EQUITEC PROPRIETARY MARKETS, LLC

We have audited the accompanying statement of financial condition of EQUITEC PROPRIETARY MARKETS, LLC as of December 31, 2006 that you are filing pursuant to Rule 17a-5 of the Securities and Exchange Commission. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of EQUITEC PROPRIETARY MARKETS, LLC as of December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

EQUITEC PROPRIETARY MARKETS, LLC

Notes to the Statement of Financial Condition

December 31, 2006

Note 1 Nature of Operations

EQUITEC PROPRIETARY MARKETS, LLC (the "Company") conducts market-making, proprietary trading, and brokerage execution activities in exchange-traded securities and derivative financial instruments. All trades are cleared through another broker-dealer. The Company is a limited liability company organized under the laws of the State of Illinois, and is registered as a broker-dealer with the Securities and Exchange Commission ("SEC"). The Company also provides access to its trading software for affiliated and nonaffiliated entities.

The Company is a wholly owned subsidiary of Equitec Group, LLC ("Group").

Note 2 Summary of Significant Accounting Policies

Use of Estimates—The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Securities and Derivative Financial Instruments—Securities and derivative financial instrument transactions are recorded on trade date. Exchange-traded securities and derivative financial instruments are carried at fair value, based on quoted market prices, with unrealized gains and losses reflected in net trading gains.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

Income Taxes—The Company is not liable for federal income taxes as the member recognizes the Company's income or loss in its tax return. Accordingly, no provision or benefit for federal income taxes has been made in these financial statements.

Fair Value of Financial Instruments—Substantially all of the Company's assets and liabilities are considered financial instruments and are either already reflected at fair value or are short-term or replaceable on demand. Therefore, their carrying amounts approximate their fair values.

Note 3 Securities and Derivatives Owned and Securities and Derivatives Sold, Not Yet Purchased

Securities and derivatives owned and securities and derivatives sold, not yet purchased at December 31, 2006 consist of:

	<u>Owned</u>	<u>Sold, Not Yet Purchased</u>
Equity securities	\$449,971,673	\$ 37,580,732
Equity options	243,704,075	338,619,313
Options on futures contracts	9,980,100	4,032,175
	<u>\$703,655,848</u>	<u>\$380,232,220</u>

EQUITEC PROPRIETARY MARKETS, LLC

Notes to the Statement of Financial Condition

December 31, 2006

Note 3 Securities and Derivatives Owned and Securities and Derivatives Sold, Not Yet Purchased, *Continued*

At December 31, 2006, cash, securities and derivatives on deposit with the Company's clearing broker collateralize amounts due to the clearing broker and securities and derivatives sold, not yet purchased.

Note 4 Related-Party Transactions

The Company has a revolving loan agreement with Group that provides for borrowings of up to \$10,000,000 at an annual rate equal to the sum of two times the federal funds rate plus 90 basis points and matures on May 7, 2011.

Also, the Company reimburses Group for its compensation costs.

The Company is reimbursed for certain expenses, including office space and administrative services, that are shared with affiliated entities.

Access, usage, and technology fees are received from affiliated entities for access and usage of the Company's trading software. At December 31, 2006, other assets includes \$100,000 due from these affiliated entities for such services.

Note 5 Commitments and Contingencies

In the normal course of business, the Company is subject to various unasserted claims, litigation, regulatory and arbitration matters. Because these claims and matters are at preliminary stages, management is unable to predict their outcome. Although the effect of these claims and matters cannot be determined, management of the Company believes, after consultation with legal counsel, that the resolution of these matters will not result in any material adverse effect upon the Company's financial position or results of operations.

Note 6 Financial Instruments with Off-Balance-Sheet Risk

In connection with its market-making and proprietary trading activities, the Company enters into transactions in a variety of derivative financial instruments, primarily exchange-traded equity options and futures contracts. Options held provide the Company with the opportunity to deliver or take delivery of specified financial instruments at a contracted price. Options written obligate the Company to deliver or take delivery of specified financial instruments at a contracted price in the event the option is exercised by the holder. Futures contracts provide for the delayed delivery or purchase of financial instruments at a specified future date at a specified price or yield. These derivative financial instruments may have market risk and/or credit risk in excess of the amounts recorded in the statement of financial condition.

EQUITEC PROPRIETARY MARKETS, LLC

Notes to the Statement of Financial Condition

December 31, 2006

Note 6 Financial Instruments with Off-Balance-Sheet Risk, *Continued*

Market Risk—Derivative financial instruments involve varying degrees of off-balance-sheet market risk. Changes in the market values of the underlying financial instruments may result in changes in the value of the derivative financial instruments in excess of the amounts reflected in the statement of financial condition. Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments and the volatility and liquidity in the markets in which the financial instruments are traded. In many cases, the use of derivative and other financial instruments serves to modify or offset market risk associated with other transactions and, accordingly, serves to decrease the Company's overall exposure to market risk. The Company attempts to manage its exposure to market risk arising from the use of these financial instruments through various analytical monitoring techniques.

In addition, the Company sells securities it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the statement of financial condition at December 31, 2006, at the fair value of the securities and would incur a loss if the market value of the securities were to increase subsequent to December 31, 2006.

Credit Risk—Credit risk arises from the potential inability of counterparties to perform in accordance with the terms of the contracts. The Company's exposure to credit risk associated with counterparty nonperformance is limited to the current cost to replace all contracts in which the Company has a gain. Exchange-traded financial instruments generally do not give rise to significant counterparty exposure due to the cash settlement procedures for daily market movements or the margin requirements of the individual exchanges.

Concentration of Credit Risk—All trades of the Company are cleared through a clearing broker. In the event this counterparty does not fulfill its obligation, the Company may be exposed to risk. The risk of default also depends on the creditworthiness of the counterparties to these transactions. The Company attempts to minimize this credit risk by monitoring the creditworthiness of the clearing broker.

The Company, at December 31, 2006, had uninsured deposits with banks of approximately \$636,000. Management believes that the Company is not exposed to any significant credit risk on cash.

Note 7 Net Capital Requirements

Pursuant to Rule 15c3-1 of the Securities and Exchange Commission, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6-2/3 percent of "aggregate indebtedness," as those terms are defined. Net capital changes from day to day, but at December 31, 2006, the Company had net capital and net capital requirements of approximately \$7,442,000 and \$354,000, respectively. The net capital rule may effectively restrict the withdrawal of equity by the Group.
