INDEPENDENT AUDITORS' REPORT

To the Member
Oakbrook Financial Group, LLC
Oak Brook, Illinois

We have audited the accompanying statements of financial condition of **Oakbrook Financial Group, LLC** (the Company) as of December 31, 2006 and 2005, and the related statements of operations and member's equity and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oakbrook Financial Group, LLC at December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the Computation of Net Capital Under Rule 15c3-1 of the Securities and Exchange Commission is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

OAKBROOK FINANCIAL GROUP, LLC
NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The Company is a referring broker-dealer in securities registered with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers. As a referring broker-dealer, the Company executes securities transactions but does not carry securities accounts for customers or perform custodial functions related to customer accounts. The Company therefore claims an exemption from SEC Rule 15c3-3 under Section (k)(2)(i).

The Company was formed on December 30, 2004 and simultaneously acquired the predecessor company, Oakbrook Financial Group, Inc. The predecessor company was incorporated in 1997 and obtained its license and commenced operations in 1998.

Commissions

Commission revenues and expenses and related clearing charges are recorded on a trade-date basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers money market funds to be cash equivalents. Cash of \$107,917 and money market funds of \$258,427 are not covered by depository insurance at December 31, 2006.

Accounts Receivable

The allowance for doubtful accounts is established as losses are estimated to have occurred through a provision for bad debts charged to earnings. Losses are charged against the allowance when management believes the uncollectibility of a receivable is confirmed. Subsequent recoveries, if any, are credited to the allowance. The allowance for doubtful accounts is evaluated on a regular basis by management and is based on historical experience and specifically identified questionable receivables. The evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available. At December 31, 2006 and 2005, no allowance for future bad debts has been established as it is management's opinion that losses, if incurred, would not materially affect the financial statements.

Property and Equipment

Property and equipment, consisting of furniture and computer software, are carried at cost, less accumulated depreciation of \$37,372 and \$35,812 at December 31, 2006 and 2005, respectively. Depreciation is computed by the straight-line and accelerated methods over useful lives of three to seven years. Depreciation expense for the years ended December 31, 2006 and 2005 was \$1,560 and \$1,874, respectively.

Income Taxes

The Company is not a taxpaying entity for federal income tax purposes, and thus no income tax expense has been recorded in the statements.

NOTE 2. DEPOSITS WITH CLEARING ORGANIZATION

The Company has a deposit in a money market account with a clearing organization of \$32,325 and \$30,973 at December 31, 2006 and 2005, respectively.

NOTE 3. RELATED PARTY TRANSACTIONS

The Company is wholly owned by Wolf Financial Group Holdings, LLC, which is wholly owned by Wolf & Company, LLP (Wolf). The Company is related to Wolf Financial Management, LLC, and Wolf Capital, LLC (Capital) by common ownership. Wolf has advanced the Company funds, pays certain expenses on behalf of the Company, and charges the Company rent for the use of office space and equipment and the performance of administrative functions. There is no formal rent agreement; rent is currently being paid at \$3,500 per month.

Expenses paid to Wolf were:

	2006	2005
Rent	\$ 42,000	\$ 42,000
Salary and employee benefits reimbursement	177,432	141,526
	<u>\$219,432</u>	<u>\$183,526</u>

NOTE 4. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2006, the Company had adjusted net capital of \$320,297, which was \$270,297 in excess of its required net capital of \$50,000. The adjusted net capital of \$320,297 is equal to the net capital the Company reported in its Focus Report.

SUPPLEMENTARY INFORMATION

OAKBROOK FINANCIAL GROUP, LLC

INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL

To the Member
Oakbrook Financial Group, LLC
Oak Brook, Illinois

In planning and performing our audit of the financial statements of Oakbrook Financial Group, LLC (the Company), as of and for the year ended December 31, 2006, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control, including control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statement that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
