We have audited the accompanying statement of financial condition of Portales Partners LLC as of December 31, 2006, and the related statements of income, changes in members' equity and cash flows for the year then ended, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). The Company executes agency transactions in listed and over-the-counter securities. All customer transactions are cleared on a fully disclosed basis through an independent clearing firm. Accordingly, the Company does not carry securities accounts for customers nor does it perform custodial functions related to their securities.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Company records its commission revenue and expense, on a settlement basis.

Deferred taxes result from timing differences in the recognition of income for tax and financial purposes. The Company uses the cash basis of accounting for income tax basis.

Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported revenues and expenses. Property and equipment are recorded at cost. Depreciation is provided by application of the straight-line and declining balance methods over the estimated useful lives of the various classes of depreciable assets. The following lives are used:

<u>Asset Category</u>	<u>Lives in Years</u>
Furniture, fixtures and equipment	5 - 7
Leasehold improvements	39

Expenditures for maintenance, repairs and minor renewals and betterments are charged to operations as incurred; renewals and betterments of a major character are capitalized. **INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL STRUCTURE**

To the Members  
Portales Partners LLC  
New York, New York 10010

In planning and performing our audit of the financial statements of Portales Partners LLC for the year ended December 31, 2006, we considered its internal control structure, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practice and procedures) followed by Portales Partners LLC that we considered relevant to the objectives stated in Rule 17a-5(g)(1) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of Rule 15c-3-3.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives.

Two of the objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets for which the company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also, projections of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected with a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we considered to be material weaknesses as defined above, except for:

The size of the business and resultant limited number of employees imposes practical limitations on the effectiveness of those internal control structure procedures that depend on the segregation of duties. Since this condition is inherent in the size of the Company, the specific weaknesses are not described herein and no corrective action has been taken or proposed by the Company.

The foregoing condition was considered in determining the nature, timing and extent of the procedures to be performed in our audit of the financial statements of Portales Partners LLC for the year ended December 31, 2006 and this report does not affect our report thereon dated January 30, 2007.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that except for the effect, if any, of the condition indicated in the preceding paragraph, the Company's practices and procedures were adequate at December 31, 2006 to meet the Commission's objectives.

This report is intended solely for the use of management and the Securities and Exchange Commission, the National Association of Securities Dealers, Inc. and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered broker/dealers and should not be used for any other purpose.
