Dupree & Company, Inc.
Lexington, Kentucky

We have audited the accompanying statements of financial condition of Dupree & Company, Inc. as of December 31, 2006 and 2005, and the related statements of income, changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. NOTES TO THE FINANCIAL STATEMENTS
December 31, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies that affect the significant elements of the financial statements of Dupree & Company, Inc. are summarized below:

NATURE OF OPERATIONS: Dupree & Company, Inc., a Kentucky Corporation, was organized in 1962 for the purpose of being a securities broker. The Company is now principally engaged in investment advisory and transfer agent services for Dupree Mutual Funds.

USE OF ESTIMATES: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Accordingly, actual results could differ from these estimates.

BASIS OF ACCOUNTING - SECURITY TRANSACTIONS: Securities transactions are recorded on a settlement date basis, generally the fifth business day following the transaction date. Fiscal agency fees are recorded at the time the transaction is completed.

ACCOUNTS RECEIVABLE: Accounts receivable are written off as bad debts in the year they are determined to be uncollectible.

PROPERTY AND EQUIPMENT: Property and equipment is stated at cost, net of accumulated depreciation. Depreciation is provided using both the straight-line and accelerated methods over the estimated lives of the assets.

TRADING SECURITIES: The trading securities category includes both debt securities and equity securities with readily determinable fair values. They are measured at fair value in the statements of financial condition. Trading securities are bought and held primarily for purposes of selling them in the near term, reflect active and frequent buying and selling, and are generally used with the objective of generating profits on short-term differences in price.

INCOME TAXES: The Company, with the consent of its stockholders, has elected under the Internal Revenue Code to be an S Corporation. The stockholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the financial statements. Certain specific deductions and credits flow through the Company to its stockholders. This election is valid for Kentucky; however, effective January 1, 2005, Kentucky law requires the income tax to be accrued and paid at the entity level. Therefore, a provision for state income tax and a related liability have been included in the financial statements for state income taxes.

SUPPLEMENTAL REPORT ON INTERNAL ACCOUNTING CONTROL REQUIRED BY SEC RULE 17a-5

January 24, 2007

Board of Directors and Stockholders
Dupree & Company, Inc.
Lexington, Kentucky

In planning and performing our audit of the financial statements of Dupree & Company, Inc. for the years ended December 31, 2006 and 2005, we considered its internal control procedures, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Dupree & Company, Inc. that we considered relevant to the objectives stated in Rule 17a-5(g)(1) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e); (2) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13; (3) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and (4) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining the internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Marr, Miller & Myers, PSC

Because of inherent limitations in any internal control structure or the practice and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006 and 2005, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the New York Stock Exchange and other agencies, which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purposes.
