Report of Independent Auditors

The Board of Directors and Stockholder
American Enterprise Investment Services, Inc.

We have audited the accompanying statement of financial condition of American Enterprise Investment Services, Inc. (the Company) as of December 31, 2006. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, and evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition, referred to above presents fairly, in all material respects, the financial position of the Company at December 31, 2006, in conformity with accounting principles generally accepted in the United States.

(In thousands)

1. Organization and Summary of Significant Accounting Policies

Organization

American Enterprise Investment Services, Inc. (the Company) is a wholly-owned subsidiary of Ameriprise Financial, Inc. (the Parent). The Company executes and clears trades for accounts introduced by Ameriprise Financial Services, Inc. (AMPF), an affiliated company. The Company also executes trades for the RiverSource Funds and other affiliates. The Company is a broker/dealer registered with the Securities and Exchange Commission (SEC) and is a member of the National Association of Securities Dealers (NASD) and the Securities Investor Protection Corporation (SIPC).

Significant Accounting Policies

Securities Transactions and Other Revenue Recognition

Securities owned and securities sold, not yet purchased are stated at fair value. Fair value generally is based on published market prices or other relevant factors, including dealer price quotations and valuation pricing models, which take into account time value and volatility factors underlying the securities.

Collateralized Financing Agreements and Securities Borrowed and Loaned

Securities purchased under agreements to resell (resale agreements), which are included in cash and investments segregated under federal and other regulations, are recorded at the amount at which the securities will be subsequently resold. These financial instruments are collateralized by U.S. government backed securities. The Company purchased certain securities under agreements to resell; however, based on the nature of the resale agreements, an independent third party takes possession of the securities on behalf of the Company. The Company's agreements with third parties specify its right to request additional collateral if the fair value of the underlying security, including accrued interest, decreases in comparison to the related receivable.

Collateral is valued daily and additional collateral is obtained from counterparties when appropriate.

Securities borrowed and loaned result from transactions with other brokers and dealers or financial institutions and are recorded at the amount of cash collateral advanced or received.

Securities borrowed transactions require the Company to deposit cash or other collateral with the lender. Securities loaned transactions require the borrower to deposit cash or other collateral with the Company. The Company monitors the market value of securities borrowed and loaned on a daily basis, with additional collateral obtained or refunded as necessary.

American Enterprise Investment Services, Inc.
Notes to Financial Statements
December 31, 2006
(In thousands)

Collateralized Financing Agreements and Securities Borrowed and Loaned (continued)

Interest is accrued on resale contract amounts, as well as on securities borrowed and loaned transactions, and is included in accrued interest receivable or payable on the statement of financial condition.

Fixed Assets

Furniture, equipment, capitalized software and leasehold improvements are recorded at cost. Depreciation and amortization are provided on a straight-line basis over the estimated useful lives of three to ten years.

Cash and Cash Equivalents

The Company defines cash equivalents as liquid or readily marketable investments with original maturities of 90 days or less.

Deposits with Clearing Organizations

Deposits with clearing organizations are carried at cost which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Management believes that the estimates utilized in preparing its statement of financial condition are reasonable and prudent. Actual results could differ from those estimates.

Recently Issue Accounting Standards

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109" (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, "Accounting for Income Taxes." FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognizing, classification, interest and transition. The Company adopted FIN 48 as of January 1, 2007. The effect of adopting FIN 48 on the Company's financial statements was not material.

In September 2006, the FASB issues SFAS No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements. Accordingly SFAS 157 does not require any new fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Early adoption is permitted provided that the entity has not issued financial statements for any period within the year of adoption.

American Enterprise Investment Services, Inc.
Notes to Financial Statements
December 31, 2006
(In thousands)

Recently Issued Accounting Standards (continued)

The provisions of SFAS 157 are required to be applied prospectively as of the beginning of the fiscal year in which SFAS 157 is initially applied, except for certain financial instruments as defined in SFAS 157 which will require retrospective application of SFAS 157. The transition adjustment, if any, will be recognized as a cumulative-effect adjustment to the opening balance of retained earnings for the fiscal year of adoption. The Company is currently evaluating the impact of FAS 157 on its financial statements.

2. Cash and Investments Segregated Under Federal and Other Regulations

Cash and investments segregated under federal and other regulations, primarily resale agreements, of \$1,086,000 have been segregated in the special reserve bank account for the benefit of customers under Rule 15c3-3 of the SEC. Resale agreements, which are with two national bank counterparties, are accounted for as collateralized financing transactions and are recorded at the contractual amounts, which approximate fair value. The collateral consists of U.S. government backed securities allowed under Rule 15c3-3.

3. Related Party Transactions

The Company executes and clears trades for accounts introduced by AMPF and executes trades for other affiliates.

The Company provides banking services to clients through a partnership with an affiliate, Ameriprise Bank, FSB (Ameriprise Bank). Banking regulations require the Company to make a deposit greater than the daily amount of money presented to Ameriprise Bank on each day. As of December 31, 2006, the net amount of the deposit made by the Company was \$24,000. This deposit is reflected in receivables from affiliates in the statement of financial condition.

The Company receives certain support services from the Parent. The costs related to these services include salaries and employee benefits, occupancy and equipment rental.

4. Customer Receivables and Payables

Customer receivables include amounts due in cash and margin transactions. Customer receivables are primarily collateralized by securities with market values in excess of the amounts due. At December 31, 2006, less than 8% of receivables from customers are unsecured. The Company establishes allowances for any potential losses based upon an evaluation of customer accounts. In addition, appropriate deductions are made in the Company's net capital computation. It is the policy of the Company to monitor the market value of the collateral and request additional collateral when required. Such collateral is not reflected in the accompanying statement of financial condition.

Customer payables represent free credit balances and funds deposited by customers and funds accruing to customers as a result of trades or contracts.

American Enterprise Investment Services, Inc.
Notes to Financial Statements
December 31, 2006
(In thousands)

5. Receivables From and Payables to Brokers, Dealers and Clearing Organizations

The components of receivables from and payables to brokers, dealers and clearing organizations as of December 31, 2006, are as follows:

Receivables:	
Securities failed to deliver	\$ 12,647
Funds due from clearing organizations and other financial institutions	16,482
	<u>\$ 29,129</u>
Payables:	
Securities failed to receive	\$ 20,085
Funds due to other financial institutions	24,059
	<u>\$ 44,144</u>

Broker receivables and payables arise primarily from securities transactions executed by the Company for its customers. Broker receivables are generally collected within 30 days and are collateralized by securities in physical possession, on deposit, or receivable from customers or other brokers.

Broker payables represent amounts due upon the receipt of securities. Should the broker or clearing organization fail to deliver the securities to the Company, the Company may be required to purchase identical securities on the open market. The value of such securities at December 31, 2006 approximates the amounts owed.

The Company monitors the credit standing of each broker or clearing organization with which it conducts business. In addition, the Company monitors the market value of collateral held. It is the policy of the Company to request and receive additional collateral when required.

6. Securities Owned and Securities Sold, Not Yet Purchased

As of December 31, 2006, securities owned by the Company and securities sold, not yet purchased by the Company, were \$336 and \$503, respectively. Securities sold, not yet purchased represent obligations of the Company to deliver the specified security at the contracted price and, thereby, create a liability to purchase the security in the market at prevailing prices. Accordingly, these transactions result in off-balance-sheet risk, as the Company's ultimate obligation to satisfy the sale of securities sold, not yet purchased may exceed the amount reflected in the statement of financial condition. Securities owned and securities sold, not yet purchased are the result of temporary holdings based on adjustments made for client trading. Most holdings are equity and mutual fund positions.

American Enterprise Investment Services, Inc.
Notes to Financial Statements
December 31, 2006
(In thousands)

7. Financial Instruments

Financial instruments recorded at fair value on the Company's statement of financial condition include securities owned and securities sold, not yet purchased. Other financial instruments are recorded by the Company at contract amounts and include receivables from and payables to brokers, dealers and clearing organizations, securities purchased under agreements to resell and amounts receivable from and payable to affiliates and customers. Financial instruments carried at contract amounts, which approximate fair value, either have short-term maturities (one year or less), are re-priced frequently or bear market interest rates and, accordingly, are carried at amounts approximating fair value.

The Company's customer activities involve the execution, settlement and financing of various securities transactions. These activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to the customer, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customer's account. Such transactions may expose the Company to off-balance-sheet risk in the event that margin requirements are not sufficient to cover losses that customers incur, or contra brokers are unable to meet the terms of the contracted obligations.

In the event a customer or broker fails to satisfy its obligations, the Company may be required to purchase or to sell financial instruments at prevailing market prices in order to fulfill the customer's obligations. The Company seeks to control the risk associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily, and pursuant to such guidelines, requires customers to deposit additional collateral, or reduce positions, when necessary.

The Company enters into resale agreements and securities borrowing transactions that may result in credit exposure in the event the counter-party to the transaction is unable to fulfill its contractual obligations. The Company minimizes credit risk associated with these activities by monitoring counter-party credit exposure and collateral values on a daily basis and requiring additional collateral to be deposited with or returned by the Company when deemed necessary.

In the normal course of business, the Company obtains securities under resale, securities borrowed and custody agreements on terms which permit it to pledge or resell the securities to others. At December 31, 2006, the Company obtained securities with a fair value of approximately \$480,067 on such terms, for which \$277,162 have been either pledged or otherwise transferred to others in connection with the Company's financing activities.

American Enterprise Investment Services, Inc.
Notes to Financial Statements
December 31, 2006
(In thousands)

8. Net Capital Provisions

As a registered broker/dealer, the Company is subject to the SEC's net capital rule (Rule 15c3-1). The Company computes its net capital requirements under the alternative method provided for in Rule 15c3-1, which requires the Company to maintain net capital equal to 2% of aggregate customer-related debit items, as defined.

At December 31, 2006, the Company's net capital was \$37,662 or 13% of aggregate debit balances, and \$31,954 in excess of required net capital. Advances to affiliates, dividend payments and other equity withdrawals are subject to certain notification and other provisions of the net capital rule of the SEC and other regulatory bodies.

9. Employee Retirement and Benefit Plans

The Company participates in the retirement, defined benefit, and defined contribution plans of Ameriprise Financial. These plans cover all permanent employees who have met certain employment requirements. Funding of retirement costs for the defined benefit plan complies with the applicable minimum funding requirements specified by ERISA. The Company's contribution to the defined contribution plans is a percentage of either each employee's eligible compensation or basic contribution.

The Company participates in defined benefit health care plans of the Parent that provide health care and life insurance benefits to retired employees. The plans include participant contributions and service related eligibility requirements. Upon retirement, such employees are considered to have been employees of the Parent.

10. Income Taxes

The Company is included in consolidated income tax returns filed by the Parent. The provision for current income taxes is determined on a separate entity basis, except that any benefit for losses is recognized only to the extent that it can be utilized in the consolidated return. It is the policy of the Parent to reimburse subsidiaries for any current tax benefits recognized. Deferred taxes are recorded to reflect the tax consequences on future years of temporary differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end. State taxes are allocated to subsidiaries based on related contributions using apportionment factors. Generally, state taxes are not significant to the Company.

The Company is required to establish a valuation allowance for any portion of the deferred tax assets that management believes will not be realized. In the opinion of management, it is more likely than not that the Company will realize the benefit of the deferred tax assets and, therefore, no such valuation allowance has been established. As of December 31, 2006, the Company held deferred tax assets and liabilities of \$622 and \$0, respectively. Such temporary differences consist primarily of compensation items.

American Enterprise Investment Services, Inc.
Notes to Financial Statements
December 31, 2006
(In thousands)

11. Commitments and Contingencies

From time to time in the normal course of business, the Company is named as a defendant in lawsuits, arbitration and administrative claims. There are currently no matters that will have a material adverse impact on the financial condition of the Company. In the normal course of business, the Company provides guarantees to securities clearinghouses and exchanges. These guarantees are generally required under the standard membership agreements such that members are required to guarantee the performance of other members. To mitigate these performance risks, the exchanges and clearinghouses often require members to post collateral. The Company's obligation under such guarantees could exceed the collateral amounts posted, however the potential for the Company to be required to make payments under such guarantees is deemed remote.
