INDEPENDENT AUDITORS' REPORT

To the Member of
Terra Nova Trading, L.L.C.

We have audited the accompanying statement of financial condition of Terra Nova Trading, L.L.C. (the "Company") as of December 31, 2006, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Terra Nova Trading, L.L.C. as of December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

TERRA NOVA TRADING, L.L.C.

**NOTES TO STATEMENT OF FINANCIAL CONDITION
as of December 31, 2006**

1. Organization and Business

Terra Nova Trading, L.L.C. (the "Company"), an Illinois limited liability company, was organized on November 14, 1994. The Company is a registered securities broker-dealer with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers, Inc. The Company is also a registered futures commission merchant with the Commodity Futures Trading Commission and is a member of the National Futures Association. The Company provides clearing and execution services primarily for institutional, professional and retail customers.

2. Summary of Significant Accounting Policies

Revenue Recognition

Securities transactions and related commission revenue and expenses are recorded on a settlement date basis. Generally Accepted Accounting Principles normally requires an entity to record securities transactions on a trade date basis, however, a majority of brokers and dealers record most securities transactions on the settlement date rather than on the trade date. The difference between trade date and settlement date accounting is not material to the Company's financial position at December 31, 2006, nor material to the results of its operations for the year then ended.

Income Taxes

No provision has been made for federal income taxes, as the taxable income of the Company is included in the income tax return of the sole member. Additionally, any state income taxes are paid by the sole member.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash Equivalents

Cash equivalents consist of money market deposits with maturities of less than three months.

Depreciation and Amortization

Depreciation of furniture and equipment is computed using the straight-line method for financial reporting and accelerated methods for income tax purposes. Leasehold improvements are being amortized using the straight-line method over the term of the associated lease.

Securities Purchased Under Agreements to Resell

Securities purchased under agreements to resell are treated as collateralized financing.

TERRA NOVA TRADING, L.L.C.

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

3. Receivables From and Payables to Brokers, Dealers, and Clearing Organizations

The components of receivables from and payables to brokers, dealers, and clearing organizations are as follows:

	<u>Receivables</u>	<u>Payables</u>
Clearing brokers	\$ 122,388	\$ -
Stock borrowed/loaned	48,026,075	-
Fails to deliver/receive	2,620,489	299,436
Clearing organizations	573,291	-
Commissions receivable/payable	<u>205,087</u>	<u>789,748</u>
	<u>\$ 51,547,330</u>	<u>\$ 1,089,184</u>

4. Bank Loans Payable

The Company has a line of credit totaling \$25 million with a Chicago bank. At December 31, 2006, loans outstanding on this credit line totaled \$18,625,000. The loans are due on demand and are collateralized by customers' equity securities.

5. Related-Party Transactions

The Company has made loans and advances to affiliates, which do not bear interest and are due on demand. At December 31, 2006, receivables from affiliates totaled approximately \$1,200,000. The Company also has a payable to an affiliate that totaled approximately \$116,000 at December 31, 2006.

6. Net Capital Requirements

The Company is a broker dealer subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) and is a futures commission merchant subject to the Commodity Futures Trading Commission Minimum Capital Requirement (Regulation 1.17). Under the more restrictive of these rules, the Company is required to maintain "net capital" equivalent to \$1,500,000 or two percent of "aggregate debit items" arising from customer transactions, whichever is greater, as these terms are defined.

Adjusted net capital and aggregate debit items change from day to day. Under the more restrictive of these rules, the Company had net capital and net capital requirements of \$12,379,401 and \$2,163,897, respectively. The net capital rule may effectively restrict member withdrawals.

TERRA NOVA TRADING, L.L.C.

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

7. **Off Balance Sheet Risk and Concentration of Credit Risk**

The Company engages in the execution, settlement and financing of various customer securities transactions, which may expose the Company to certain off balance sheet risks. In the normal course of business, the Company extends secured credit to certain customers. Receivables arising from transactions executed by the Company are collateralized by securities with market values in excess of amounts due. It is the policy of the Company to monitor the market value of the collateral and maintain possession and control of these securities.

The Company engages in various transactions with broker-dealers and clearing organizations. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparties to these transactions. It is the Company's policy to monitor the creditworthiness of each party with which it conducts business.

At December 31, 2006, significant credit concentrations consisted of cash deposited in bank accounts that exceeded federally insured limits. The Company has not experienced any losses in such accounts. Management believes that the Company is not exposed to any significant credit risk on cash.

8. **Employee Benefit Plan**

The Company has established a 401(k) plan for qualified employees. The Company may elect to match employees' contributions and make further discretionary contributions to the plan, subject to certain limitations as set forth in the plan agreement. Company contributions made to the plan during the year ended December 31, 2006 totaled approximately \$96,000.

9. **Commitment**

The Company conducts its operations in leased office facilities and annual rentals are charged to current operations. The lease is subject to an escalation clause based on the operating expenses of the lessor.

The approximate minimum annual rental commitments under non-cancelable operating leases are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2007	\$ 194,000
2008	205,000
2009	217,000
2010	223,000
2011	225,000
Thereafter	<u>150,000</u>
	\$ <u>1,214,000</u>

TERRA NOVA TRADING, L.L.C.

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2006

10. Contingencies

In the normal course of business, the Company is subject to legal actions that involve claims for monetary relief. The Company's legal counsel has indicated that it cannot evaluate the likelihood of an unfavorable outcome or estimate the amount or range of potential loss therefrom. In the opinion of management, based on the consultation with legal counsel, these actions will not result in any material adverse effect on the financial position of the Company.

11. Subsequent Event

On February 20, 2007, the Company changed its name to Terra Nova Financial, LLC.

NOTES

- A. Do not include in item one customers' fully paid and excess margin securities required by Rule 15c 3-3 to be in possession or control but for which no action i is required by the Respondent as of the report date or required action was taken by respondent within the time frames specified under Rule 15c3-3.
- B. State separately in respond to items one and two whether the securities reported in response thereto were subsequently reduced to possession or control by the respondent.
- C. Be sure to include in item two only items not arising from "temporary lags which result from normal business operations" as permitted under Rule 15c3-3.
- D. Item two must be responded to only with report which is filed as of the date selected for the broker's or dealer's annual audit of financial statements, whether or not such date is the end of a calendar quarter. The response to item two should be filed within 60 calendar days after such date, rather than with the remainder of this report. This information may be required on a more frequent basis by the Commission or the designated examining authority in accordance with Rule 17a-5(a)(2)(iv).

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

To the Member of
Terra Nova Trading, L.L.C.

In planning and performing our audit of the statement of financial condition of Terra Nova Trading, L.L.C. (the "Company") as of December 31, 2006, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e)
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3

Also, as required by Regulation 1.16 of the Commodity Futures Trading Commission (the "CFTC"), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Regulation 1.16 in making (1) the periodic computations of minimum financial requirements pursuant to Regulation 1.17, (2) the daily computations of the segregation requirements of section 4d(2) of the Commodity Exchange Act and the regulations thereunder, and the segregation of funds based on such computations, and (3) the daily computations of the foreign futures and foreign options secured amount requirements pursuant to Regulation 30.7 of the CFTC.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's and the CFTC's 'above-mentioned objectives.

Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not *absolute* assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) and Regulation 1.16(d)(2) list additional objectives of the practices and procedures listed in the preceding paragraphs.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC and the CFTC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and the Commodity Exchange Act and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the SEC's and the CFTC's objectives.

This report is intended solely for the information and use of management, the SEC and the CFTC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and/or Regulation 1.16 of the CFTC in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
