REPORT OF INDEPENDENT AUDITOR

Board of Directors
Investment Professionals, Inc.
San Antonio, Texas

I have audited the accompanying statement of financial condition of Investment Professionals, Inc. as of December 31, 2006 and 2005, and the related statements of income, changes in stockholders' equity, changes in liabilities subordinated to the claims of general creditors and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Investment Professionals, Inc. as of December 31, 2006 and 2005, and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTE A – NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Business: Investment Professionals, Inc. is a Texas corporation formed in 1992, for the purpose of conducting business as a broker/dealer in securities. The Company serves primarily individual and institutional customers in Texas, Oklahoma, Louisiana, Arkansas, Alabama, Mississippi, New Mexico, Kansas, Georgia, Missouri, Iowa, Illinois, Pennsylvania, Colorado, Wisconsin and Tennessee.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer, and promptly transmit all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

The following is a summary of the Company's significant accounting policies:

Securities Transactions and Trade Date Basis Securities Purchases: Proprietary securities transactions, commission revenue and related expenses are recorded on a trade date basis. Liabilities for trade date basis purchases of securities represent obligations to the Company's clearing broker for transactions executed but not yet settled relating to securities purchased by the Company and held for resale (securities owned). Securities owned and securities sold, but not yet purchased, are valued at market with the resulting net unrealized gains and losses included in earnings of the current period.

Use of Estimates: The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Cash Equivalents: For purposes of the statement of cash flows, the Company has defined cash equivalents as short-term, highly liquid debt instruments purchased with a maturity of three months or less, other than securities held for sale in the ordinary course of business. The Company invests its excess cash in money market funds.

Investment Securities: Investment securities are classified as "available for sale" and carried in the financial statements at fair value. Realized gains and losses, determined using the specific identification method, are included in earnings; unrealized gains and losses are reported in other comprehensive income.

Furniture and Equipment: Furniture and equipment is stated at cost or fair market value at the date of contribution, net of accumulated depreciation. Depreciation is computed by the straight-line method over five years.

INVESTMENT PROFESSIONALS, INC.

Notes to Financial Statements

December 31, 2006 and 2005

NOTE A – NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES,
continued

Income Taxes: Effective January 1, 2006, the Company has elected to be taxed under the provisions of Subchapter S of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the stockholders are liable for individual federal income taxes on their respective shares of the Company net income. Prior to January 1, 2006, deferred taxes were provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities were recognized for taxable temporary differences. Temporary differences were the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets and liabilities were adjusted for the effects of changes in tax laws and rates on the date of enactment.

NOTE B – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission uniform net capital rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2006 the Company had net capital and net capital requirements of \$2,722,485 and \$250,000, respectively. The Company's net capital ratio was 0.7239 to 1. At December 31, 2005 the Company had net capital and net capital requirements of \$2,074,650 and \$250,000, respectively. The Company's net capital ratio was 0.5984 to 1.

NOTE C – COMMITMENTS

The Company leases its office space under an operating lease agreement expiring March 31, 2010. Rent expense for the years ended December 31, 2006 and 2005 was \$312,600 and \$241,714, respectively, and is included in general and administrative expenses in the accompanying statement of income. At December 31, 2006, the aggregate minimum rental commitments under this operating lease were as follows:

2007	\$ 350,000.
2008	352,000.
2009	352,000.
2010	88,000.

NOTE D – OFF-BALANCE-SHEET RISK AND CONCENTRATION OF CREDIT RISK

As discussed in Note A, the Company's customers securities transactions are introduced on a fully-disclosed basis with its clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers of the Company and is responsible for execution, collection of and payment of funds, and receipt and delivery of securities

INVESTMENT PROFESSIONALS, INC.

Notes to Financial Statements

December 31, 2006 and 2005

NOTE D – OFF-BALANCE-SHEET RISK AND CONCENTRATION OF CREDIT RISK, continued

relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

As discussed in Note A, the Company invests its excess cash in money market funds with its clearing broker/dealer. At December 31, 2006, such investments were \$3,775,470. These investments are insured by the Securities Investors Protection Corporation and by private insurance obtained by the clearing broker/dealer. Any amount not covered by such insurance is at risk due to this concentration of credit risk.

REPORT OF INDEPENDENT AUDITOR ON THE SUPPLEMENTARY
INFORMATION

Board of Directors
Investment Professionals, Inc.
San Antonio, Texas

My audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information contained in Schedules 1 and 2 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

REPORT OF INDEPENDENT AUDITOR ON THE INTERNAL CONTROL
STRUCTURE

Board of Directors
Investment Professionals, Inc.
San Antonio, Texas

In planning and performing my audit of the financial statements of Investment Professionals, Inc. for the year ended December 31, 2006, I considered its internal control structure, including procedures for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) and (2) of the Securities and Exchange Commission, I have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Investment Professionals, Inc. that I considered relevant to the objectives stated in Rule 17a-5(g), (1) in making the periodic computation of aggregate indebtedness and net capital under Rule 17a-3(11) and (2) procedures for determining compliance with exemptive provisions of Rule 15c3-3. I did not review the practices and procedures followed by the Company (1) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13; (2) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and, (3) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3 because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safe-guarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statement in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure element does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for determining compliance with the exemption provisions of Rule 15c3-3, that I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2006, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and the National Association of Securities Dealers, Inc., and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.

R. D. Harrison, CPA
