Gramercy Financial Services LLC (the "Company") is a limited liability company under the laws of the state of Delaware (United States of America). Gramercy Financial Group LLC (the "Member") holds 100% of the membership interests of the Company.

The Company is registered as a broker-dealer with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers, Inc. The Company acts as a broker primarily for U.S. institutional customers dealing in emerging markets bonds and other fixed income instruments. The Company conducts a proprietary trading business in many of the same products. Additionally, the Company is used to facilitate cash movement with external counterparties and affiliated entities.

2. Significant Accounting Policies

Basis of Presentation

The Company's records are maintained in accordance with accounting principles generally accepted in the United States of America.

Securities Transactions

Transactions in securities and related revenues and expenses are recorded on a trade date basis. Securities owned consist of common stock, a corporate obligation and Brady Bonds in the amount of \$177,000, \$105,350 and \$73,125, respectively.

Uses of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Securities Purchased under Agreements to Resell

Securities purchased under agreements to resell represent short-term collateralized financing transactions with affiliates and are carried in the statement of financial condition at their contractual amounts. It is the Company's policy to directly, or through a custodial agent, take possession of the securities purchased under agreements to resell.

In addition to the securities purchased under agreements to resell noted in the preceding paragraph in which the Company is a counterparty, the Company acts as agent in repurchase and reverse repurchase transactions with affiliated entities. 6. Financial Instruments with Off-Balance-Sheet Capital Risk and Concentration of Credit Risk

In the normal course of business, securities transactions of customers of the Company are introduced and cleared through a correspondent clearing broker. Pursuant to an agreement between the Company and its correspondent clearing broker, the correspondent clearing broker has the right to charge the Company for unsecured losses that result in the event that a customer or counterparty is unable to fulfill its contractual obligations. The Company has a policy of reviewing as considered necessary the credit standing of each counterparty and customer with which it conducts business.

As the right to charge the Company has no maximum amount and applies to all trades executed through the clearing broker, the Company believes there is no maximum amount assignable to this right. At December 31, 2006, the Company has recorded no liability with regard to the right. During 2006, the Company did not pay any amounts related to these guarantees.

In addition, the Company has the right to pursue collection from the counterparties who do not perform under their contractual obligations.

The Company has a significant amount of cash and securities held at its clearing broker.

7. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital, as defined, equal to the greater of \$100,000 or 6 2/3% of aggregate indebtedness, as defined. At December 31, 2006, the Company had net capital of approximately \$2,246,000, which was approximately \$2,146,000 in excess of its required net capital of \$100,000. The ratio of aggregate indebtedness of net capital was .07 to 1.
