Independent Auditors' Report

Board of Directors
Vanguard Capital
San Diego, California

We have audited the accompanying statement of financial condition of Vanguard Capital (a California corporation) as of December 31, 2006, and the related statements of income, changes in shareholders' equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5(e)(3) under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An Audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Vanguard Capital as of December 31, 2006, and the results of its operations, and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, III, and IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5(e)(3) of the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1. SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization

Vanguard Capital (the Company) was incorporated on February 24, 1988 under the laws of the State of California. The Company was formed to provide general securities broker-dealer services to investors in securities and other investments.

The National Association of Securities Dealers, Inc. (NASD) approved Vanguard Capital for membership as of June 17, 1988.

The Company introduces and forwards all customer and principal transactions involving purchases and sales of securities to another broker or dealer who carries such accounts on a fully disclosed basis. The Company promptly forwards all funds and securities received in connection with its activities with other brokers and does not otherwise hold funds or securities for or owe money or securities to customers.

Commissions

Commissions and related clearing expenses are recorded on a settlement-date basis as securities transactions occur.

Use of estimates

In conformity with generally accepted accounting principles preparation of financial statements requires the use of management's estimates. Those estimates and assumptions affect the reported amounts of the assets and the reported expenses. Actual results could differ from those estimates.

Cash deposits

At times during 2006 the Company had deposits in excess of federally insured limits.

Property and equipment

Property and equipment are recorded at cost. Depreciation of property and equipment is provided using an accelerated method over the estimated useful lives of the respective assets, ranging from five to seven years. Leasehold improvements are depreciated using the straight-line method over a period of thirty-nine years.
