## Notes to Financial Statements

### 1. Organization

Lafayette Investments, Inc. ("Lafayette") was incorporated in March 1988, under the laws of the state of Delaware. Lafayette, which is registered under the Securities Exchange Act of 1934 as a broker-dealer, introduces and forwards all customer accounts to a broker who clears the accounts on a fully disclosed basis. Lafayette is also a registered investment adviser under the Investment Advisers Act of 1940.

Lafayette has offices in Bethesda, Maryland and Ashton, Maryland.

Lafayette is a securities broker-dealer, which comprises several classes of services, including principal transactions and agency transactions, and also provides fee-based investment advisory services.

### 2. Significant Accounting Policies

#### Securities Transactions

Lafayette uses the trade date basis of accounting for securities transactions and the related revenues and expenses.

Marketable securities are reported at market value and securities not readily marketable are reported at fair value as determined by management. The resulting difference between cost and market (or fair value) is included in income.

#### Commissions

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

#### Investment Advisory Income

Investment advisory fees are recognized and billed quarterly.

### 2. Significant Accounting Policies (continued)

#### Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the valuation of investment securities and fixed assets for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled.

#### Cash and Cash Equivalents

Lafayette considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents. Cash equivalents are principally held on deposit with Lafayette's clearing broker. Cash, cash equivalents and deposits are carried at cost which approximates fair value.

#### Depreciation

Fixed assets consist of furniture, equipment, software and leasehold improvements. Depreciation of furniture and computer equipment is recorded on an accelerated basis over a seven-year life and five-year life, respectively. Software is amortized on a straight-line basis over three years. Leasehold improvements are amortized on a straight-line basis over the remaining life of the lease.

#### Significant Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

<b>Fixed assets, net</b>	<b>\$ 43,826</b>	<b>\$ 36,697</b>

<i>December 31,</i>	<b>2006</b>	<b>2005</b>
State and municipal obligations	\$ 3,536,179	\$ 5,252,893
	<b>\$ 3,536,179</b>	<b>\$ 5,252,893</b>

### 5. Payable to Clearing Broker

## Notes to Financial Statements

**6. Related Parties** Certain shareholders of Lafayette are also members of Lafayette Equity, LLC, which is the general partner of Lafayette Equity Fund, L.P., an investment partnership formed in 2000. Lafayette received reimbursements of administrative costs totaling \$-0- and \$3,000 during the years ended December 31, 2006 and 2005, respectively, from Lafayette Equity, LLC.

**7. Income Taxes** The provision for income taxes differs from the amount that would be obtained by applying Federal statutory rates primarily due to the difference in accounting for depreciation expense on a tax basis, non-deductible meals and entertainment, and interest revenue earned on U.S. Treasury securities that is not taxed at the local level. Deferred income taxes are the result of temporary differences between the financial statement carrying amounts of assets and liabilities and their tax basis, and mainly related to differences between the basis of fixed assets and investments for financial and income tax purposes.

The provision for income tax expense consists of the following:

<i>Year ended December 31,</i>	<b>2006</b>	<b>2005</b>
Current provision:		
Federal	\$ 2,048	\$ 16,398
State	1,767	6,225
<b>Net current income tax provision</b>	<b>3,815</b>	<b>22,623</b>
Deferred income tax benefit:		
Federal	(2,314)	(348)
State	(992)	(149)
<b>Net deferred income tax benefit</b>	<b>(3,306)</b>	<b>(497)</b>
<b>Total income tax provision</b>	<b>\$ 509</b>	<b>\$ 22,126</b>
