REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANT

**To The Stockholders of
Vaughan & Company Securities, Inc.
Ridgewood, New Jersey**

I have audited the accompanying statements of financial condition of Vaughan & Company Securities, Inc. as of December 31, 2006 and 2005, and the related statements of income and retained earnings, changes in stockholders' equity and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Vaughan & Company Securities, Inc. as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

My audit was made for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in Schedules I and II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Company's office is located in Ridgewood, New Jersey. The Company was incorporated in New Jersey in November 1986. The business commenced in March 1987.

Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Estimates used in preparing these financial statements include those assumed in computing commission's receivable, and those used in accruing liabilities for certain expenses. Actual results could differ from those estimates.

Reclassification

Certain reclassifications may have been made to the prior year's financial statements in order to conform to classifications used for the current year.

VAUGHAN & COMPANY SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2006 and 2005

**To the Stockholders of
Vaughan & Company Securities, Inc.
Ridgewood, New Jersey**

February 25, 2007

In planning and performing my audit of the financial statements and supplemental schedules of Vaughan & Company Securities, Inc. (the Company) for the year ended December 31, 2006, I considered its internal control, including control activities for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures (including tests of compliance with such practice and procedures) followed by the Company including tests of compliance with such practices and procedures that I considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemption provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons,
2. Recordation of differences required by rule 17a-13,
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. The objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operations may deteriorate.

My consideration of internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements

being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving internal control, including control activities for safeguarding securities, which I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2006 to meet the SEC's objectives. However, such study, evaluation and examination have resulted in the following comments and recommendations, which existed in prior years also.

- 1) Segregation of duties is not currently in place. All of the check disbursement functions are performed by one person from writing and signing checks to receiving the bank statement and reconciling. Accordingly, I recommend that checks written for over a certain amount be signed by an additional signatory and the invoice stamped or initialed to approve payment. Recognition however is given to the relationship of the person writing the checks to the ownership of the Company.
- 2) Fees charged from or to related entities should be pursuant to a specified formula in a written agreement. Occupancy costs of the entities sharing your office facilities should be specified in written agreements between the property owner and the entity.
- 3) Self evaluation and monitoring activities for reporting information and providing assurance of compliance need to be implemented to assess controls and if necessary take corrective actions on a timely basis.

This report is intended solely for the use of management, the Securities and Exchange Commission, the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be, and should not be used by anyone other than these specified parties.
