INDEPENDENT AUDITOR'S REPORT ON INTERNAL
CONTROL STRUCTURE REQUIRED BY SECURITIES AND
EXCHANGE COMMISSION RULE 17a-5 FOR A BROKER-
DEALER CLAIMING AN EXEMPTION FROM SECURITIES AND
EXCHANGE COMMISSION RULE 15c3-3 (k)(2)(ii)

In planning and performing our audit of the financial statements and supplemental schedules thereto of Percival Financial Partners, Ltd. as of December 31, 2006, we considered its internal control structure including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and supplemental information thereto and not to provide assurance on the internal control structure.

Also as required by rule 17a-5(g)(1) of the Securities Exchange Commission we have made a study of the practices and procedures including tests of such practices and procedures followed by Percival Financial Partners, Ltd. that we considered relevant to the objectives stated in rule 17a-5(g)(1) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3(k)(2)(ii). The Company does not carry securities accounts for customers or perform custodial functions relating to customer securities therefore we did not review the practices and procedures followed by the company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under section B of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Securities Exchange Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with

Members: American Institute of Certified Public Accountants ♦ Maryland Association of Certified Public Accountants

reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17 a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Securities Exchange Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding, and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the Securities Exchange Commission's objectives.

This report is intended solely for the use of the Board of Directors, management, the Securities Exchange Commission the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
