Note 1 Nature of Operations and Significant Accounting Policies

Nature of Operations—Fixed Income Capital Partners LLC (the "Company") buys and sells fixed income securities on a principal basis for institutional customers located throughout the United States, and clears all customer transactions through a clearing broker on a fully disclosed basis. The Company is registered as a broker-dealer with the Securities and Exchange Commission and is also a member of the National Association of Securities Dealers. The Company was formed as an Illinois limited liability company in August 2002, and commenced operations in February 2003.

Use of Estimates—The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Securities Owned—Securities owned are recorded on trade date and are carried at fair value.

Income Recognition—Revenue from principal transactions is recorded on trade date.

Furniture and Equipment—Furniture and equipment are recorded at cost, and depreciated using the straight-line method over the estimated useful lives of the assets.

Income Taxes—The Company is taxed as a partnership under the provisions of the Internal Revenue Code and, accordingly, is not subject to federal income taxes. Instead, members are liable for federal income taxes on their respective shares of taxable income.

Note 4 Commitments

The Company leases office space under an operating lease that expires September 30, 2009. At December 31, 2006, the minimum annual rental commitments, exclusive of additional payments that may be required for certain increases in operating costs, are as follows:

2007	\$ 95,853
2008	97,926
2009	<u>74,610</u>
Total	<u>\$ 268,389</u>

The Company has a profit sharing plan that covers all employees. Under the provisions of the plan, the Company may elect to make discretionary contributions to the plan.

Note 6 Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. Management of the Company expects the risk of loss to be remote.

Note 7 Off-Balance-Sheet Risk

The Company buys and sells fixed income securities on a principal basis for institutional customers and, from time to time, may be exposed to market risk. This risk is generally controlled by monitoring the market and entering into offsetting positions, when appropriate.

Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers and counterparties in meeting contracted obligations. Any potential contingent liability under the clearing agreement cannot be estimated. The Company has not recorded any contingent liability associated with the guarantee of customers' or counterparties' performance in the financial statements and management believes that any potential requirement to make payments under this guarantee is remote.

Note 7 Off-Balance-Sheet Risk, *Continued*

In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral or reduce positions where necessary.

Amounts due from the clearing broker represent a concentration of credit risk and primarily relate to principal revenue receivable on securities transactions and deposits. The Company also maintains deposit accounts at a bank that at times exceed federally insured limits. The Company does not anticipate nonperformance by customers, its clearing broker, or its bank. In addition, the Company has a policy of reviewing, as considered necessary, the creditworthiness of these counterparties.

Note 8 Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). Under this rule, the Company is required to maintain "net capital" of 6-2/3 percent of "aggregate indebtedness" or \$100,000, whichever is greater, as these terms are defined.

Net capital and aggregate indebtedness change from day to day, but at December 31, 2006, the Company had net capital and net capital requirements of approximately \$780,000 and \$100,000, respectively. The net capital rule may effectively restrict member distributions.
