WFP SECURITIES CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED JUNE 30, 2007

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company is a wholly-owned subsidiary of WFP Holdings, Inc. and was incorporated in the state of California on December 2, 1987. The Company is registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA), formerly known as the National Association of Securities Dealers, Inc. (NASD). The Company's principal business activity is the sale of securities. Operations began January, 1994.

Securities Owned and Sold, Not Yet Purchased - Securities positions are valued at market value or estimated fair value as determined by the board of directors. The resulting difference between cost and market (or fair value) is included in income.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis, which is the same business day as the transaction date.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with an original maturity date, when acquired by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Concentration of Risk - Substantially all the Company's cash is on deposit at one financial institution and the balance at times may exceed the federally insured limit. Due to the strong credit rating of this financial institution, the Company believes it is not exposed to any significant credit risk to cash.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - OFF-BALANCE-SHEET RISK AND CLEARING AGREEMENT

The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include exchange-traded and over the counter options and securities purchased and sold on a when-issued basis (when-issued securities). These derivative financial instruments are used to meet the needs of customers and are subject to varying degrees of market and credit risk.

In addition, the Company's customers may sell securities that they do not currently own and will therefore be obligated to purchase such securities at a future date.

Since the Company enters into the forgoing transactions involving derivatives and other off-balance sheet financial instruments solely for the benefit of its customers, the Company does not bear any of the credit or market risk of those customers, with the exception of the risk to the Company should its customers fail to honor their obligations related to the foregoing derivatives and other off-balance sheet financial instruments, as mentioned below.

Clearing Agreement - In order to facilitate securities transactions, including the aforementioned transactions, in June, 2006 the Company entered into an agreement with another broker/dealer (Clearing Broker/Dealer) whereby the Clearing Broker/Dealer will execute and clear securities transactions for the Company on a fully disclosed basis. Pursuant to this agreement, the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the pur-

chase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

The initial term of the aforementioned agreement is three years and is automatically renewed for one year terms unless notice of termination is given 45 days prior to the agreement anniversary date. Under the terms of the agreement the Company must receive written approval from the Clearing Broker/dealer before entering into a similar agreement with another broker/dealer while this agreement is in effect. The Company is required to deposit \$10,000 with the Clearing Broker/dealer to assure the Company's performance under the agreement. Other provisions are included therein.

NOTE 3 - LIABILITIES SUBORDINATED TO CLAIMS OF GENERAL CREDITORS

The borrowing under a subordination agreement at June 30, 2007 is listed below. The subordinated lender is a shareholder of WFP Holdings, Inc.

Liability pursuant to secured demand note collateral agreement, 8% due December 31, 2007	<u>\$ 30,000</u>
--	------------------

The subordinated borrowing is covered by an agreement approved by the FINRA and is thus available in computing net capital under the Securities and Exchange Commission's Uniform Net Capital Rule. To the extent that such borrowing is required for the Company's continued compliance with minimum net capital requirements, it may not be repaid.
