HAMERSHLAG, DODELES & COMPANY LLC

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2006

1 SIGNIFICANT ACCOUNTING POLICIES

Business description

Hamershlag, Dodeles & Co., LLC ("the Company") is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and a member of the National Association of Securities Dealers, Inc.

All securities transactions are cleared through a clearing broker on a fully-disclosed basis, and accordingly, the Company does not carry securities or perform custodial functions with respect to these transactions.

Uses of estimates in the preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses during each reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

The Company maintains cash balances at various financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000. The Company's accounts at these institutions may, at times, exceed the Federally insured limits. The Company has not experienced any losses in such accounts.

Securities owned and securities sold but not yet purchased

Securities owned and securities sold but not yet purchased are valued at market or fair value, as appropriate, with unrealized gains and losses reflected in trading activities in the Statement of Income. Market value is generally based on listed market prices. If listed market prices are not available, fair value is determined based on other relevant factors, including broker or dealer price quotations and valuation pricing models which take into account time value and volatility factors underlying the financial statements.

Property and equipment

Property and equipment are recorded at cost. Depreciation is provided for both financial reporting and tax purposes by accelerated methods in amounts sufficient to amortize the cost of the related assets over their estimated useful lives.

Maintenance, repairs and minor renewals are charged to expense when incurred. Replacements and major renewals are capitalized.

1 SIGNIFICANT ACCOUNTING POLICIES - Continued

Income taxes

The Company operates as a limited liability company and the income or loss from operations is reported on the personal tax returns of the members. No Federal or state tax provision is therefore required. If required, a provision for local taxes is made as the Company operates in a jurisdiction that taxes such entities.

Revenue recognition

Commission and trading revenue and their related expenses pertaining to customer and securities transactions are recorded on a trade date basis.

2 NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2006, the Company had net capital of \$302,851, which was \$202,851 in excess of its required net capital of \$100,000. The Company's ratio of aggregate indebtedness to net capital was .34 to 1.

3 CONCENTRATIONS OF CREDIT RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

4 COMMITMENTS AND CONTINGENCIES

The Company is committed under an operating lease for its office space which expires in April 2012 and provides for annual rentals of approximately \$260,000. Rental expense for the year ended December 31, 2006 aggregated approximately \$199,000.

**INDEPENDENT AUDITORS' SUPPLEMENTARY
REPORT ON INTERNAL CONTROL**

Board of Directors
Hamerslag, Dodeles & Co. LLC
New York, New York

In planning and performing our audit of the financial statements and supplemental schedules of **Hamerslag, Dodeles & Co. LLC** for the year ended December 31, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("the Commission"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the criteria stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation Y of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the criteria of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional criteria of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of internal controls future periods is subject to the risk that internal controls may become inadequate because of changes in conditions or that the effectiveness of its design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not meet such criteria in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, except for the condition noted herein, we believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the Commission's objectives.

Our report recognizes that it is not practicable in an organization the size of the Company to achieve all the divisions of duties and cross-checks generally included in a system of internal control and that alternatively greater reliance must be placed on surveillance by management.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
