The Company originally operated as a limited liability company and has been an investment advisory firm since its inception in 1995. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of various exchanges and the National Association of Securities Dealers (NASD).

2. Summary of Significant Accounting Policies

Cash and Equivalents

The Company considers all investments that mature within three months of purchase to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Advisory Income

Investment advisory fees are received quarterly but are recognized as earned over the term of the contract. The Company collects its investment advisory fees on the first day of each quarter in advance. The Company was involved in an NASD arbitration proceeding in which the claimant seeking an almost two million dollar award alleged fraudulent inducement, breach of fiduciary duty, negligence and breach of contract. The complaint was settled in February 2006 for an agreed upon amount of \$125,000.

On December 28, 2004, a claimant filed a Statement of Claim with the NASD alleging principally that the Company was negligent, made unsuitable investments and failed to follow the claimant's stated objectives. On January 9, 2006, the Company attended arbitration proceedings on this matter. The Company was ordered to pay damages in the amount of \$72,039.

In order to mitigate the potential for future lawsuits, the Company adheres to the MAP program to provide improved documentation of the client's knowledge of and the Company's adherence to the investment objectives laid out by the client. The improved documentation of the understanding with the client is expected to minimize these types of litigation. There are presently no unsettled claims or lawsuits outstanding.

- Shareholders must have disclosed to them in advance any proposed employment or independent contractor relationships with persons or companies related to any shareholder and the Company. GREENBERG FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

11. Net Capital Requirements

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule (Rule 15c3-1) under the Securities Exchange Act of 1934. Broker-dealers must maintain minimum net capital requirements. The Company typically computes its net capital using the aggregate indebtedness standard method with the minimum requirement provided for broker-dealers that conduct all customer transactions through another broker-dealer on a fully disclosed basis. Minimum net capital of \$5,000 or 1/15th of the aggregate indebtedness (whichever is greater) is typically required. At December 31, 2006, the Company had net capital of \$131,580, which was \$117,138 in excess of its required net capital of \$14,442. The Company's net capital ratio was 1.646 to 1.000.

12. Financial Instruments With Off Balance Sheet Risk

The Company introduces all customer transactions in securities traded on U.S. securities markets to another New York Stock Exchange member firm on a fully-disclosed basis. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to non-performance by customers or counter parties.

The Company's exposure to credit risk associated with the non-performance of customers and counter parties in fulfilling their contractual obligations pursuant to these securities transactions can be directly impacted by volatile trading markets which may impair the customers or counter parties ability to satisfy their obligations to the Company. In the event of non-performance, the Company may be required to purchase or sell financial instruments at unfavorable market prices resulting in a loss to the Company. The Company does not anticipate non-performance by customers and counter parties in the above situations.

The Company seeks to control the aforementioned risks by requiring customers or counter parties to maintain margin collateral in compliance with various regulatory requirements, the clearing broker's guidelines and industry standards. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral, or to reduce positions, when necessary.

13. Stock Redemption Agreement

The Company entered into Stock Redemption Agreements during 2005 with three of its stockholders to redeem all of their shares in the Company. Collectively, the agreements provide for the redemption of 1,000 shares with eight payments of \$15,000 quarterly beginning December 2006.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5
FOR A BROKER-DEALER CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3

To the Board of Directors
Greenberg Financial Group, Inc.

In planning and performing our audit of the financial statements and supplementary information of Greenberg Financial Group, Inc. (the Company), for the year ended December 31, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregated indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5
FOR A BROKER-DEALER CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3, Continued

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, NASD and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
