INDEPENDENT ACCOUNTANT'S REPORT LETTER-PAGE ONE

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF
HAHN SECURITIES, INC.:

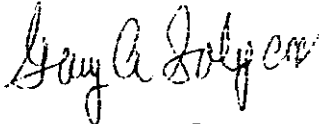

We have audited the statement of financial condition of Hahn Securities, Inc. as of December 31, 2006 and the related statements of income, retained earnings and cash flows for the year then ended.

We conducted our audit in accordance with generally accepted auditing standards which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly in all material aspects the financial position of Hahn Securities, Inc. as of December 31, 2006 as well as the results of its operations and changes in retained earnings and cash flows for the year then ended in conformity with generally accepted accounting principles as applied on a basis consistent with that of the previous year.

INDEPENDENT ACCOUNTANT'S REPORT LETTER-PAGE TWO

Further our examination was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements and in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FEBRUARY 14, 2007

ACCOUNTANT'S REPORT ON INTERNAL CONTROL

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF
HAHN SECURITIES, INC.:

In planning and performing our audit of the financial statements of Hahn Securities, Inc. for the year then ended December 31, 2006, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

As required by Rule 17a-5(g)(1) of The Securities and Exchange Commission, we have made a study of the practices and procedures followed by Hahn Securities, Inc. that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11). The Company is exempt from Rule 15c3-3 under Section C(K) (2) (B) as all customer transactions are cleared through another broker-dealer on a fully disclosed basis. Our study ascertained that the conditions of the exemption were being complied with and nothing came to our attention to indicate that the exemption had not been complied with during the year.

The management of the company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control policies and procedures and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives.

Two of the objectives of an internal control structure are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

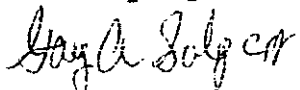

Because of inherent limitations in any internal control structure of the practices and procedures referred to above, errors and irregularities may occur and may not be detected. Projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by The American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purpose in accordance with The Securities Exchange Act of 1934 and related regulations and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and

procedures were adequate at December 31, 2006 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under The Securities Exchange Act of 1934 and should not be used for any other purposes.

HAHN SECURITIES, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2006

1. ACCOUNTING METHODS

The company uses the accrual method of accounting for all of their financial reporting purposes. The accrual method of accounting recognizes revenue and expenses when they are earned or incurred rather than when they are actually received or paid. All other significant accounting principles are presented in the notes below.

2. PRESENTATION OF ACCOUNTS RECEIVABLE

The company reports accounts receivable at their net realizable value. The receivable reported on the statement of financial condition at December 31, 2006 consists of gross commissions reduced by various execution and clearance fees. The Company has experienced a 100% collection rate on such receivables and therefore, no allowance for bad debts has been established.

3. FIXED ASSETS AND DEPRECIATION

The company reports fixed assets at cost and employs the straight line method of depreciation to write off the cost of these assets over their useful life. The straight line method of depreciation results in a ratable expense incurred over the useful life of the asset. The Company generally writes off equipment over a five year period and real estate over a 40 year period.

An annual expense based upon this method is recorded to depreciation expense on the income statement with a corresponding account on the balance sheet called accumulated depreciation which offsets the original cost of the fixed assets.

HAHN SECURITIES, INC.
NOTES TO THE FINANCIAL STATEMENT
DECEMBER 31, 2006

4. CUSTOMER LISTS & CLIENT TRAILS

The Company entered into a contract in 2002 to purchase essentially all of the rights to the customer list and client trails of Wm. P. Brennan & Company, Inc. The entire purchase price was \$25,000.00 due at the signing of agreement. The cost of the contract will be ratably amortized beginning in 2002 over fifteen years with the net amount shown on the statement of financial condition being the original purchase price less all amortization taken to date on the assets.

5. TREASURY STOCK

On September 10, 2004, the Company purchased stock from its sole shareholder, Richard Hahn in the amount of \$17,298.00. The amount is shown on the balance sheet within Shareholder's Equity as a contra account to Common Stock reducing Common Stock and thereby reducing the Shareholder's Equity of the company by \$17,298.00. The amount is also presented in the Statement of Changes in Stockholder's Equity.

On May 2, 2005, the Company again purchased stock from its sole shareholder, Richard Hahn in the amount of \$27,847.00. The total amount of treasury stock redeemed to date is presented on the balance sheet first as an offset to common stock in the amount of \$37,000 and the remaining amount was used to reduce any paid-in capital and retained earnings. The total amount of treasury stock redeemed to date is \$45,145.00.
