INDEPENDENT AUDITORS' REPORT

To the Members
XT Capital Partners, LLC

We have audited the accompanying statement of financial condition of XT Capital Partners, LLC (the "Company") as of December 31, 2006. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of XT Capital Partners, LLC as of December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the statement of financial condition taken as a whole. The supplementary information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the statement of financial condition, but is supplementary information required by Regulation 1.10 under the Commodity Exchange Act. Such information has been subjected to the auditing procedures applied in the audit of the statement of financial condition and, in our opinion, is fairly stated, in all material respects, in relation to the statement of financial condition taken as a whole.

For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Equipment

Equipment is stated at cost less accumulated depreciation. The Company provides for depreciation on the straight-line method as follows:

The Company complies with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax asset and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The deferred city income tax liability is the result of differences between the accrual method of accounting for financial reporting and the cash basis for income tax reporting. The deferred portion of city income tax expense included in the statement of operations was approximately \$12,000 at December 31, 2006.
