SUNBELT SECURITIES, INC.
Notes to Financial Statements
December 31, 2006

Note 1 - Summary of Significant Accounting Policies

Sunbelt Securities, Inc. (the "Company") was formed October 23, 1996 and became effective as a broker-dealer in securities registered with the Securities and Exchange Commission (SEC) on July 3, 1997. The Company operates under (SEC) Rule 15c3-3(k)(2)(ii), which provides that all funds and securities belonging to the Company's customers would be handled by a correspondent broker-dealer. The Company is a Texas corporation, and its customers are located throughout the United States.

Security transactions (and related commission revenue and expense) are recorded on a settlement date basis, generally the third business day following the transactions. If materially different, commission income and related expenses are recorded on a trade date basis.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due. The provision for federal income taxes differs from the expected amount using statutory rates because certain expenses included in the determination of net income are non-deductible for tax reporting purposes.

For purposes of reporting cash flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days, that are not held for sale in the ordinary course of business.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Net Capital Requirements

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2006, the Company had net capital of approximately \$279,663 and net capital requirements of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 3.02 to 1. The Securities and Exchange Commission permits a ratio of no greater than 15 to 1.

Note 3 - Possession or Control Requirements

The Company does not have any possession or control of customer funds or securities. There were no material inadequacies in the procedures followed in adhering to the exemptive provisions of (SEC) Rule 15c3-3(k)(2)(ii) by promptly transmitting all customer funds and securities to the clearing broker who carries the customer accounts.

Note 4 - Related Party Transactions

Sunbelt Securities Management, a related party, has been paid \$1,669,548 for consulting and advisory services of which \$783,000 was payable at December 31, 2006. This amount is included in other expenses.

Note 5 - Lease Commitments

The Company leases office space under long-term non-cancelable leases. Minimum lease payments under the leases at December 31, 2006 are as follows:

<u>December 31,</u>	
2007	\$ 62,478
2008	62,478
2009	<u>36,445</u>
	<u>\$ 161,401</u>

Rental expense for the year ended December 31, 2006 was \$62,060 and is reflected in occupancy and equipment costs.

Note 6 - Income Taxes

The Company has a net operating loss carryforward of \$9,020 that will expire in 2014.

The tax benefit from the net operating loss carryforward of \$1,353 has not been reported in these financial statements because the Company believes it is likely that the carryforwards will expire unused. Accordingly, the tax benefit has been offset by a valuation allowance of the same amount. The following reflects the changes in the tax benefit:

Amount per balance sheet	<u>\$ -0-</u>	<u>\$ -0-</u>	<u>\$ -0-</u>

The provision for federal income taxes consists of the following:

Income tax before carryforwards	\$ 183
Benefit from utilization of net operating loss carryforward of \$1,224	<u>(183)</u>

Provision for federal income taxes \$ -0-

Note 7 - Commitments and Contingencies

Included in the Company's clearing agreement with its clearing broker-dealer, is an indemnification clause. This clause relates to instances where the Company's customers fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on the unsettled trade. At December 31, 2006, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.

Independent Auditor's Report

On Internal Control

Required By SEC Rule 17a-5

For the Year Ended
December 31, 2006

CF & Co., L.L.P.

CERTIFIED PUBLIC ACCOUNTANTS
& CONSULTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL
CONTROL REQUIRED BY SEC RULE 17a-5

The Board of Directors
Sunbelt Securities, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Sunbelt Securities, Inc. (the "Company"), for the year ended December 31, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that

transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, Inc., and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
