R&R PLANNING GROUP, LTD.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2006

1. **Significant Accounting Policies:**

a. **Nature of operations**

The Company is a registered broker-dealer that clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer and promptly transmits all customers' funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer. Accordingly, the Company is subject to the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission and is exempt from the remaining provisions of that rule. The Company is an investment advisor registered with the state of New York.

b. **Revenue recognition**

Proprietary securities transactions, commission revenue and related expenses are recorded on a trade basis. Liabilities for trade date basis purchases of securities represent obligations to the Company's clearing broker for transactions executed but not yet settled relating to securities purchased by the Company and held for resale (securities owned). Securities owned and securities sold, but not yet purchased, are valued at market with the resulting net unrealized gains and losses included in earnings of the current period.

c. **Fixed Assets**

Equipment, furniture and leasehold improvements are carried at cost less accumulated depreciation and amortization. Depreciation and amortization is computed on the straight-line basis over five to seven years, the estimated useful lives of the assets.

d. **Income taxes**

The Company has elected by its sole shareholder to be taxed under the provisions of Sub-chapter "S" of the Internal Revenue Code ("S" Corporation). The stockholder includes the Company's net income on his individual income tax return.

e. **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

7. Fair Values of Financial Instruments

The following methods and assumptions were used to estimate the fair value of financial instruments:

Cash and Cash Equivalents. The carrying amount reported in the balance sheet for cash and cash equivalents approximates its fair value.

Commissions Receivable and Accounts Payable. The carrying amount of commissions receivable and accounts payable in the balance sheet approximates fair value.

8. Financial Instruments with Off-Balance Sheet Credit Risk:

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company's transactions are collateralized and are executed with and on behalf of banks, brokers and dealers, and other financial institutions. The Company introduces these transactions for clearance to another broker/dealer on a fully disclosed basis.

The Company's exposure to credit risk associated with non-performance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair customers' ability to satisfy their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such non-performance by its customers. The Company seeks to control the aforementioned risks by requiring customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker on a daily basis, and requiring customers to deposit additional collateral, or reduce positions, when necessary.

A copy of the Company's statement of financial condition, as of December 31, 2006, pursuant to S.E.C. Rule 17a-5, is available for examination at the Company's main office and at the regional office of the Securities and Exchange Commission.

2. Fixed Assets:

Fixed assets, at cost, consist of the following at December 31, 2006:

Equipment	\$ 35,433
Furniture and fixtures	<u>7,533</u>
	42,966
Less accumulated depreciation	(<u>39,165</u>)
	<u>\$ 3,801</u>

3. Commitments and Contingencies:

The Company entered into a lease agreement, dated October 24, 2002, effective January 1, 2003. The lease terminates on November 30, 2012. The Company is responsible for 20% of the lease payment. Terms of the lease include an annual increase over the base rent of 4% and additional rent provisions based on real estate tax and property insurance escalations. The sole stockholder of the Company is co-guarantor with a third party for the entire lease. The Company's minimum lease commitments are as follows:

<u>Year</u>	<u>Amount</u>
2007	\$13,673
2008	14,141
2009	14,628
2010	15,134
2011	15,661
2012	16,209

4. Net Capital Requirements:

The Company is subject to the net capital Rule 15c3-1 of the Securities and Exchange Commission. On December 31, 2006, the Company had net capital of \$95,944 which exceeded requirements of \$5,000 by \$90,944.

5. Haircuts:

The Company is subject to a two percent haircut on its money market funds. Money market funds totaling \$30,681 are reported as cash and cash equivalents.
