NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Cadaret, Grant & Co., Inc. (the Company) is a registered broker/dealer with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers. The Company is a wholly-owned subsidiary of a financial services holding company. The Company's principal offices are located in Syracuse, New York and Mount Arlington, New Jersey. The Company has registered representatives located throughout the United States. Major sources of revenues are commissions from sales of mutual funds and insurance products and investment advisory fees. Other sources of revenues are commissions from sales of corporate stocks, municipal bonds and other securities.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Cash Equivalents

Cash equivalents consist of highly liquid investments with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Securities Transactions

Proprietary securities transactions are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers' securities transactions are reported on a settlement date basis with related commission revenues and expenses reported on a trade date basis.

Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management.

Investment Advisory Fees

Investment advisory fees are computed and recorded quarterly using the fair value of investments in customer's accounts at the end of each calendar quarter multiplied by each account's contractual rate.

Fixed Assets

Fixed assets are stated at cost and are depreciated based on their estimated useful lives using accelerated methods.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Income Taxes

The Company files a consolidated federal income tax return with its parent. Consolidated federal income tax expense is allocated between the group members on a separate return basis. State income tax returns are filed on a separate return basis. Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred income taxes related primarily to temporary differences between the financial reporting and income tax basis of investment securities, fixed assets and certain accrued expenses. The deferred tax assets and liabilities represent the future tax return consequences of the temporary differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets and liabilities are reflected at income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

NOTE C - CONCENTRATIONS OF CREDIT RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealer and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash accounts in financial institutions which periodically exceed federally insured limits.

NOTE D - CASH AND SECURITIES SEGREGATED UNDER FEDERAL AND OTHER REGULATIONS

The Company clears certain of its proprietary and customer transactions through another broker-dealer on a fully disclosed basis. The deposit is required by the Company's clearing broker to secure amounts receivable from the Company and bears interest at current market rates.

NOTE F - INVESTMENT SECURITIES

Investment securities consist of equity positions in corporate stocks recorded at market value.
