REPORT OF INDEPENDENT
CERTIFIED PUBLIC ACCOUNTANTSBoard of Directors
David M. Polen Securities, Inc.

We have audited the accompanying statements of financial condition of David M. Polen Securities, Inc. (a wholly-owned subsidiary of Polen Capital Management, Inc.), as of December 31, 2006 and 2005 and the related statements of income, changes in stockholder's equity, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of David M. Polen Securities, Inc. as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Capitalization

David M. Polen Securities, Inc. (the "Company") was incorporated under the laws of the State of New York on January 30, 1979. The Articles of Incorporation authorize the Company to issue and have outstanding 200 shares of common stock with a par value of \$0.01 per share.

Nature of Business

The Company, a wholly-owned subsidiary of Polen Capital Management, Inc. (the "Parent"), is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") and the National Association of Securities Dealers, Inc. (the "NASD"). The Company conducts business on a fully disclosed basis with Neuberger Berman, LLC (the "Clearing Broker") pursuant to a clearing agreement. The Company does not receive, directly or indirectly, or hold funds or securities for, or owe funds or securities to, customers and does not carry accounts of or for customers.

Use of Estimates

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the balance sheet, and the reported amounts of revenues and expenses during the reporting periods. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of 90 days or less when acquired to be cash equivalents.

Investments

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Other investments that are considered to be non-marketable are valued based on the underlying security with appropriate application of marketability discounts.

Revenue Recognition

Commission revenue and related expenses are recorded on a settlement-date basis. Such amounts do not differ materially from those that would be recorded under generally accepted accounting principles, which require that commission revenue and expenses be recorded on a trade-date basis.

Income Taxes

No provision for federal or state income taxes has been made as the Company files a combined return with the Parent as a qualified Subchapter S subsidiary. As such, the Company is not liable for federal and state income tax payments.

Fair Value of Financial Instruments

The carrying values of cash, receivables and payables approximate fair value due to the short-term maturities of these instruments.

Reclassifications

Certain amounts in the 2005 financial statements have been reclassified to conform to the current year presentation.

In the normal course of business, securities transactions of customers are introduced to and cleared through the Clearing Broker. Pursuant to an agreement between the Company and the Clearing Broker, the Clearing Broker has the right to charge the Company for unsecured losses that result from a customer's failure to complete such transactions.

The Company currently derives all of its commission revenue as an introducing broker acting on behalf of clients of the Parent.

The Company does not anticipate nonperformance by customers in the above situations. In addition, the Company has a policy of reviewing, as considered necessary, the credit standing of the customers, the Clearing Broker and financial institutions with which it conducts business.

In the normal course of business, customers may sell securities short. Subsequent market fluctuations may require the Clearing Broker to obtain additional collateral from the Company's customers. It is the policy of the Clearing Broker to value the short positions daily and to obtain additional deposits where deemed appropriate.
