INDEPENDENT AUDITORS' REPORT

To the Members of
Speed Trading Partners, LLC

We have audited the accompanying statement of financial condition of Speed Trading Partners, LLC as of December 31, 2006, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Speed Trading Partners, LLC as of December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

SPEED TRADING PARTNERS, LLC

**NOTES TO STATEMENT OF FINANCIAL CONDITION
as of December 31, 2006**

1. Organization and Business

Speed Trading Partners, LLC (the "Company"), a Delaware limited liability company, was formed on December 19, 2000. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Chicago Stock Exchange. The Company primarily engages in the proprietary trading of exchange-traded equity securities and financial futures contracts.

2. Summary of Significant Accounting Policies

Revenue Recognition

Futures contracts are recorded on trade date, and unrealized gains and losses are recognized currently in income.

Securities transactions and related commission revenue and expenses are recorded on a settlement date basis. Generally Accepted Accounting Principles normally requires an entity to record securities transactions on a trade date basis, however, a majority of brokers and dealers record most securities transactions on the settlement date rather than on the trade date. The difference between trade date and settlement date accounting is not material to the Company's financial position at December 31, 2006, nor material to the results of its operations for the year then ended. Interest revenue arising from securities owned and securities purchased under agreements to resell, net of interest expense for securities sold, not yet purchased and securities sold under agreements to repurchase are included in the statement of operations.

Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the members.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Securities Owned and Sold, Not Yet Purchased

Marketable securities owned and sold, not yet purchased, consist of trading securities at market values, as follows:

	<u>Owned</u>	<u>Sold, Not Yet Purchased</u>
Stocks	\$ 21,265,104	\$ 11,102,006
Options	45	-
	<u>\$ 21,265,149</u>	<u>\$ 11,102,006</u>

SPEED TRADING PARTNERS, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

4. Related Party Transactions

At December 31, 2006, the Company had a payable to an affiliate totaling \$2,248. Additionally, the Company had receivables from another two affiliates totaling \$49,709.

5. Clearing Agreement

The Company has a Joint Back Office ("JBO") clearing agreement with Merrill Lynch Professional Clearing Corp. ("ML-PRO"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$50,000 in the preferred shares of ML-PRO. The Company's investment in ML-PRO is reflected as investment in broker-dealer in the statement of financial condition. Under the rules of the Chicago Stock Exchange, the agreement requires that the Company maintain a minimum net liquidating equity of \$1 million with ML-PRO, exclusive of its preferred stock investment.

6. Credit Concentration

At December 31, 2006, a significant credit concentration consisted of approximately \$1.9 million, representing the market value of the Company's trading accounts carried by one of its clearing brokers, ML-PRO. Management does not consider any credit risk associated with this receivable to be significant.

7. Derivative Financial Instruments and Off-Balance Sheet Risk

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk that include exchange-traded futures contracts and short stocks. All derivative instruments are held for trading purposes. All positions are reported in the accompanying statement of financial condition at market value and gains and losses from derivative financial instruments are included in net trading gain in the statement of operations.

Futures contracts provide for the delayed delivery/receipt of securities or money market instruments with the seller/buyer agreeing to make/take delivery at a specified date, at a specified price.

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the statement of financial condition.

SPEED TRADING PARTNERS, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

7. Derivative Financial Instruments and Off-Balance Sheet Risk, Continued

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with which it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

8. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 and $\frac{2}{3}$ % of "aggregate indebtedness", as defined.

At December 31, 2006, the Company had net capital and net capital requirements of \$1,358,030 and \$100,000, respectively.

**INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL**

To the Members of
Speed Trading Partners, LLC

In planning and performing our audit of the statement of financial condition of Speed Trading Partners, LLC (the "Company") as of December 31, 2006, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control.

Also, as required by Rule 17A-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statement in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statement that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in *more than a remote likelihood* that a material misstatement of the financial statement will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the National Association of Securities Dealers and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
