INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Ayre Investments, Inc.
Agawam, Massachusetts

We have audited the accompanying statements of financial condition of Ayre Investments, Inc. (the "Company") as of December 31, 2006 and 2005, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ayre Investments, Inc. as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I through IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but Schedules I, II, and III are supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

AYRE INVESTMENTS, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2006 and 2005

1. ORGANIZATION AND NATURE OF BUSINESS

The Company, a Massachusetts Corporation, is an introducing broker-dealer registered with the Securities and Exchange Commission (SEC), the National Association of Securities Dealers (NASD), and various states.

The Company is a wholly owned subsidiary of AyreTrade Financial, Inc., a Delaware corporation.

The Company clears all of its proprietary and customer transactions through another broker-dealer on a fully disclosed basis.

2. SIGNIFICANT ACCOUNTING POLICIES

Securities Transactions - Proprietary securities transactions in regular-way trades are recorded on the settlement date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management.

Commissions - Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Income Taxes - Certain items of income and expense are recognized for income tax purposes in different periods from those in which such items are recognized for financial reporting purposes. Deferred taxes are not material and no provision for deferred taxes has been included in these financial statements.

Depreciation - Depreciation is provided on a straight-line basis using estimated useful lives of five to ten years. Depreciation expense for the year ending December 31, 2006 was \$1,214.

Statement of Cash Flows - For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Use of Estimates - The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
Ayre Investments, Inc.
Agawam, Massachusetts

In planning and performing our audit of the financial statements and supplemental schedules of Ayre Investments, Inc. (the Company), for the years ended December 31, 2006 and 2005, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons;
2. Recordation of differences required by rule 17a-13; and
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Ayre Investments, Inc.
Page Two

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006 and 2005, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, Inc., and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should be used by anyone other than these specified parties.
