Nature of Business: PCE Investment Bankers, Inc., (the "Company") was incorporated in July 1997 under the name of Poole Carbone Capital Partners, Inc., for the purpose of offering investment banking, consulting, and broker/dealer services to its clients. A legal name change to its current form was effected in May 2003. Effective January 1, 2006, the Company is a wholly-owned subsidiary of PCE Holdings, Inc. The Company has not yet begun operations as a broker/dealer in the business of buying and selling securities for individual clients, but has provided investment banking and consulting services for its clients.

Revenue recognition: Revenue includes fees for services and contracts completed in the current year. Revenue also includes non-refundable retainer fees on contracts which have not yet been completed.

Accounts receivable: Accounts receivable represent fees due for consulting services that have been completed during the year. As of December 31, 2006, no allowance for uncollectible accounts was considered necessary.

Furniture and fixtures: Furniture and fixtures are recorded at cost and are depreciated using the straight-line method over the estimated useful lives of the assets.

Income taxes: The Company elected to be taxed as an S-corporation on its income in accordance with Section 1362 of the Internal Revenue Code. In addition, under provisions of the Internal Revenue Code, effective January 1, 2006, the Company is a qualified subchapter S subsidiary and all income tax information of the Company is included in the income tax return of PCE Holdings, Inc. Accordingly, no provision or liability for income taxes is reflected in these financial statements.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Note 2. Operating Leases

The Company entered into a sublease for office space that commenced in September 1999 and expired in March 2003. The Company subsequently exercised an extension of the sublease for a period of five years beginning April 2003. The renewal of the sublease requires monthly installments of \$5,672 and provides for annual escalations.

During October 2002, the Company entered into an agreement with a related party under which the sublease will be paid by the related party and a ratable share will be collected from the Company through a management fee. The Company is still primarily responsible for the sublease obligation at December 31, 2006. This agreement is more fully described at Note 5.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
REQUIRED BY SEC RULE 17a-5

Stockholders
PCE Investment Bankers, Inc.
(A Subsidiary of PCE Holdings, Inc.)
Winter Park, Florida

In planning and performing our audit of the financial statements and supplemental schedules of PCE Investment Bankers, Inc. (a Subsidiary of PCE Holdings, Inc.), for the year ended December 31, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.
3. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customer as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
