2. Significant Accounting **Policies** 

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at December 31, 2006 and revenues and expenses for the period ended December 31, 2006 Actual results could differ from those estimates

The carrying amount reported in the balance sheet for cash and cash equivalents, accounts receivable and accounts payable at December 31, 2006 approximates fair value due to the short maturity of these instruments.

Expense items of a nature which will benefit future periods are charged to the prepaid expense accounts and are amortized over the estimated useful life of the assets.

Property and equipment are stated at cost, net of accumulated depreciation. Additions, renewals, and betterment's are capitalized whereas expenditures for maintenance and repairs are charged to expense. The bost and related accumulated depreciation of assets retired or sold are removed from the appropriate asset and depreciation accounts, and the resulting gain or loss is reflected in income, except for gain or loss on assets traded where it is reflected in the basis of the newly acquired asset.

Board of Directors
DT Securities, LTD.
Formerly DT Ventures Capital Group, Inc.

In planning and performing our audit of the financial statements of DT Securities, LTD. (formerly DT Ventures Capital Group, Inc.) (the Company), as of and for the year ended December 31, 2006, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
- 2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
