used for any other purpose.
