DZ Financial Markets, LLC

Notes To Statement of Financial Condition

Note 1. Nature of Business and Organization

DZ Financial Markets, LLC (the "Company"), is a wholly owned subsidiary of DZ Bank (the "Parent"), formerly DG Bank. The Company is a registered broker-dealer with the Securities and Exchange Commission and a member of the National Association of Securities Dealers, Inc. (the "NASD"). The Company acts as a broker for U.S. Qualified Institutional Buyers ("QIBs") that engage in foreign and domestic securities trading and private placement activities. The Company also provides advisory services for underwriters and companies which intend to go public. All trades and placements are executed through affiliates on a delivery versus payment basis.

The Company operates under the provisions of Paragraph (k)(2)(i) of rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k)(2)(i) provide that a broker/dealer who carries no margin accounts promptly transmits all customer funds and delivers all securities received in connection with his activities as a broker or dealer, does not otherwise hold funds or securities for or owe money or securities to customers and effectuates all financial transactions between the broker or dealer and his customers through one or more bank accounts, each to be designated as Special Account for the Exclusive Benefit of Customers of the Company. Broker/dealers operating under the provisions of (k)(2)(i) are also exempted from the remaining provisions of rule 15c3-3, including the requirement to make the reserve computations under rule 15c3-3.

Note 2. Significant Accounting Policies

The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions, including those regarding financial instrument valuations and certain accrued liabilities, that affect the related amounts reported in the financial statements and accompanying notes. Actual results could differ materially from these estimates.

The Company defines cash and cash equivalents as highly liquid investments with original maturities of three months or less at the time of purchase. The Company maintains a portion of its cash and cash equivalents at an affiliate, as discussed in Note 3.

Furniture, equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization.

The Company is a single member limited liability company ("LLC") that has elected to be a disregarded entity for Federal and State income tax purposes. As such, the results of operations are included on the income tax return of its Parent who is responsible for all income taxes.

Note 3. Related Party Activities

The Company has service agreements with the Parent. The Company shares many of the same resources to benefit from infrastructural cost savings in the conduct of their business.

The Parent provides office space and certain administrative services to the Company, for which the Company was charged. The related payables in the amount of \$375,741 are recorded as "Payable to Parent" on the statement of financial condition.

The Company participates in a health plan with the Parent.

Cash balances of \$36,713 included in cash and cash equivalents are on deposit with an affiliate at December 31, 2006.

Notes To Statement of Financial Condition

Note 4. Regulatory Requirements

The Company, as a registered broker-dealer, is subject to the Securities and Exchange Commission Uniform Net Capital rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital equal to \$100,000 or 6-2/3% of aggregate indebtedness (as defined), whichever is greater and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. The rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. As of December 31, 2006, the Company had net capital and excess net capital of \$11,864,592 and \$11,764,592 respectively. The ratio of aggregate indebtedness to net capital was approximately .04 to 1.
