INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders
Stock USA Investments, Inc.
Carmel, NY

We have audited the accompanying balance sheet of Stock USA Investments, Inc. (Stock USA) as of December 31, 2006 and 2005, and the related statements of income, stockholders' equity and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities and Exchange Act of 1934 and Regulation 1.16 under the Commodity Exchange Act (CEAct). These financial statements are the responsibility of Stock USA's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included a review of Stock USA's procedures for safeguarding securities. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements referred to above present fairly, in all material respects, the financial position of Stock USA as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules A, B, and C listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by Rule 17a-5 of the Securities and Exchange Act of 1934 and the regulations under the CEAct. These schedules are the responsibility of the Stock USA's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

The Company is a member of the National Association of Securities Dealers and registered with the Securities and Exchange Commission. The Company also gives its clients access to use any of its registered representatives to complete security transactions or directly complete any security transaction online. 2. Summary of Significant Accounting Policies

a. Basis of Accounting

The Company has adopted the accrual basis of accounting in the preparation of its financial statements. Consequently, revenue is recognized when earned rather than when cash is received, and expenses and purchases of assets are recognized when the obligation is incurred rather than when cash is disbursed. Proprietary securities transactions and commission revenues are recorded on a trade date basis

b. Cash and Cash Equivalents

For financial statement purposes, the Company considers demand deposits and money market funds to be cash and cash equivalents.

c. Equipment, Furniture & Fixtures and Related Depreciation

The Company capitalizes asset purchases and depreciation is computed on the straight-line basis over the estimated useful lives of the assets.

The accompanying notes are an integral part of these schedules

Report on Internal Control Required by CFTC Regulation 1.16 and SEC Rule 17a-5

To the Board of Directors and Stockholders
Stock USA Investments, Inc.

In planning and performing our audit of the financial statements of Stock USA Investments, Inc. (Stock USA), for the year ended December 31, 2006 (on which we issued our report dated February 22, 2007), we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Act of 1934, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Stock USA that we considered relevant to the following objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because Stock USA does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by Stock USA in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve Systems
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

In addition, as required by Regulation 1.16 under the Commodity Exchange Act (CEAct), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Stock USA that we considered relevant to the following objectives stated in Regulation 1.16, in making (1) the periodic computations of minimum financial requirements pursuant to Regulation 1.17, (2) the daily computations of the segregation requirements of Section 4d(2) of the CEAct and the regulations thereunder, and the segregation of funds based upon such computations, and (3) the daily computations of the foreign futures and foreign options secured amount requirements pursuant to Regulation 30.7 under the CEAct.

The management of Stock USA is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures, and to assess whether those practices and procedures can be expected to achieve the Securities and Exchange Commission's (SEC) and the Commodity Futures Trading Commission (CFTC) above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which Stock USA has responsibility are safeguarded against loss from unauthorized acquisition, use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with U.S. generally accepted accounting principles. Rule 17a-5(g) and Regulation 1.16(d)(2) list additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of Stock USA's internal control would not necessarily disclose all matters in Stock USA's internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving Stock USA's internal control and its operation, including controls for safeguarding customer and firm assets that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC and CFRC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934, the CEAct, and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that Stock USA's practices and procedures were adequate at December 31, 2006, to meet the SEC's and CFTC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, CFRC, NASD, and other regulatory agencies that rely on rule 17a-5(g) under Securities Exchange Act of 1934 and/or Regulation 1.16 under the CEAct for their regulation of registered brokers and dealers, futures commission merchants, and is not intended to be and should not be used by anyone other than these specified parties.
