INDEPENDENT AUDITORS' REPORT

To the Board of Directors and
Shareholder of Mark Boyar & Company, Inc.

We have audited the accompanying balance sheet of Mark Boyar & Company, Inc. (a New York Corporation) as of January 31, 2007, and the related statements of income, changes in shareholder's equity and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mark Boyar & Company, Inc., at January 31, 2007, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on pages 10 through 12 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

January 31, 2007

Note 1- GENERAL BUSINESS

The primary sources of revenue are brokerage commissions, soft-dollar commissions and fees for research services. Mark Boyar & Company, Inc. (the "Company") clears all of its brokerage activity through a New York Stock Exchange member firm as an introducing broker and receives an agreed percentage of commissions earned.

Note 2- SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

For the statement of cash flows, the Company includes cash on deposit and money market funds with maturities less than three months to be cash equivalents.

Investments

The Company carries all marketable securities at market value. The cost basis of marketable securities at January 31, 2007 is \$24,138.

Fixed Assets

Furniture, fixtures and equipment are carried at cost and are depreciated on an accelerated method with a useful life of five to seven years.

Leasehold improvements are being depreciated on a straight-line basis over a period of twenty years.

Certain Significant Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and reported revenue and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Note 3- INCOME TAXES

The Company prepares its income tax returns on the cash basis of accounting. As a result thereof, various items of revenue and expense will be recognized in different periods for book and tax accounting purposes. This has resulted in a \$24,811 deferred tax asset at January 31, 2007.

Note 4- REIMBURSED EXPENSES

Under an informal agreement, Boyar Asset Management, Inc., an affiliated company, and Mark Boyar & Company, Inc., have reimbursed each other for certain operating expenses. For the year ended January 31, 2007, the amount of such net reimbursement received by the Company amounted to \$370,969. The amount due to Boyar Asset Management, Inc. at January 31, 2007 is \$5,354.

Note 5- MINIMUM NET CAPITAL

As a registered broker-dealer, the Company is required to maintain certain minimum "net capital" as well as a ratio, whereby "net capital" exceeds the greater of \$5,000 or 6-2/3% of "aggregate indebtedness" as these terms are defined in accordance with the provisions of Rule 15c3-1 of the Securities Exchange Commission.

At January 31, 2007, the Company had "excess net capital" in the amount of \$302,936.

Retained earnings may be restricted as to the availability for the payment of dividends. Operations may be restricted in order to maintain the required "net capital" ratio as defined.

Should the company fail to maintain such capital requirements, it could be subject to sanction or possible suspension.

**Report on Internal Control Structure Required by SEC Rule 17a-5
For a Broker-Dealer Claiming an Exemption from SEC Rule 15c3-3
January 31, 2007.**

To the Board of Directors
and Shareholder of Mark Boyar & Company, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Mark Boyar & Company, Inc. (the "Company") for the year ended January 31, 2007, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (the "Commission"), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications and comparisons; and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objective referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at January 31, 2007, to meet the Commission's objectives.

This report is intended solely for the use of the Board of Directors, management, the Securities and Exchange Commission, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.
