INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholder
M. Griffith Locke Financial Services, Inc.
New Hartford, New York

We have audited the accompanying statement of financial condition of M. Griffith Locke Financial Services, Inc. (the Company) as of December 31, 2006. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the accompanying statement of financial condition presents fairly, in all material respects, the financial position of M. Griffith Locke Financial Services, Inc. as of December 31, 2006 in conformity with U.S. generally accepted accounting principles.

Nature of Operations

The Company is an introducing broker, engaged principally in the trading and brokerage of investment company shares (mutual funds), equity securities, bonds, other investment products and investment advisory services.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash - Concentration of Credit Risk

The Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Note 2. Summary of Significant Accounting Policies (continued)

Securities Transactions

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers' securities transactions are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Marketable Securities

Marketable equity securities in the Company's investment account (available for sale) are valued at market value, fair value or bid price, whichever is most clearly determinable for financial statement purposes. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. NOTES TO FINANCIAL STATEMENTS

Note 10. Net Capital Requirements

As a registered broker-dealer, M. Griffith Locke Financial Services, Inc. is subject to the requirements of rule 15c3-1 ("the net capital rule") under the Securities and Exchange Act of 1934. The basic concept of the rule is liquidity, its object being to require a broker-dealer to have, at all times, sufficient liquid assets to cover its current indebtedness. Specifically, the rule prohibits a broker-dealer from permitting its "aggregate indebtedness" from exceeding fifteen times its "net capital" as those terms are defined and the rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. On December 31, 2006, M. Griffith Locke Financial Services, Inc.'s aggregate indebtedness and net capital were \$267,135 and \$648,302, respectively, a ratio of .41 to 1, and net capital exceeded the minimum capital requirement of \$250,000 by \$398,302.
