INDEPENDENT AUDITORS' REPORT

To the Members of
Infinium Capital Management, LLC

We have audited the accompanying statement of financial condition of Infinium Capital Management, LLC as of December 31, 2006, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Infinium Capital Management, LLC as of December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

See accompanying notes.

INFINIUM CAPITAL MANAGEMENT, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION as of December 31, 2006

1. Organization and Business

Infinium Capital Management, LLC (the "Company"), a Delaware limited liability company, was formed on April 17, 2003. On April 12, 2006, HGI Holdings, Inc. ("HGI"), an Illinois corporation, was merged with and into the Company. Infinium Capital Management, LLC continued as the surviving entity.

The Company is a registered broker-dealer with the Securities and Exchange Commission and is a member of the Chicago Board Options Exchange and the Pacific Exchange, Inc. The Company primarily engages in the proprietary trading of exchange-traded equity securities, equity options and financial futures contracts.

2. Summary of Significant Accounting Policies

Revenue Recognition

Equity options and futures contracts are recorded on trade date, and unrealized gains and losses are recognized currently in income.

Securities transactions are recorded on trade date and, accordingly, gains and losses are recorded on unsettled transactions.

Depreciation and Amortization

Furniture and equipment are being depreciated over the estimated useful lives of the assets using the straight-line method. Leasehold improvements are being amortized on a straight-line basis over the term of the associated lease.

Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the members.

Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management determines that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

Exchange Memberships

Exchange memberships are recorded at cost, or if events or changes in circumstances indicate that the carrying amount may not be recoverable, it will be recorded at a lesser value that reflects the effects of the impairment. There were no impairments in 2006.

Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated to U.S. dollars at year-end exchange rates, while revenue and expenses are translated to U.S. dollars at prevailing rates during the year. Net gains or losses resulting from foreign currency translations are included in net income in the accompanying statement of operations.

INFINIUM CAPITAL MANAGEMENT, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

2. Summary of Significant Accounting Policies, continued

Fair Value of Financial Instruments

The Company's financial instruments are reported in the consolidated statement of financial condition at market or fair value, or at carrying amounts which approximate fair value, because of the highly liquid nature and short maturity of the instruments.

The estimated fair value of securities owned and securities sold are generally based on quoted market prices or dealer quotes.

Not readily marketable securities represent restricted corporate stock, and are valued using quoted prices at the close of the respective exchanges at which they are traded. Other investments include certain Partnerships at investments, which are carried at fair value.

Open equity in futures is recorded as receivables and payables to brokers and dealers, as appropriate.

3. Derivative Financial Instruments and Off-Balance Sheet Risk

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk that include exchange-traded futures and futures options contracts, equity and index options and short stocks. All derivative instruments are held for trading purposes. All positions are reported in the accompanying statement of financial condition at market value and gains and losses from derivative financial instruments are included in net trading gain in the statement of operations.

Futures contracts provide for the delayed delivery/receipt of securities or money market instruments with the seller/buyer agreeing to make/take delivery at a specified date, at a specified price.

Options grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified instrument under agreed terms. As a writer of options, the Company receives a premium in exchange for bearing the risk of unfavorable changes in the price of the financial instruments underlying the options.

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the statement of financial condition.

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with which it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

INFINIUM CAPITAL MANAGEMENT, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

4. Clearing Agreement

The Company has a Joint Back Office ("JBO") clearing agreement with Fortis Clearing Americas, LLC ("FCA"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in the preferred equity of FCA. The Company's interest in FCA is reflected as other assets in the statement of financial condition. Under the rules of the Chicago Board Options Exchange, the agreement requires that the Company maintain a minimum net liquidating equity of \$1 million with FCA, exclusive of its preferred interest investment.

5. Credit Concentrations

At December 31, 2006, a significant credit concentration consisted of approximately \$12.1 million and \$9.7 million, representing the market value of the Company's trading accounts carried by its clearing brokers, FIMAT USA, LLC and Fortis Clearing Americas, LLC, respectively. Management does not consider any credit risk associated with these receivables to be significant.

6. Securities Owned and Sold, Not Yet Purchased

Marketable securities owned and sold, not yet purchased, consist of trading and investment securities at market value as follows:

	Owned	Sold, Not Yet Purchased
Stocks	\$ 30,688,460	\$ 4,396,976
Options	11,652,625	11,407,518
	<u>\$ 42,341,085</u>	<u>\$ 15,804,494</u>

Securities owned, not readily marketable, consist of restricted corporate equity securities with a market value totaling \$12,026,158.

7. Employee Benefit Plan

The Company has established a salary reduction (401(k)) plan for qualified employees. The Company may elect to match employees' contributions and make further discretionary contributions to the plan, subject to certain limitations as set forth in the plan agreement.

Employee contributions made to the plan during the year ended December 31, 2006 totaled approximately \$530,000.

INFINIUM CAPITAL MANAGEMENT, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

8. Bank Loan Payable

At December 31, 2006, the Company had a bank loan payable totaling \$2,550,000. The loan is collateralized by exchange memberships.

9. Commitments

The Company conducts its operations in leased office facilities and annual rentals are charged to current operations.

The annual rental commitments are as follows as of December 31, 2006:

<u>Year Ending December 31,</u>	<u>Rent Commitment</u>	<u>Electric Charges</u>	<u>Gross Commitment</u>
2007	\$ 492,000	\$ 23,000	\$ 515,000
2008	502,000	23,000	525,000
2009	512,000	23,000	535,000
2010	522,000	23,000	545,000
2011	532,000	23,000	555,000
Thereafter	2,132,000	89,000	2,221,000
Total	<u>\$ 4,692,000</u>	<u>\$ 204,000</u>	<u>\$ 4,896,000</u>

10. Liabilities Subordinated to Claims of General Creditors

Liabilities subordinated to claims of general creditors at December 31, 2006 consisted of borrowings from the Company's employees. Such borrowings expire on March 1, 2009, the agreements bear interest at 7% per annum. The outstanding borrowings totaled \$2,861,081.

The subordinated borrowings are covered by an agreement approved by the Chicago Board Options Exchange and are thus available in computing net capital under the Securities and Exchange Commission's uniform net capital rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

11. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) and has elected the "alternative method." Under this rule and method, the Company is required to maintain "net capital" equivalent to the greater of \$250,000 or 2 percent of "aggregate debit items," whichever is greater, as these terms are defined.

At December 31, 2006, the Company had net capital and net capital requirements of \$3,819,064 and \$250,000, respectively.

28	Net capital in excess of: 5% of combined aggregate debit items or 120% of minimum Net Capital Requirement	\$ _____	[3920]

OTHER RATIOS

Part C			
29	Percentage of debt to debt-equity total computed in accordance with Rule 15c3-1(d)	_____	[3860]
30	Options deductions/Net Capital ratio (1000% test) total deductions exclusive of liquidating equity under Rule 15c3-1(a)(6), (a)(7) and (c)(2)(x) ÷ Net Capital	_____	[3852]

NOTES:

- A. The minimum net capital requirement should be computed by adding the minimum dollar net capital requirement of the reporting broker dealer and, for each subsidiary to be consolidated, the greater of:
 1. Minimum dollar net capital requirement, or
 2. 6-2/3% of aggregate indebtedness or 2% of aggregate debits if alternative method is used.
- B. Do not deduct the value of securities borrowed under subordination agreements of secured demand notes covered by subordination agreements not in satisfactory form and the market values of memberships in exchanges contributed for use of company (contra to item 1740) and partners securities which were included in non-allowable assets.
- C. For reports filed pursuant to paragraph (d) of Rule 17a-5, respondent should provide a list of material non-allowable assets.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Members of
Infinium Capital Management, LLC

In planning and performing our audit of the financial statements of Infinium Capital Management, LLC (the "Company") as of December 31, 2006, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control.

Also, as required by Rule 17A-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the National Association of Securities Dealers and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Chicago, Illinois
February 27, 2007

END
